

To Relieve Catarrh, Catarrhal Deafness And Head Noises

Persons suffering from catarrhal deafness, or who are growing hard of hearing and who have head noises will be glad to know that this distressing affliction can usually be successfully treated at home by an internal medicine that in many instances has effected complete relief after other treatments have failed. Sufferers who could scarcely hear, have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear. Therefore, if you know of someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows:

Secure from your druggist 1 oz. Parmit (Double Strength). Take this home and add to it 1/2 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. Parmit is used in this way not only to reduce by tonic action the inflammation and swelling in the Eustachian Tubes, and thus to equalize the air pressure on the drum, but to correct any excess of secretions in the middle ear, and the results it gives are nearly always quick and effective. Every person who has catarrh in any form or distressing rumbling, hissing sounds in their ears, should give this recipe a trial.

14 NEW MEMBERS ADDED, CHAMBER COMMERCE DRIVE

As a result of the work of the supplementary membership campaign committee fourteen new members were added to the Medford Chamber of Commerce and a total collection of \$245.22 was reported. Major Walker's team won the honors for collecting the largest amount of money—\$120.25, whereas Major Sparrow's team carried off the honors for obtaining 9 new members. Teams will again report at the regular forum luncheon of the Chamber of Commerce tomorrow as to the result of their work in the morning. The forum will be addressed by J. D. Allen of San Francisco and Mrs. Aristine Phelps, who is a government worker for the protection of women and girls. The luncheon will be held at the Medford Hotel. The present membership of the Chamber of Commerce, including the fourteen new members, is 335. The goal is for a total membership of 450. Both majors claim it can be done.

WILLING TO FIGHT
(Continued on Page Five)

We speak historically of the revolution, when in reality we mean sever-

ance and freedom of evolution. The world is not calling today for destruction, it needs re-orientation, where the test of justice is applied to the things which were as well as the things are to be.

"Perhaps the miracle was in the Divine plan and the new world marvel was an inevitable part in the supreme scheme for developing civilization.

Monroe Doctrine

"The doctrine proclaimed under Monroe, which ever since has been jealously guarded as a fundamental of our own republic, maintained that these continents should not be regarded as fields for the economical enterprises of old world powers. There have been times when the meaning of Monroeism was misunderstood by some, perverted by others, and made the subject of distorting propaganda by those who saw in it an obstacle to the realism of their own ambitions. Some have sought to make our adhesion to this doctrine a justification for prejudice against the United States. They have falsely charged that we sought to hold the nations of the old world at arms' length in order that we might monopolize the privilege of exploitation for ourselves. Others have protested that the doctrine would never be enforced if to enforce it should involve us in actual hostilities.

Willing to Fight.

"The history of the generations since that doctrine was proclaimed has proved that we never intended it selfishly; that we had no dream of exploitation. On the other side, the history of the last decade certainly must have convinced all the world that we stand willing to fight if necessary, to protect these continents, these sturdy young democracies, from oppression and tyranny.

"If we could consult our Washington and our Bolivar today and if they could advise us out of their wisdom and experience they would tell us to go forward in firm confidences that ours is the right course. I believe they would admonish us to cling to that which has been tried, to hold fast to the institutions of moderation, of independence, of gradual but sure progress."

Helped Her Little Girl

Children need all their strength for growing. A lingering cold weakens them so that the system is open to attack by more serious sickness. Mrs. Amanda Flint, Route 4, New Philadelphia, O., writes: "Foley's Honey and Tar cured my little girl of the worst tickling cough. I had tried many things and found nothing to help until I got Foley's Honey and Tar." Gives immediate relief from distressing, racking, tearing coughs. Sold everywhere. Adv.

WILL PROBE RAILROADS

President of the Northern Pacific explained that most of their unskilled labor lived under rural conditions.

How Much Do You Know?

