

ASPIRIN

Name "Bayer" on Genuine

Take Aspirin only as told in each package of genuine Bayer Tablets of Aspirin. Then you will be following the directions and dosage worked out by physicians during 21 years, and proved safe by millions. Take no chances with substitutes. If you see the Bayer Cross on tablets, you can take them without fear for Colds, Headache, Neuritis, Rheumatism, Earache, Toothache, Lumbago, and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid. Adv.

NOTICE

To Exterminate Ground Squirrels

Every person, firm, co-partnership, company or corporation residing on, owning, leasing, occupying, possessing or having charge of or dominion over any land, building, wharf or dock infested with digger ground squirrels in Jackson county, Oregon, is hereby notified to begin at once to effectively exterminate and destroy all such DIGGER GROUND SQUIRRELS.

The following poison for mixing and instructions for use thereof is the method most expedient and effective to be used for the extermination and destruction of such ground squirrels and is hereby recommended, to-wit, alkaloid strychnine used on either barley or wheat, barley preferred, mixed according to the following formula and manner, to-wit:

- Barley, clean grain.....16 quarts
Strychnine (powdered alkaloid).....1 ounce
Bicarbonate of soda (baking soda).....1 ounce
Thin starch paste.....1/2 pint
Heavy corn syrup.....1/2 pint
Glycerine.....1 tablespoonful
Saccharine.....1-10 ounces

This material should be mixed as follows: Mix thoroughly 1 ounce of powdered strychnine (alkaloid) and 1 ounce of common baking soda. Sift this into 1/2 pint of hot water and stir to a smooth creamy mass. The starch paste is made by dissolving 1 heaping tablespoonful of dry glass starch in a little cold water, which is then added to 1/2 pint of boiling water. Boil and stir constantly until a clear thin paste is formed. Add 1/2 pint heavy corn syrup and 1 tablespoonful of glycerine and stir thoroughly. And 1-10 ounce of saccharine and stir thoroughly. Pour this mixture over 16 quarts of clean barley and mix well so that each grain is coated.

One quart of the poisoned grain mixed as aforesaid is sufficient for forty or fifty baits and this quantity scattered along squirrel trails or on clean hard places on the surface about the holes will not endanger stock. Strychnine in any form other than the powdered strychnine (alkaloid) is not effective in the above formula.

From the date hereof until May 1st is the most effective time to poison and destroy the digger squirrels, as they are just emerging from their hibernation. They are hungry and food is scarce.

The County Court of Jackson County, Oregon has secured a large amount of strychnine and the other ingredients necessary for the mixture, and a quantity thereof has been mixed and is now on sale to the farmers or persons interested at actual cost and may be had by applying to the undersigned at his office in the Liberty Building or at the following places:

- Ashland Fruit Association, Ashland.
D. M. Lowe, Talent.
Brown's Store, Talent.
Phoenix Mercantile Co., Phoenix.
Rogue River Fruit & Produce Ass'n, Medford.
Fick Store, Jacksonville.
Perrill Store, Applegate.
Paxson Drug Store, Central Point.
Brown Bros., Eagle Point.
Kater & Son, Brownboro.
Browners Drug Co., Gold Hill.
Don Wilson, Rogue River.
Table Rock Store, Table Rock.

If any person herein designated shall, within thirty days from the first publication of this notice, fail to begin in good faith to exterminate, eradicate and destroy, according to the method aforesaid, or by any other effective means said ground squirrels herein designated, the County Court of Jackson County, Oregon, will appoint a person or persons to proceed with the extermination and eradication of such ground squirrels, and the cost thereof incurred will be assessed to such land, building, wharf or dock, and unless paid will become a lien against the same, for the extermination of said ground squirrels.

This notice is published pursuant to the statute in such case made and provided for two consecutive weeks or three issues, and all persons described therein are required to take notice thereof.

Dated and first published this 14th day of March, 1921.

C. C. CATE, County Agent for Jackson County, Ore. Adv.

POPULAR HOTEL MAN TO CONDUCT CRATER L. LODGE

The Northwest Hotel News announces that Mr. E. E. Larimore has been selected to go to Crater Lake National park and take charge of the hotel there. The securing of his services will settle satisfactorily the question of the hotel management at this most popular resort of Oregon. Mr. Larimore will be under the direction of A. L. Parkhurst.

