

Local and Personal

The most beautiful Easter day in recent years was that of yesterday, with its sunshine and balmy air, which was not only conducive to church going but for auto rides and was all the more appreciated following the five previous rainy and chilly Sundays. The churches had large Easter audiences at both services and the Pacific highway saw long strings of autos afternoon and evening. Besides, many people enjoyed outings to the hills gathering wild flowers, or at the river. The back is that portion of four anatomy to which your "friends" direct their remarks. From Chicago Mr. Mansfield, who is a member of the National Farm Bureau Federation executive committee, and at the request of President Howard of the federation, will go to Washington, D. The bride and groom were formerly Reed college students, and have a host of friends who wish them a happy and successful wedded life. Can you tell your neighbor by the looks of his back? Are you a good judge of shoulder contour and waist pattern? If not, a little study in surface physiology is in order for a "Who's Who" in Medford movies, with an unique guessing contest to be on the program soon at the Page theater. The stunt is this: Fifty or 60 prominent Medford citizens will be "filmed" by the movie camera from the back. Then they will be switched around and taken with a direct front view. When shown on the screen, the backs of these individuals will be numbered, and theater patrons will be requested to guess the identity of the local personages whose spinal columns are exposed to view. Several substantial prizes will be distributed to the persons making the greatest number of correct names.
