LABOR OPPOSES CUT IN WAGES AND PRICES UP

CINCINNATI, May 6.—The principles and program which organized labor of the United States will be asked to support and uphold during the next year were being drafted here today by the executive council of the American Federation of Labor for presentation at the annual convention at Denver in June.

As to wage reductions, it was said, the council takes the position that a widespread attempt is being made to lower wages while retail prices are maintained at unjustifiably high levels.

Reports to the council declared 4,000,000 persons out of work and the situation showing no improvement.

William Green, secretary of the United Mine Workers of America, said that 150,000 miners are out of work and that 300,000 are working from one to three days a week.

"Practically none of our men have steady employment," he added.

The executive council was brought under fire today of the local advocates of the "open shop" movement. H. Van Matre, secretary of the industrial division of the Chamber of Commerce, issued a statement attacking the closed union shop as a restriction upon "a worker's ability and opportunity by its dead-level standard."

"Let them go ahead," said President Samuel Compers in reply to Van Matre, "they cannot injure the American labor movement."

SUNDAY "THE ADMIRABLE SAVAGE"

TOMORROW 10:00 A. M.: "JACK AND THE BEANSTALK"

When Your Car Fails You

You cannot expect to run your car day after day without some time spent on it by experts in making adjustments.

Often times there is only a loose part, which only a trained mechanic can find, and if tightened in time will save wear and breakage.

Our records show that eighty per cent of the car repairs are due to neglect.

Drive in today and we will show you how a few hours spent in repair and inspection work will save days of overhauling.