Mr. Larimore is well known over the country as a successful manager. His work at the Oregon in Portland, after the failure of Wright & Dickinson, was such that he turned the tide of business from a distinct loss, at the time he took it, to a substantial gain when he left it, to take charge of the housing proposition at the Standifer Ship Yards under the U. S. shipping board. Here he had charge of the big Liberty hotel and thirty bungalows for a period of three years.

Mr. Larimore has always been very active in all civic matters, having been one of the successful speakers on all Liberty loan and Salvation Army drives during the period of the war, and in 1917 he was the president of the Rose Festival association and through his untiring efforts with nothing but opposition, and very little money at the hands of the festival board, succeeded in giving Portland a festival that year second to none in its history.

The traveler and tourist will be assured that all that is necessary in the way of hospitable and courteous treatment and service will be dealt out for his comfort and pleasure. We believe "Larry" will put Crater Lake on the map. It is certain he has the best wishes of the entire hotel fraternity.

Crater Lake Lodge will officially open July 1st for the 1921 season and probably close September 30. The shipyard hotel will close down in time for "Larry" to transport his crew direct to Crater Lake. His chef J. C. Fritz, formerly with the Arlington and University clubs, has a record for good culinary work and the entire crew is loyal.

The Screen At the Rialto. The picture of pictures, "Trumpet Island," now showing at the Rialto theatre, is a masterpiece in film production. Even the titles are different from those in other pictures. They are allegorical and tell the story of the action in a strange manner. This adds to the beauty of an already artistic story in which contrast is the chief aim. Industry, poverty, wealth, love, debauchery, simplicity, yin and the spectacular are blended and woven into the fabric of a human life.

Gouverneur Morris is responsible for the story and it measures up to his highest efficiency. Comedy, thrills and symbolism are blended in such a manner as to make the production the chief-d'oeuvre of motion picture art.

Fun with a punch, comedy with strong dramatic action—that's what Rex Beach gives picture fans in his new release, "Going Some," which opened a two days engagement at the Pogo theatre yesterday, founded on his own famous stage and book success. It's a thirty-third degree chuckle chaser, guaranteed to be a laughing gas tonic for that tired feeling. It's a fifteen-minute humor, relaxes taut muscles and nerves alike with laughter. A college tenderfoot from the east is taken, at his own boast, as a champion sprinter by a lot of cowboys and compelled to race an A. E. F. sprinting champion! He has to make good or lose his girl. And he wins! How he wins is the fun of the thing.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles. Have you a bad taste, coated tongue, poor appetite, a lazy, drowsy feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets, the substitute for calomel. Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their "olive" color. They do the work without griping, cramps or pain. Take one or two at bedtime for quick relief. Eat what you like.

ASHLAND WILL ERECT MEMORIAL TO WAR HEROES

ASHLAND, April 11.—There is to be one spontaneous movement in this town absolutely devoid of "drives," "quotas," and even the semblance of a campaign. This refers to the Soldier Memorial, a tribute of respect and affection which has already passed beyond the blueprint stage, inasmuch as the contract has already been let, following the approval and acceptance by a committee of a specific design for an enduring memorial. Moreover, no requisitions will be made upon Italian marble or New England granite in the construction of this monument, for the Southern Oregon Granite Co., on or before May 30, is under contract to deliver and place in position this memorial shaft, which will be constructed of native material as quarried from local surrounding hills. The specific contract cost will be \$700. As before mentioned, the donations are to be voluntary ones, without solicitation. Local banks will receive contributions, in fact the date set for acceptance of some was April 4, and it is confidently hoped that by this time the required amount has been fully, if not "oversubscribed." Any excess over the amount needed to apply on the monument proper will be diverted to care of the memorial plot, consequently the ideal thing to do in the premises is to make this fund at least an even thousand dollars, and we certainly cannot afford to do less.

