### Ultimatum Fixes May 8 Date to Accept or Recede—France and Belgium Oppose—Italy Strives for European Peace—Occupation of Ruhr Is Feared.

LONDON, April 30.—(By Associated Press.) An ultimatum to Germany fixing her seven days from May 1 to comply with or refuse the allied reparations demands was being advocated today by British representatives to the allied conference here.

The proposal was opposed by the French and the Belgians on the ground that it was unnecessary, that the Germans had sufficient time.

Information has been received by the French delegation that unofficial American advisers at Berlin are urging members of the German cabinet to accept the allied terms agreed upon in Paris last January. In this agreement the allies demanded 226,000,000,000 gold marks in addition to the collection of a 12 per cent export tax on German goods.

Baron d'Abernon, Belgian ambassador to Germany has arrived from Berlin with the most recent declarations from Foreign Minister Simons as to what Germany can do.

Determination on the part of France to order her troops into the Ruhr district of Germany in default of payment of reparations to the allies was expressed to Prime Minister Lloyd George by Premier Briand. The two ministers met for an informal conference this morning and planned later to meet Count Sforza, Italian foreign minister, on his arrival in London.

It was not expected that the United States would be represented at either the informal conversations or at the meeting of the supreme council. It was made plain that Mr. Lloyd George who was chosen as the presiding officer, had not extended an invitation to President Harding to have a representative present. The prime minister had taken the view, it was pointed out that initiative in this matter rested entirely with the Washington government.

Reports of an impending ministerial crisis in Berlin were current. Indication was given, however, that Berlin was expected to make at least one more move to prevent occupation of the Ruhr region.

Hope for an adjustment of the situation by common accord was expressed by Count Sforza, the Italian foreign minister, who arrived in London today. "I do not deny that the situation is a serious one," he said in conversation, "but the ultimate aim of all the entente powers is the same, and therefore I have not lost hope of a settlement being reached in common accord."

"Italy," he continued, "is quickly recovering by her own efforts and sacrifices from what a year ago was regarded as a very serious economic and financial situation. If only for this reason, I regard peace and tranquility as a supreme necessity."

# EARLY PEACE AFTER KNOX BILL PASSED

### Senator Lodge Says America Not "Deserting Allies," Who Expect "Technical War" to Continue—Walsh Denies Benefits to America in Peace Resolution.

WASHINGTON, April 30.—A treaty with Germany probably will follow enactment of the Knox peace resolution, Senator Lodge of Massachusetts, republican leader, said today in the senate in supporting the peace measure.

Senator Lodge declared that the president and state department had made it clear that the United States did not intend to "abandon" the allies.

Senator Lodge also said that treaties with other former enemy countries would be sure to follow.

With a vote on the peace resolution planned late today the republican leader emphasized that all of the other nations, except the United States had made peace and asked: "Is it to be supposed that we are to go on in a condition of technical war?"

"The allies did not ask our leave to make their peace? They cannot expect us to remain at war while they are all at peace. And if we choose to make peace by this resolution and by treaty with Germany, which will probably follow, we surely are not deserting them."

Senator Walsh, democrat, Montana, attacking the resolution declared that it gave no benefits to the United States and should be entitled as "one for relief of the German people."

He declared it left open title to German ships worth \$100,000,000 seized by this government and added that it would hear Germany to stand against the allies in the present reparations discussions.

Declaring that the United States would not join the League of Nations, Senator Lodge said it was time to "get rid of the wreckage and ruin and try to do something to help Europe and the world."

Senator Shields, democrat, Tennessee, said he would vote for the Knox measure in order to get peace since President Wilson had so intertwined the league covenant with the peace terms that it was impossible to get peace through the treaty.

Senator Lodge said it would take at least 72 amendments "to get the league out of the treaty."

"And then with it out, we'd have nothing but a shell," he added.

Senator Kling, democrat, Utah, denounced the resolution as "a measure born in a spirit to help Germany and to relieve her from obligations of the Versailles treaty."
