

### SOCIAL EVENT OF YEAR WEDNESDAY FOR X-RAY BENEFIT

The grand ball to be given for the X-Ray Benefit fund at the Natorium Wednesday evening, May 11, promises to surpass any social function of its kind ever given in Medford.

The purpose for which it is given has interested all Medford's social leaders to aid in making it a social as well as a financial success. Mrs. J. J. Emmens is chairman of the ball committee.

Mrs. Frank G. Owen is chairman of the program committee and assisted by Miss Kathryn Swem will stage a number of special solo dances by Miss Swem's advanced pupils.

The proceeds will go to the X-Ray fund and the committee hopes everyone will take advantage of the evening's enjoyment and at the same time help in a cause which will procure for Medford a most valuable asset.

### KLAMATH ENTERS PACT TO HANDLE TOURIST TRADE

Reciprocity between Medford and Klamath Falls in handling summer tourist traffic to Crater Lake seems fairly accomplished as the result of a conference between S. V. Hall, Medford transportation manager of the Crater Lake Park association, and local representatives. Meetings were held yesterday and today and this afternoon. It was announced that a schedule had been arranged that is satisfactory all around.

O. L. Williams and W. T. Lee of the Metropolitan garage, will have charge of the Klamath Falls end of the transportation, as agents of the newly organized Crater Lake company. It is agreed, and Mr. Hall said he would insist upon full observance of the agreement from the Medford end, that tourists will be routed in from one side and out by the other. That is, tourists entering from Klamath Falls will leave via Medford, and those entering from that side will leave via Klamath Falls.

J. A. Gordon and E. B. Hall, representing the chamber of commerce, and R. G. Grosbeck, president of the automobile association, took part in the conferences. The aim of all concerned is to heal the breach between Medford and Klamath Falls over the Crater Lake development, and to unite to advance the general gain that will come to both communities through stimulation of tourist traffic.

Subject to approval of the Southern Pacific company and the Crater Lake company, it is proposed to establish a stage and boat line to and from the lake via Rocky Point. Stages will leave here at 8 o'clock. Passengers will transfer to one of Captain Calkins' launches at Shippington, arrive at Rocky Point at 11:30. Taking the stage again after an hour for luncheon, they will reach Crater Lake next morning at 9 for Medford and Klamath Falls.

This gives the visitor part of the afternoon and all night at the lake, starts early rising and gives variety in the way of boat ride, with plenty of time for lunch. Tentative rates, fixed subject to approval, are \$16.50 for the round trip from Klamath Falls and return, or \$17.50 via Medford. Arrangements will be made to include this fare on the railway ticket, so that tourists from the most distant point may figure the cost of the trip before leaving home and know the exact schedule they will make.—Klamath Herald.

### FORUM MEETING TO HEAR REV. BULGIN

No matter how much money an individual earns or whether he has accumulated great wealth, he cannot claim to be successful unless he has contributed some of his time to the benefit of his neighbor and assisted to make the community in which he resides a better place in which to live.

If every resident would ask him or herself the question, "What can I do toward making Medford of greater importance commercially, educationally and improve the civic conditions," and set about to devote a little of their time toward this end, Medford would soon become a different city than it now is.

How each individual can help to make Medford become the city, such as they would like to see it, will be made known in an address by Dr. E. J. Bulgin on "City Building from Four Angles." This address will be given at the forum of the Medford Chamber of Commerce tomorrow noon at the Holland hotel.

### AUTO REACH LAKE BY JULY 1ST

In the opinion of Alex Sparrow, superintendent of Crater Lake national park, it will be July 1st, the day set for the official opening of the season, before the first autos can reach the Crater lake rim.

This is because at the first of this month there were 9 1/2 feet of snow at the rim, which is about two feet more than last year at the same time. The snow depth at Anna Spring camp five miles lower down was 8 1/2 feet on May 1st. Last year the first autos were able to reach the lake rim on June 26th, by the aid of extra efforts and much snow shoveling, preparatory to the visit of the National Editorial association on July 1st or 2nd.

There is now four feet of snow at the south park entrance.

They are Happy and Well

You Should Be the Same

A LARGE number of women's ailments are not surgical ones. Serious displacements or radical changes have not yet taken place.

A tiny part in a fine clock may become loose and cause the clock to gain or lose. If not attended to in time, the part may fall from its place and cause serious trouble. So it is with women's ailments, they start from simple causes; but if allowed to continue, produce serious conditions.

When the warning symptoms are first noted, take Lydia E. Pinkham's Vegetable Compound to relieve the present troublesome ailment, and to prevent the development of serious trouble.

North Troy, N. Y.—"When I was a young girl I had a severe female trouble. Mother gave me Lydia E. Pinkham's Vegetable Compound and after taking several bottles I was strong and well. When my daughter got married she was feeling miserable and I recommended your medicine. She is greatly improved in health and has a beautiful baby boy four months old. So you see this letter comes from the third generation and you may use it as you wish."—Mrs. R. M. GREENAWAY, 557 4th Ave., North Troy, N. Y.

Hutchinson, Kan.—"I was about 13 years old when I developed a female weakness. My mother took me to a doctor and I doctored for several months. I was too sick to do anything, was as thin as could be, and my complexion was yellow. Mother had used Lydia E. Pinkham's Vegetable Compound and it had helped her so much that she got some for me and before I had finished the second bottle I was feeling fine and have been ever since."—Mrs. J. A.
