

### MANUFACTURERS OF VALLEY LISTED C. OF COMMERCE

Home Products Week to be observed throughout the state this week brings to the attention of buyers that practically all of the necessities, and quite a few of the luxuries of life are manufactured and produced at home—industries that need the moral and financial support of the district they serve.

In the city of Medford and the Rogue River valley a survey by the Chamber of Commerce shows that 59 producing industries are established in this district, and everything from ice cream cones to tombstones are manufactured. Many of the industries—the largest ones—are allied with the fruit industry. For instance, this valley four years ago, presented the strange anomaly of not even producing its own fruit boxes—now there are two box factories, besides lumber mills, and more soon to operate.

All of the home industries have been invited to exhibit their products during the week, and the stores of the city will contain suitable displays.

In purchasing goods at the stores, ask for products made in Medford and the Rogue River valley first, then if you cannot secure them ask for products made in Oregon.

The list of producing industries in this section as compiled by the Chamber of Commerce is as follows:

**From Industrial Survey Cards**  
 Medford Iron Works, Medford.  
 Southern Oregon Lumber company, Medford.  
 Tomlin Box Factory, Medford.  
 Gagnon Lumber company, Medford.

 J. H. Issott, photographer, Medford.  
 Henry C. Mackey, photographer, Medford.  
 Groceries Bakery, Medford.  
 Bagley Canning Co., Talent, Ore.

### JACKSON COUNTY CREAMERY NOW A THRIVING CONCERN

The Jackson County Creamery of Medford, Oregon, began business in 1914 with straightforwardness and a capacity for hard work as our principal assets. Although they have not "set the world afire," they have gradually grown and extended their business into several branches as outlined in their advertisement which appears in another part of this paper.

During the quiet season of the past winter there have been continuously over thirty well paid employees, and with the growth and increasing business the list is continually growing. This has been accomplished by persistent effort and hard work, by the stimulating and development of the dairy industry to its present point of importance. When the Jackson County Creamery commenced business there was so little dairying in Southern Oregon that it was necessary to solicit and obtain cream shipments from outside the state in order to accumulate a sufficient amount with which to turn out a churning of butter.

Common sense properly applied, conclusively proves to anyone interested in the welfare of their own community, that they must staunchly support the industries which have been established and conducted honorably and successfully for the benefit of Southern Oregon, and by patronizing the home institution you keep your money at home and you will be sure to gain in the end.

To the untiring efforts of Sam Kroschel, the manager, Mrs. Kroschel and their able assistants is due the success of this institution.

### CONCRETE PRODUCTS MADE IN MEDFORD

The Medford Concrete Construction company is one of the institutions of southern Oregon that is making a quality of products that are unexcelled anywhere and are being used all over the coast. Home contractors and builders are finding that in using these products they not only get best quality, but work directly with C. J. Seaman, manager, who is an expert in this line, and thereby get the best results. The company's plant is located on North Riverside in Medford and helps furnish the payrolls that builds up a city and community.

This company is furnishing cement road culverts used in building highways in Jackson county.

**Cut This Out—it is Worth Money**  
 Cut out this slip, enclose with 5c and mail it to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound for coughs, colds and croup; Foley Kidney Pills for pains in sides and back; rheumatism, backache, kidney and bladder ailments; and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic for constipation, biliousness, headaches, and sluggish bowels. Sold everywhere. Adv.

The per capita wealth of the United States has been estimated recently at \$51.06.

### TROWBRIDGE FACTORY A BUSY PLACE

The Trowbridge Cabinet Works is one of the up-to-date manufacturing plants of the valley. They recently built a new factory and put in the latest machinery and manufacture all kinds of mill work. They are now doing the mill work for the new Car-gill apartments, Dr. Barbers, C. A. Knights and Cray's new residences, office fixtures for Interurban Auto company, in Medford and Grants Pass, Plaza Confectionery at Ashland and several other jobs. Furniture and cedar chests made by this company grace many of the offices, stores and residences in the valley. Mr. Trowbridge reports a heavy business this year.

The only fungus used in medicine is the ergot of rye.
