

GRANDMOTHER KNEW

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister. Musterole does it. It is a clear, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin. Gently massage Musterole in with the finger-tips. See how quickly it brings relief—how speedily the pain disappears. Use Musterole for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (it often prevents pneumonia).

ASHLAND INVADED BY MEMBERS OF FRATERNAL ORDERS

ASHLAND, April 20.—Medford fraternal organizations are invading Ashland this week, assisting in the degree exemplification work and participating in social pleasures, following the routine. On Tuesday evening Reames chapter of the Eastern Star assumed the official chairs at a stated meeting of Alpha Chapter of this city, a quartet of candidates being initiated under auspices of the visiting delegation, the degrees being conferred with administrative tact, characteristic of the pride which the chapter workers take in staging their activities. On Friday the officials of Medford Lodge No. 103, incident to a visit here, will confer the third degree upon several candidates in behalf of Ashland Lodge No. 23. The meeting will open at five o'clock in the afternoon, supper will be served at 6:30, labor being resumed afterwards. An exchange of social amenities will be in order, and quite a number, aside from the personnel of the official staff, will be included in the last of visitors, which event will make Masonic Hall the scene of a notable gathering on that date.

The Oregon Cat Creek Syndicate is the name of a local corporation prospecting for oil in territory located in Oregon county, Montana. Among local trustees of the concern are R. E. Nell, George Barron, Walter Everett, and C. V. Lonsley.

The editorial and news management of the Tidings is being conducted by Kenneth Sullivan, a newcomer from Los Angeles. Bert Greer, proprietor, is here from Southern California for a brief stay. Miss Mary Niver retires from the paper on and after April 25, after having served the office with fidelity and much credit as local editor and news gatherer.

Never were prospects fouler for a bumper crop of dandelions in the parks than are apparent this spring, without the need of any forecast either. However, according to pathologists, in the march of rotation, white clover will blossom next season where the dandy buttercup hue now predominates. Let'er rotate.

Harry Butterfield has quit taking a washing, and now returns wielding a razor at Nate Bates' old retail headquarters, Hotel Austin.

At a recent social gathering where nearly a score of school teachers were guests, the wedding engagements of Nellie Ross and Ruth Voruz were announced, both of the prospective brides being instructors in local schools. Mutual congratulations and gift showers are already in order, pending announcement of the happy bridegrooms' names in print also.

The Wednesday evening meeting of the Christian Scientists is to be held at eight o'clock.

F. E. Conway, formerly residing here, later of Marshfield, is now located at Los Angeles, associated with a corporation designing and building modern homes, the offices of which are located at 822 1/2 West Pico street.

The Plaza Confectionery has installed a Gable automatic phonograph equipped with electric light and power attachments.

Malta Commandery will meet on Wednesday evening, April 20. Stated convalescence and work in the Red Cross.

The Oregon Wool and Mohair Growers Co-operative association is the concern, as renamed, of which Fred Herrin of Ashland, is president. Its membership is composed of the growers of wool and mohair products throughout a dozen or more of the eastern and southern counties of the state. For some time past it has been actively engaged in a personally conducted canvass, placing association and marketing agreements direct among the sheep and goat stock-raisers.

The Oregon Fire Relief association is meeting in annual convention this week at McMinnville. Harry Yeo is a delegate in attendance from this vicinity.

A session of the Oregon Normal school, with Ashland as an extension center, will be held here this summer, beginning June 20 and ending July 25, during the Chautauqua period. Regular normal school credits will be given for educational work completed. This school will be held under official auspices, equipped with every facility which the securing of an education under normal methods implies.

The Christian church is planning its annual "experiential" social. The cast includes the women of the congregation, and the plot involves the winning of a dollar by each one for either specific church or allied purposes. This social gathering, planned for a date in May, will be a sort of clearing house, whereby particular methods of earning the dollar will be divulged. Heretofore the revelation has been through the channels of either prose or poetry, but this new "experiential" will be delineated in pantomime as a novel departure from stereotyped song or story. In the meantime the women will open an employment office, and rehearse in the exhortations necessary to correctly interpret the respective "pantomimes."

The Elks give a social dancing party Wednesday evening, April 20. Music by Lovelands seven-piece orchestra.

Over thirty volumes relating to "child training" are available at the city library, the titles indicating ideal instruction and suggestion along both practical and theoretical lines. The Montessori system, especially is dwelt

upon in these books, copies of which can be obtained upon application. "Mothercraft" is also among the titles mentioned.

Presentation by high school talent of "The Colonel's Maid," at the gym last Friday evening, is spoken of in the highest terms, and another significant circumstance is that the attendance reached the proportions of a full house, a result mutually gratifying to both students and patrons.

Another fine improvement affecting Water and North Main streets is the elimination of the sharp corner of the Butler block in that vicinity. One can now better visualize the traffic on those thoroughfares, especially in making the turn. A substantial concrete walk has also been built along the extension near the Ford garage, and this is protected by a neat iron rail, thanks to the Southern Pacific, which corporation readily fell in line with suggestions made by the city.

A vacation visit with relatives and friends in Idaho is being enjoyed by Mr. and Mrs. W. S. Ball, who recently left here for the vicinity of Caldwell and Emmet in that state.

JAPAN AT LAST TO ADOPT THE JAZZ

TOKIO—Western dancing is being actively taken up by the younger Japanese generation and is developing into a national craze. The fox trot, the waltz, the bunny hug and all fanciful steps are being learned to the tune of jazz music. And with the coming of the dancing fad, the conversation turns to jazz and to steps and to music. To the Japanese girls, the kimono and zori seem as comfortable for the glide around the dance floor as the costume of the American girl.

A Japanese newspaper says: "A dancing teacher is now as much a necessity to the Japanese student as a person well acquainted with the grammar of a foreign language—dancing seems to be included in the curriculum of most well educated Japanese."
