The Trigon oil well, now being drilled in Jackson county, has penetrated an asphaltum bed, often called oil tar deposit, beneath which in California, oil is usually struck. A hard rock crust is under the asphaltum, which is said to protect the oil from being forced out of its bed by specific gravity. Stockholders in the well are sanguine of success.—Portland Journal.

MEN WITH VISION ARE BUILDERS OF THE COMMUNITY

Men with a vision are the builders of communities. They build not for themselves, but the generations that follow them. No city or any great undertaking was without the vision of some men and no realization of the so-called big visions was ever accomplished without a thoroughly organized effort. This was the theme of an address made by J. D. Allen of San Francisco at the Chamber of Commerce Good Fellowship dinner at the Christian church last evening. He complimented the Chamber of Commerce for its success during the past year and urged that their ideals be set high for the future.

The retiring president, H. L. Walker, reviewed the work of the past year and used the term that "this was what was accomplished" and not as in so many instances where annual reports are made by saying "we would like to have done or we hoped to do this and that."

W. J. Warner as chairman of the membership expansion campaign presided, and the evening was enlivened by snappy dialogues between Alex Sparrow and "Standard Oil" Walker, opposing majors in the membership campaign.

PARENT TEACHERS MEET WEDNESDAY

The April meeting of the high school Parent-Teacher circle will be held Wednesday afternoon, April 20th at 3:45 o'clock in the high school building. The teachers have charge of this meeting and have prepared a very interesting program.

Mrs. Felts, a government worker, will be present and address the meeting. Mrs. Felts was formerly president of the Oregon Parent-Teacher association and visited Medford twice in connection with that work. Her many friends here gladly welcome her and will count it a privilege to meet her and hear her speak again.

The public is most cordially invited to attend this meeting.

ED. BROWN TO BE HOST AT CIRCUS

In accordance with his custom for many years, Ed G. Brown of this city will act as host to the boys of the city, when the Al G. Barnes wild animal show visits this city early in May. Mr. Brown will provide admissions for those youngsters who otherwise, because of circumstances would not be able to go to the show. When Mr. Brown was a boy in Missouri, he was too poor to attend a circus that visited his town, and climbed up in a tree to watch the parade. He never forgot his own pang of regret, and once each year sees that boys situated as he was enjoy the thrills of the circus.

ARTIFICIAL TEETH SKILLFULLY MADE

When you get a set of artificial teeth, there is one thing worth considering. That is satisfaction. A cheap set made on the factory plan will cause endless worry, embarrassment and suffering. Plates that do not fit are little better than none. I specialize on artificial teeth, and guarantee them to fit. It requires practical skill to make artificial teeth and guarantee them to fit. It requires practical skill to make artificial teeth fit so comfortably and snugly that you can eat, laugh and talk without revealing that your natural teeth are gone. Why deny yourself the enjoyment of your food by going without teeth or wearing a set that does not fit. When you can have them made by an expert. DR. HENRY D. PURL, 117 1/2 208 E.