The site of the memorial will probably be in Ashland cemetery, though many prefer a secluded nook in the city parks as a more appropriate spot, viewed from the standpoint of its being more accessible to the public gaze. The date of unveiling will be on Memorial day, Monday, May 30, a date in the calendar which will be more than ordinarily observed locally. The tribute will be one to the soldiers of all wars in which the nation has been engaged. If particular stress is laid upon honoring the memory of the young fellows who made the supreme sacrifice during the late war, it is due to the circumstance that the bereavement is well nigh a general one to those of the present day and generation. Time may have healed the scars of former conflicts, but today even those who have not met with a personal loss, feel prompted to pay the tribute of respect and to sympathize with and comfort those who mourn. In other words, the universal patriotic equation will be supplemented by the sympathetic one as individually expressed. Both military and civic organizations will vie one with another in giving the monument project material and moral support, and at a recent session the city council voted fifty dollars to the fund.

Over a year ago, at public exercises in this city, the nearest of kin of the boys of Ashland and vicinity who perished in the world war, were presented with honorary certificates at the instance of the French government. At that time the list was as follows: Earl D. Beeson, Talent; Walter Ray Davis; Arthur M. Decker, 1st Co. Eng., C. A. C.; Willis Hines, Co. A., 28th Inf.; Algie V. Loomis, 1st Co. Eng., C. A. C.; Arthur Ray Morgan, 5th Marines; Walter Anderson Phillips; Orrie H. Powers, Talent; Archibald Smith; Horatio Sanford, Jr.; Herbert Guy Spencer, Bat. E, 65th C. A. C.; Clement Summers, Jr.; Philip R. Trefren; Forrest G. Wolcott; James Merle Fountain. This constituted the honor roll at that time, the motto displayed at the exercises being "Dulce est deorum est pro patria mori." Since this anniversary, two more well known Ashland boys' names have been added to the list, those of Ralph Frealey, who lost his life due to the tragic accident incident to artillery target practice at Camp Lewis last summer, and John Heston Jones, of Battery F, 65th C. A. C., who passed away in this city last week.

It is a coincidence that three separate Ashland families each had four of its members in service during the world war, and each lost one of its sons due to war or from causes incident thereto. A. C. Spencer's sons were Bernard E. James M. Herbert Guy, and Donald M. Herbert, more familiarly known as "Guy," died in France. The father is a veteran of the civil war, the wife and mother being also a veteran still on the active list in the ranks of the Woman's Relief corps. Mr. Spencer was the initial contributor to the Memorial Monument fund. The Wolcott family was represented by Horatio, the father, and sons Forrest, Guy and Phil. Forrest died at Port Stevens. The father and two sons are all members of the National Guard organization. Mr. and Mrs. C. W. Fraley's four boys were Floyd, Milton, Earl, and Ralph, the latter of whom lost his life due to accident as heretofore noted. Floyd served in a semi-military capacity with the Y. M. C. A., and is still overseas in central Europe as a "Y" worker.

EAGLE POINT EAGLETS

By A. C. Howlett

Among the business callers during the week not mentioned in my last was Gus Peck of Lake Creek, John Greb and George W. Stowell, the last named being the chicken king who were in town the first part of the week. Mr. Stowell having come to town to have his car overhauled by our blacksmith and machinist, W. L. Childreth and while I naturally asked

all kinds of questions about his hen-berry business and learned that he has about 800 laying hens, and that about seven-eighths of them were laying now. That he had one bunch of two-year-old hens, and that they do not lay so well as the year-old hens, quite a falling off from what they did last year, that the creamery men were only paying 18c a dozen for eggs and the result was that he was storing his eggs to be put on the market later when the price was better, that he had about all of his farm sowed in alfalfa, and between his hens and cows he was managing to live and keep his head above water, or in other words is independent.

Marsh Garrett, another one of our prosperous farmers and stock man, who owns two stock ranches, one on Lake Creek and the other on the head waters of South Little Butte Creek was in town twice during the week, and reports that stock is doing fine, although he seems to think that the bottom has dropped out of the price. There was a stranger came out from Medford and took dinner at the home of Mr. Garrett. He said that he came out to look over a tract of land that was offered for sale. He showed him where the land was situated, he went and saw it, but it did not impress his views as to how it suited him. I did not learn his name.

