N. Y. Stocks

NEW YORK, Jan. 22.—(Weekly Wall Street Review). The net result of an active week in the stock market was distinctly favorable to the bears or short interest, prices of leading issues, as well as many speculative shares ending substantially under maximum quotations of the previous fortnight.

Money was the dominant factor, rates for full and time funds evincing harder tendencies. Heaviness of various steel and equipment shares directed renewed attention to the unsatisfactory state of those industries. Estimates of the United States Steel corporation's earnings for the final quarter of 1920, to be issued next week, were unfavorable.

Exchange on the principal European centers was at highest quotations in three to six months.

NEW YORK, Jan. 22.—Shorts renewed selling of popular issues in the stock market today, causing losses of one to two points in various shares, especially oils, steels, equipments and shippings. Specialties also were depressed to the same extent.

Catarrh Cannot Be Cured with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Catarrh Medicine was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonic known, combined with some of the best blood purifiers. not differentiate the division of construction from that of operations and concludes that because there was petty graft among minor ships' officers in the victualing and repairing of ships in operation, that the entire structure of the corporation was honey-combed by a like condition. "Graft in ship operations has from time immemorial been considered one of the prerequisites of petty officials and is a difficult disease to eradicate. It has no place in the operations of an American fleet and should be treated with an iron hand.

"But it is to be regretted that the Fisher-Richardson charges are couched in such general terms that they have besmirched the whole structure of the shipping board and fleet corporation with the slime of suspicion. Many of the charges should have been made in the police courts, rather than in a report of such importance." The statement says: "The effect of the testimony thus far presented before your committee has been to seriously impair public interest in the establishment of an American merchant marine to practically destroy the market for shipping securities and to make the already difficult task of the United States shipping board much more difficult. This effect has been produced in part by sensational headlines, in part by a lack of appreciation of the conditions attend-
