PORTLAND BOXER IN DEMPSEY'S CAMP

SUMMIT, N. J., May 5.—Jack Dempsey, world's heavyweight champion, who is engaging in light training at Freddy Welch's farm near here for his bout July 2 with Georges Carpentier, has added two sparring partners to his camp. It was announced today. The new arrivals are Alexander Trambitas, Portland, Ore., middleweight and Steve Latzo, Scranton, Pa., welterweight. The champion has discouraged large attendances at his workouts, which for the last several days have included eight rounds of boxing and the customary road and gymnasium work.

Reveille sounds for Dempsey at daybreak and he has been doing his road work with Joe Benjamin, Pacific coast heavyweight. Trambitas and Latzo accompanied them on yesterday's jog.

PIE PROFITEERING

THE cost of living has been shrinking—and well it might; it was too high; and still the profiteers, I'm thinking, are charging us too much for pie. We chase ourselves to eating places when hunger in due season calls, and there we sit and feed our faces with soup and greens and codfish balls. The staple things bear modest prices, the cornbeef hash and garlie stew; the prunes and shredded beans are dainties the poorest man may sit and chew. But when we come to pie the charges induce a pious man to swear, by Cleopatra and her barges, that someone's rake-off is unfair. They cut a pie in fourteen pieces, and charge us fifteen cents a slice, and we would summon the police in our disgust at such a price. A pie brings in about two dollars, and that is going pretty swift; what wonder the poet hollers, inquiring, "Whither do we drift?" Pie is tired nature's sweet restorer, our staff and solace till we die, and oh, it makes us sore and sorer, when profiteers get rich in pie! Pie banishes the widow's sorrow, and it the orphan's tears will dry, and we should ostracize tomorrow the men who overcharge for pie. Far better overcharge for chicken, for sardines packed in olive oil; pie is the comfort of the stricken, the stay of those who weep an a toil.

COMMUNICATIONS

To the editor: The story of Farm Bureau work in Jackson county and the work of our Co-Operative Exchange is known and being renewed hope to farmers all over the United States. On my recent trip to Chicago and Washington, D. C., time after time I had Farm Bureau men say to me, "Oh yes, you are from Jackson county in Oregon where everybody in town and county alike are for the Farm Bureau. Tell us about your Co-Operative Exchange." It is getting to be a familiar story to us, but think of the time when we had no co-operative marketing or buying and say if you would for a moment consider going back to that condition. In pursuance of the action of our members at their meeting, we are changing the form of our organization issuing \$20,000 common stock and \$20,000 preferred stock.

This is rendered necessary by our increasing business. The Farm Bureau Co-Operative Exchange has come through the period of deflation in splendid shape and is on a sound and conservative basis and offers a splendid investment, bearing interest at the rate of 8 per cent per annum coupled with an opportunity to farmers at the same time to benefit themselves. Every farmer in Jackson county should take stock in this splendid enterprise and support it in every way possible. It will not only pay you dividends in money, but will assist more than any one agency to build up the spirit of cooperation without which agriculture can no longer exist. GEO. A. MANSFIELD.

COBLENZ AWAITS WITHDRAWAL OF YANKEE FORCES

COBLENZ, May.—The Germans of Coblenz have been speculating with deep interest on the possible effect of the Knox resolution in Congress declaring that a state of war no longer exists between America and Germany. Whether the adoption of that resolution would cause the withdrawal of the American forces in Germany has been the main subject of discussion in the German press of the occupied territories. The correspondent, after interviewing the most representative Germans of all classes in Coblenz can say that to the majority of Germans here, the withdrawal of the Americans would be regarded as regrettable. In administrative and political circles, they have been living in dire fear of the French taking over the area which would be abandoned by the Americans. "If we must have occupation, let it be American," is the consensus of opinion. Among tradesmen and shopkeepers the feeling of regret would be unalloyed. "The tailor next door has become a millionaire," said the book store proprietor with mingled feelings of admiration and envy, to the correspondent. "That book store man is sure reaping a paper mark harvest," was the way the tailor put it. There is only one class of the population, which looks upon the presence of American soldiers darkly. They are the young men who did not participate in the late war. Between them and the average doughboy there is no love lost and no fraternization. From time to time there are even a few clashes. The doughboy has it that the young German is jealous of the former's popularity with the Frenchmen. Others who look deeper, say the larger cause is that these young men relatively have not suffered from the war and they are looking to the future in a spirit of revenge.

Wonderful Results at 70 From Internal Baths

Mrs. L. M. Wadlia, 2643 National Ave., San Diego, Cal., writes Tyrrell's Hygienic Institute of New York as follows:

"Within the last month have had wonderful results and all inflammation has nearly subsided. I could hardly expect a woman over 70 to receive benefit from a trouble of long standing as quickly as a younger person. Money could not buy my 'J. B. L. Cascade' if I could not get another."

It is difficult to believe how many internal troubles internal bathing will relieve until you realize that physicians agree that 95 per cent of human ailments are caused by accumulated waste in the lower intestine.

The "J. B. L. Cascade" the scientific method of internal bathing, removes, in a perfectly natural way all poisonous waste, and has been so successful in promoting health that over half a million intelligent Americans are now using it regularly.

It is the invention of Chas. A. Tyrrell, M.D. of New York, who for 25 years was a specialist on internal bathing. It is now being shown and explained by West Side Pharmacy, Main and Grape Sts. They will give you on request a very interesting booklet on Internal Bathing by Dr. Tyrrell, "Why Man of Today is Only 50 per cent Efficient."

Ask for it today and know more about yourself and your functions than you ever have before. ADV.

The Ford Sedan

The constantly increasing demand for the Ford Sedan is proof of the rapid growth of its popularity in this section. It is a car for the year round—enclosed and cozy for winter service and cool and shady in the summer. It is convenient and easy to operate as an electric, still possesses the well known Ford durability and dependability.

Come in and see it—ask for a demonstration and be convinced of the comfort of this class little closed car. You cannot help but be impressed by moderate cost, beauty and strength of the Ford Sedan.