E. Weigid, representing one of the Medford auto companies and Thomas Sween of Butte Falls were here for dinner. John Allen and wife were business callers Tuesday and Thursday. They passed through our town and went to Medford, bringing back quite a load of their wagon. Mr. Allen is the road superintendent for the Butte Falls road district and reports that he has run over that sticky road on Reese creek with a heavy grader and improved it considerably, but that the sticky is so wet that it cannot be helped much until it dries out more, and that he has fixed some of the worst mud holes along the route between the Reese creek school house and the foot of Rocky Hill.

Charles Brown, the Fordson man of C. E. Gatte's shop, was here for dinner and talking Fordson to all that he meets. Miss Margaret Sears of Reese Creek came out on the stage from Medford and the Eagle Point-Derby was so loaded with mail and passengers she had to lay over. That is a very common thing, as the mail man cannot run anything larger than a Ford and it takes about all of the room for the Mail and parcel post.

John Norris, the foreman on the Y. M. W. H. orchard, was in town, having some repair work done by our blacksmith, on some of his farm machinery.

Horrick Wheeler of Medford came in late for dinner Wednesday, he had been up to R. M. Conley's after a horse and found some of the roads so bad that he was late for dinner.

Mrs. Viola Koontz of Butte Falls has been here in town visiting her brother, Polk Smith and other relatives during the past few days. Fred Niel of Ashland came in Wednesday for dinner and remained until Friday. He was examining the section of the county selling oil stock in one of the oil fields of Montana. It appears that he and a few others have secured a lease on a forty-acre tract of land in the oil fields of Montana, where oil has been found in great abundance, and he made it so plain to some of the folk around here that they could almost see the oil coming right into their pockets already coined into gold. He seemed to be having some success in his undertaking, as he claimed to have sold right around 12,000 worth of stock in Ashland.

Mr. Holser of Grants Pass was also a dinner guest at the same time Wednesday.

Luke Ryan, one of the capitalists of Jackson county, formerly a mercantile business in Medford, cash-chant of Jacksonville and later in the chair on the Medford-Eagle Point stage on his way up to his ranch on the mouth of Big Butte near McLeod.

Mrs. Fred Dutton was here visiting her father, S. H. Harnish about the middle of the week.

W. D. Steidman and Vernon Dewa of Medford were among the diners at the Sunnyside Wednesday.

Miss Jean Goad and two of her granddaughters, Mrs. H. Lewellyn and her sister, Miss Beattie May Tunley of Grants Pass came in Wednesday and were met here by another granddaughter, Mrs. Robert McCabe and taken out to their home. Mrs. C. E. Bellows brought Mrs. McCabe in and took the company out for her, a very neighborly act.

Mr. and Mrs. R. L. Burdick, formerly of Ashland, but now of Grants Pass, were here for dinner also Wednesday. Mr. Burdick for some time visited out of town, buying hogs and cattle, but since then has been interested in the oil fields of California. Our town council has been utilizing the lumber taken off the floor of the footbridge for repairing our sidewalks. Our janitor of the school, Mr. Scheibly, performed the task.

Mr. and Mrs. Kelso of Derby were business callers Thursday. Mrs. Roy Ashpole, wife of one of our popular hardware merchants, who is in town confined to her bed in Medford at the home of her mother-in-law, and husband, Mr. and Mrs. John Ashpole, has so far recovered as to be able to come home and assist in doing the house work. Of course, she had our old reliable doctor formerly of this place, Dr. W. P. Holt, now of Medford.

The Stanley brothers, Roy and Ralph, butchered some eight or ten young calves and shipped them to Klamath Falls, a comment on our market in and around Medford.

I find that I am getting this letter too long, so will stop for this time, but will write again Wednesday.

REPORT SHOWS WHAT CHAMBER OF C. HAS DONE

The publication of the annual report of the activities of the Medford Chamber of Commerce in this issue, is for the purpose of acquainting the citizens of Medford with what was accomplished during the past fiscal year. It also explains the operation of the Chamber of Commerce, which is along the most progressive lines to secure results.

In the past it was generally believed, standing committees appointed in the beginning of the year, where each member of the board of directors was the chairman of such committees, was the ideal method of operation. This was found to be inadvisable as many of the committees were committees in name only and not in action. As the chamber now operates, it appoints a committee to perform specific duty after which it is relieved of further service and discharged.

