BEAUTY SHOW IN CHICAGO ADDS TO FEMININE WILES

CHICAGO—An educational beauty show, said to be the first of its kind and size to be held outside of Paris, will be staged here the week beginning February 28.

The show is being sponsored by nearly 500 manufacturers of practical aids to beauty, but one of its announced purposes will be to agitate against the excessive use of cosmetics and to demonstrate benefits which may be obtained from the proper use of the proper kinds of beauty aids.

There will be dozens of experts to instruct the women. Women artists, psychologists, health and dietetic specialists and beauty experts will assist at the exposition—all with the same object in view, that of helping American women develop the beauty they have and to become more beautiful.

According to the promoters of the show, the "Paris" perfume of a certain soap which blends with a certain perfume, and one of the objects of the show will be to have the experts aid each woman in deciding what particular perfume or powder is best suited to her individuality.

In explaining the purpose of educating American women in the development of beauty at the show, W. G. Hamilton, director, said: "American women are the most naturally beautiful in the world. There is only one thing they may be said to lack in comparison with the women of other countries and that is the art of accentuating and refining their loveliness. There is at present a tendency on the part of women toward overdressing, overgrooming and too startling adornment. Such a tendency, as well as the tendency toward dowdiness, can be corrected only through widespread educational propaganda among our women."

Invitations have been issued to cities throughout the country to send their most beautiful women and girls. There will be a beauty contest for high school girls and other contests to determine the possessor of the most beautiful hair, eyes, complexion, perfect figure, the best kept hands, and the prettiest foot and ankle.

Clothes will not play an important part in the show, except insofar as the experts will contrast the proper and improper manner of dressing and the relation of bodily health and beauty.