1. How much weight can be carried by a camel?
2. Why was Cain jealous of Abel?
3. What is germinide?
4. What are the names of three water fairies?
5. What bird was once used to hunt game?
6. Who were the "Fates"?
7. What is the common name for the flag of France?
8. Where is Great Slave Lake and how big is it?
9. How long after incubation begins is it before the heart of a chick forms?
10. How did the Hessian Fly get its name?

Answers to Yesterday's Questions

1. When did men begin to wear shirts? Ans. They were generally worn in West Europe in the Eighteenth century.
2. Are signboards an American invention? Ans. Signboards were used by Greeks and Romans in ancient times.
3. What was "squatter sovereignty"? Ans. The name was applied to popular sovereignty by Calhoun in derision. In general terms it may be stated as the right of every territory to legislate for itself.
4. Is spontaneous combustion of the human body possible? Ans. Scientists say no, although many cases are reported.
5. What was the limit of passengers and baggage carried by a stage coach? Ans. The old coaches could accommodate eight or ten persons. They were each allowed 14 pounds of baggage free. The limit for any passenger was 150 pounds of baggage.
6. How did the New York Stock Exchange come to be formed? Ans. It grew out of an informal organization of stock-brokers May 17, 1792. It was not formally instituted until 1817.
7. What was done with the bodies of ancient England? Ans. They were buried at cross-roads and a stake was driven through the bodies. This custom prevailed until 1823.
8. What were "sumptuary laws"? Ans. They were laws which restrained excess in dress, furniture, eating, etc.
9. How long was the sword used by Roman soldiers? Ans. It was from 29 to 39 inches long.
10. Is the story of William Tell a myth? Ans. Yes. The popular tales regarding Tell were demonstrated to be mythical by a Swiss professor in 1872.

COMMUNICATIONS

A Reply to Mr. Thomas

To the editor: Mr. Thomas' story of the revival meetings at Klamath Falls sounds very peculiar to me. I heard Dr. Bulgin preach in Klamath Falls, too. I saw no fights, nor "rotten egging." Mr. Thomas says Dr. Bulgin swears. Well, yes, you know sometimes you find it necessary to swear to infidels and others; too, in order that they would know what you were talking about.

Mr. Thomas compares Dr. Bulgin's meetings to a circus. Yes they are good shows alright. Dear editor, I know you would like to hear Dr. Bulgin speak. He is plain and speaks straight from the bible and if our people and Mr. Thomas regard the Bible as fit to read then they need not be afraid of anything Dr. Bulgin tells them.

In conclusion, when Dr. Bulgin comes here he will rent a lot, build his tabernacle and hold his meetings and will also pass the hat and if Mr. Thomas does not see fit to donate to this splendid cause he won't be forced to and if Bulgin breaks the law we'll have him pinched, and if our city respects the churches and ministers then we'll have city officers protect the pulpit and "The Bulgin Lewis Co." D. E. JOHNSON.

Medford, April 18.

100 MEN CONTROL U. S. WELFARE

(Continued from Page One)

ital combine, in preparing to precipitate unemployment, adopted the policy that the railroads 'should do it first.' Railway improvement programs were deferred; railway maintenance was reduced below minimum legal requirement.

"The report brings into clear relief the fact that there is no foundation for opinion which the employers' publicity machinery would popularize that —the railroads and the other great industries are the victims of some misfortune of the times.

"The industrial paralysis which has staggered America is 'capital on strike against society.' And capital, nationally and internationally organized and concentrated, takes the stand that the 'capital strike' shall go on until labor comes to its knees and consents to sweeping reductions of wages, and also consents to surrender its right to bargain collectively on a scale co-extensive with the organization of the employers."

FOREVER FREE from ASTHMA

Hundreds of people are astonished and delighted with the quick and PERMANENT relief they have received from the use of our wonderful new discovery, Asthma-Sera. Asthma and Hay-Fever, with all their tortures, may now be BANISHED FOREVER. Tear out this announcement and send at once to:
