J. W. Weston, a Beagle rancher, was bound over to the grand jury Friday afternoon in Justice Taylor's court on the charge of larceny, under \$100 bail. It is alleged that he purloined a large quantity of Page wire fence valued at \$100 near Trail belonging to the county on the night of April 26th, and hauled it away in his car to his home, and then later from there to the Bybee bridge where he dumped it into the river. It is claimed that Fred Pettigrew and W. W. Cottrell, on missing the stolen fence next day traced it to Weston's home by the car's tracks and from there to the Bybee bridge by the same method. The river will be dragged by the county to substantiate this claim. Sheriff Terrill made the arrest.

"Medford is hitting a prosperous stride, according to George T. Collins, who was here to represent the Medford chamber of commerce at the freight rate hearing," says the Klamath Falls Herald. "Prospects point to the biggest fruit crop in years, said Mr. Collins. Recent frosts, which received considerable publicity, were more beneficial than harmful as they thinned the heavy crop to a point where the trees will bear the load and save expensive hand thinning. Some thinning must still be done, he said. There is also a revival of quicksilver mining, says Mr. Collins, and several claimable properties have put in new furnaces and started operations. Diversified farming is developing rapidly and will grow faster as the new irrigation project brings an abundance of water to the land."

SUNSET TO MIDNIGHT
ELECTRIC SIGNS
You quit selling goods at six o'clock (or thereabouts). So do your clerks. But the rent does not quit. And your taxes do not quit. Moreover the people do not go to bed at six. Why not let an electric sign and brightly lighted windows, illuminated with electricity, go on selling goods for you after six? All through the evening in fact. Why not—The very people you want to reach—the purchasers—have no time to be on the street except evenings. That is the time they roam about, looking, seeing, formulating and deciding on their purchases. People do not have to hunt up your electric sign. It hunts them up like a search light. It is seen from afar. It talks to folks all along the street. They do not have to decipher it, either. It burrs its message into them quickly, pleasantly, deeply and surely. And mark you, they will remember it, and you and your location, after they have gone home. Once more then, we ask, "How about Sunset to Midnight"—May we send our representative to help you decide?
