

Local and Personal

The present prospects are for wonderful fruit and other crops in the Rogue River valley this year because of the over 15 inches of precipitation so far and the mild winter. The indications are for a record breaking fruit crop, as is shown by the heavy setting on the trees. The fruit is no further advanced at this time than last year, it is said. Alfalfa is everywhere reported to be growing magnificently.

Over 2000 cans of government bacon have been sold in eight weeks by the Groceteria. Getter get what you want before it's all gone.

Huge tire sale now going on at the Busy Corner—Federal tires at greatly reduced prices, and all of it new and guaranteed stock.

ARCH PRESERVER SHOE

Building Shoes Like Bridges—

Most shoes are just "made"—all that they are intended for are to be mere "foot coverings." The preservation of the foot is not taken into consideration.

That is where the ARCH PRESERVER SHOE and ordinary shoes differ. They are built on a basic principle—they have a wide bridge reaching from the ball of the foot to the heel, anchored securely in place.

It is this bridge that supports the arch gently yet firmly—it keeps it in its normal position and preserves the foot.

"Shoes built to a principle—Not mere Foot Coverings"

T. G. HEINE, M. D. Physician and Surgeon
Surgery of Eyes, Ears, Nose and Throat. All diseases of these organs treated. Glasses fitted. 314-315 Liberty Bldg., Cor. Main & Gray Sts.

Take It In Time!

DO you know that by far the larger number of the common ailments of women are not surgical ones; that is they are not caused by any serious displacement, tumor, growth, or other marked change?

DO you know that these common ailments produce symptoms that are very much like those caused by the more serious surgical conditions?

DO you know that many women and young girls suffer needlessly from such ailments? More than that, they endanger their health by allowing their ailments to continue and develop into something serious.

If treated early, that is, within a reasonable time after the first warning symptoms appear, serious conditions may often be averted. Therefore, at the first appearance of such symptoms as periodic pains, irregularities, irritability and nervousness, Lydia E. Pinkham's Vegetable Compound should be taken. It is prepared with accuracy and cleanliness from medicinal plants. It contains no narcotics nor poisonous drugs, and can be taken with perfect safety.

The Vegetable Compound acts on the conditions which bring about these symptoms in a gentle and efficient manner. The persistent use of it shows itself in the disappearance, one after another, of the disagreeable symptoms. In a word, Lydia E. Pinkham's Vegetable Compound acts as a natural restorative, relieving the present distress and preventing more serious trouble.
