

Local and Personal

The situation in the back to normalcy movement in dress and facial hair make up in the high school was quiet today following Thursday's excitement. The majority of the girls again came to school plainly dressed and without paint and powder, but there were a few backsliders among them. The boys had their fun Thursday and let it go at that. The feminine students are badly up in the air, however, owing to the fact that the boys are loud in their praise of the change to plainness and one and all declare they like it. The girls themselves, seem to like the change, but this unexpected masculine line soft soap naturally inclines them to want to return to the former situation. However, only a few of the girls students dressed extravagantly or used paint offensively at any time and this flare up is expected to bring a reform in this respect.

INDIGESTION CAN'T STAY

Stomach Pain, Sourness, Gases, and Acidity ended with "Pape's Diapepsin"
Out-of-order stomachs feel fine at once! When meals don't fit and you belch gas, acids and undigested food. When you feel indigestion, pain, lumps of distress in stomach, heartburn or headache. Here is instant relief.
Just as soon as you eat a tablet of two of Pape's Diapepsin all the distress, indigestion and stomach distress caused by acidity will end. These pleasant, harmless tablets of Pape's Diapepsin always put sick, upset, acid stomachs in order at once and they cost so little at drug stores.

Recent heavy rains in the upper part of the valley have caused the river to maintain a fairly heavy flow. The stream had commenced to drop to a low stage last week, but because of the saturated condition of the ground, the rainfall finds its way into the stream. It is now carrying about 6,000 second feet of water. The stage must recede to about 400 second feet before the work on the Savage rapids dam can be resumed with the certainty that the water can be controlled.—Grants Pass Courier.

Hilvilla TEA

The exceptionally fine flavor of Hilvilla never varies—It's always good, and still better, it always pleases
Both Kinds GREEN or BLACK
IF HAIR IS TURNING GRAY, USE SAGE TEA
Here's Grandmother's Recipe to Darken and Beautify Faded Hair.
That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.
Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called "Wyeth's Sage and Sulphur Compound." This can always be depended upon to bring back the natural color and lustre of your hair.
Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

FRECKLES

March Worst Month for This Trouble—How to Remove Easily.
There's a reason why nearly every body freckles in March, but happily there is also a remedy for these ugly blemishes, and no one need stay freckled.
Simply get an ounce of Othine—double strength, from your druggist and apply a little of it night and morning and in a few days you should see that even the worst freckles have begun to disappear, while the light ones have vanished entirely. Now is the time to rid yourself of freckles, for if not removed now they may stay all Summer, and spoil an otherwise beautiful complexion. Your money back if Othine fails. Adv.

No One Would Tinker With the Engine to Correct Fire Trouble
Yet very frequently people "take medicine" on just such a basis. For instance, they take a "kidney remedy" when they have a backache even though it's well known that kidney trouble is not indicated by backache. They take something for "thin blood" when it is well known that anemia is not a disease but a SYMPTOM of some trouble. The sensible way, the sure way, the SAFE way is to let a doctor find out just where the trouble is so that he can write a prescription intelligently to help nature resume her proper work.
Our work is to see that your prescription is exactly as the doctor orders it.