The chart form of the annual report shows that the membership is the foundation and it is from them that the board of directors receive their delegated authority. The board in turn obligates a committee to provide forum facilities through which the membership has the opportunity to express their desires of what they would like to see the board of directors accomplish. Any action therefore, of the forms or any other meeting of the membership goes to the board in the nature of a recommendation. The board in turn, upon acting favorably upon these recommendations appoint committees with instructions as to the limit of their action, to secure the accomplishment.

During the past fiscal year the forum committee conducted fifty-two forum meetings. There were two other membership meetings during the fiscal year. In bringing about the recommendations and also to secure results of projects which originated with the board of directors, there were forty-three committees who served during the year.

Of the twenty-two accomplishments, some were necessarily for the benefit of the organization, whereas the others were country-wide. A close study of the report by the citizens is desired in order that they may be in position to answer the question "what has the Chamber of Commerce done."

DRIVE AWAY HEADACHE Rub Musterole on Forehead and Temples

A headache remedy without the dangers of "headache medicine." Relieves headache and that miserable feeling from colds or congestion. And it acts at once! Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Used only externally, and in no way can it affect stomach and heart, as some internal medicines do. Excellent for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, all pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frozen feet, colds of the chest (it often prevents pneumonia).

Von der Heide, Eagle Point, Thos. E. Nichols, Eagle Point.

LEADING AUTHORITIES NOW SHOW JUST WHAT TANLAC REALLY IS

Physiological Action of Principal Ingredients of Celebrated Medicine On the Human System Is Explained.

SUPREMACY CLAIMS WELL SUPPORTED

Many of the Medical Elements Have Been Known and Used Since Civilization First Began.

Tanlac, the celebrated medicine, which has been accomplishing such remarkable results throughout this country and Canada, is composed of the most beneficial roots and herbs known to science. The formula is purely ethical and complies with all National and State Pure Food and Drug Laws. Altogether, there are ten ingredients in Tanlac, each of which is of recognized therapeutic value.

Many of these ingredients have been individually known and used since civilization first began, and some of them have been used and prescribed by leading physicians everywhere, but until they were brought together in proper proportion and association, as in the Tanlac formula, humanity had not heretofore realized their full value and effect. In referring to one of the more important ingredients of Tanlac, the Encyclopedia Britannica says: "It has been the source of the most valuable tonic medicines that have ever been discovered." In referring to others of the general tonic drugs contained in Tanlac, the 13th Edition of Potter's Therapeutics, a standard medical text book, states that "They impart general tone and strength to the entire system, including all organs and tissues."

The same well-known authority, in describing the physiological action of all another of the ingredients of Tanlac, which is of value in treating what is commonly known as a "run

down condition," uses the following expression: "It is highly esteemed in loss of appetite during the convalescence from acute diseases."

There are certain other elements in Tanlac which, because of their influence upon the appetite, digestion, assimilation and elimination, improve the nutrition and vital activity of the tissues and more important organs of the body, and produce that state of general tonic which is called Health.

The United States Dispensary makes the following comment regarding another ingredient: "It may be used in all cases of pure debility of the digestive organs or where a general tonic impression is required. Dyspepsia, atonic gout, hysteria and intermittent fever are among the many affections in which it has proven useful."

There are certain other ingredients described in the Dispensary and in other standard medical text books as having a beneficial action upon the organs of secretion, whose proper functioning results in the purification of the blood streams passing through them. In this manner, objectionable and poisonous ingredients of the blood are removed and the entire system invigorated and vitalized.

Tanlac was designed primarily for the correction of disorders of the stomach liver and bowels. At the same time, however, it is a powerful reconstructive tonic and body builder for it naturally follows that any medicine that brings about proper assimilation of the waste products must, therefore, have a far-reaching and most beneficial effect upon the entire system.

Although Tanlac's claims for supremacy are abundantly supported by the world's leading authorities, it is the people themselves who have really made Tanlac what it is. Millions upon millions have used it with gratifying results, and have told other millions what it has done for them. That is why Tanlac has become the real sensation of the drug trade in this country and Canada, and that is also why it is having the largest sale of any medicine of its kind in the world today. Adv.
