

Local and Personal

The work of constructing the Medford district irrigation system, which was begun several days ago by the Rogue River Valley Canal company camps near Jacksonville and Central Point is progressing in these sections, and preparations are being rushed to establish other camps in other sections. The steam shovel camp will be established near Phoenix in about a week. A carload of horses is expected by the company hourly from Washington. In all the company will use about 150 horses along with a force of 200 men when the work gets well under way.

Have your motor cylinders rebored and fitted with DeLuxe pistons at Riverside Garage. Best equipped shop for cylinder reboring in southern Oregon. 297*

\$100 Reward, \$160

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative power of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, 75c.

Mr. and Mrs. E. B. Price are guests at the Holland from Eagle Point, having arrived Tuesday.

There are more Buick automobiles in use in the world today than any other make with one exception and that a small four passenger car. 297*

An illustration of the spreading fame of Crater Lake is shown by questions asked by tourists and other guests from a distance of the hotel clerks of Medford as to when the stage leaves for the lake and how long it will take to make the round trip, under the impression that the season at the lake is open and it would be nice while here to run up for a day and see it. They always express disappointment to learn that the season for seeing the world wonder won't open until about July 1st, and that there are 12 feet of snow at the lake vicinity. Phew! they then ejaculate.

San Franciscans at this hotel are Arthur C. B. Gilbert, G. S. Move, H. L. Monheimer, D. S. Fariston, R. McManison, and M. Saper.

ELECT SEVEN NEW DIRECTORS CHAMBER OF COMMERCE APRIL

Within a day or two the members of the Medford Chamber of Commerce will receive their ballots for the primary election of seven of the board of directors whose term of office expires at the annual meeting in April. The election will close on March 15, after which the final election takes place.

Included with the primary election ballots will be found a referendum ballot for members upon the question of the establishment of a community chest here in Medford. Negative and affirmative arguments are presented therein, but a wider discussion of the question should be given the subject, and for that purpose the columns of the Mail Tribune are offered. No article covering this subject should contain more than 300 words. The referendum ballot is returnable with the primary election ballot as a matter of saving postage.

Special communication. M. E. M. Degree, Tuesday, March 8th, 7:30 p. m. Visitors welcomed. 297* A. F. NOTH, Secy.

Trains in Siberia are sometimes a week late.

New De Mille Film at Page

Stage settings of unusual beauty are assured in any photoplay bearing Cecil B. De Mille's name and "Something To Think About", the picture which will be shown at the Page theatre tomorrow, easily reaches the high standard set by previous De Mille productions.

But "Something To Think About" has, in addition to several stage settings of remarkable beauty, some of the most realistic beauty, some of the most realistic backgrounds of a humbler sort ever seen in a motion picture production.

"Idols of Clay", Rialto

Tropics mingle with the London underworld in the latest Fitzmaurice photoplay. A thrilling romance of three worlds—a languorous island in the South Seas, London's Bohemian society, and opium dive in the Limehouse demi-monde. Produced with the luxurious backgrounds and sensational scenes for which George Fitzmaurice is famous—that's "Idols of Clay," our attraction for tomorrow and the remainder of this week at the Rialto theatre. Mae Murray and David Powell are featured.

R. A. M. No. 32.

Special communication. M. E. M. Degree, Tuesday, March 8th, 7:30 p. m. Visitors welcomed. 297* A. F. NOTH, Secy.

Trains in Siberia are sometimes a week late.

Building Shoes Like Bridges—

Most shoes are just "made"—all that they are intended for are to be mere "foot coverings." The preservation of the foot is not taken into consideration.

That is where the ARCH PRESERVER SHOE and ordinary shoes differ. They are built on a basic principle—they have a wide bridge reaching from the ball of the foot to the heel, anchored securely in place.

It is this bridge that supports the arch gently yet firmly—it keeps it in its normal position and preserves the foot.

"Shoes built to a principle—Not mere Foot Coverings"
