Ye Smudge Pot by Arthur Ferry

The reform association having in hand the renovation of the remodeling of the dance, are making good progress. The unholy wriggle has been elevated to a wriggle. The old fashioned wringer has been nominated as the official implement to limber up the shoulder muscles for proper execution of the shimmy.

"Well!" said G. Watson Fri. pm. as he strolled down the Main Stem, filled with the glory of an original thought, "is it hot enough for you?"

Next week the lawyers of the vicinity will start going over to Jacksonville, to call each other "learned counsel," and not mean a word of it.

SAMPLE OF AWFUL HUMOR. Pendleton East Oregonian. Aneet the Pendleton lady who lost her ring in the bathtub, Jack Dolph states that he knows just lots of people who leave a ring around the tub every Saturday night.

The "sweet" (so described) lady, accused of putting rat poison in the food of four of her husbands, was "the beautiful daughter of an Idaho farmer." Loretta Borgia, who holds the world record, for disposing of men, was also a farmer's child, as were the Bender girls, who strangled visiting stockmen to death with a lace curtain, in the front room of a Kansas farmhouse in the '80's.

Instead of forcing the Bavarians to disarm June 30th, the Allies should send them more ammunition, with orders to proceed forthwith to Poland. The lion hearted Poles would not be so defiantly ornery, after tugging in a couple of free-for-all ructions with the Bavarians. Poland is now yelling for freedom, and next November it will be grub.

THE CROOKS WALKED AWAY ON THEIR HANDS.

(Yreka News.) After considering the matter carefully, Sheriff Calkins sent J. P. Bradley out to the scene of the depredation, where, after looking over the ground, he secured finger prints.

The construction of a \$500,000 stadium in Shanghai, China, is a brilliant idea, but none of the Chinese will have enough strength to hold a track meet.

The peoples of the earth made it through a world war, but some of them are not going to survive an era of high powered hysteria.

Gasoline has dropped 2 cents which will increase the promiscuous gadding 7-fold. If it don't rain tomorrow, the population will drift out to where Mica Womack's keeps his mines.

"FAVORS FREE POISON FOR FARMERS."—Hillside Chico Enterprise. Still, the farmer says, he gets no support.

"Tobacco Users Devoid of Worthy Aim."—(Salem Statesman).—Due to chewing fine cut, and spitting against the wind.

What has become of the old fashioned stallion that used to prance up the Main Stem Saturday afternoons, with pink ribbons entwined in his mane, and a tail that dragged on the ground?

The sports who donned their straw hats yesterday, sure balled up the weather for Sunday.

Fishes—horse, house, and butter abound, and many folks have the itis-tonsil and bronch.

A squad of American doctors have sailed to investigate conditions in Europe. At this time, the only operation Europe can stand financially is for the removal of the aduoids.

THE ONE CERTAIN THING.

LOYD-GEORGE is right. War in Europe must stop. Somehow, some way, peace must be restored, public confidence which is the corner stone of all security, must be regained. Either this or the entire framework of civilization in Europe must crumble.

Germany's final agreement to pay her indemnity in full, marked an important step in this necessary change in the European situation. Now if Germany will give convincing proof of her honesty of purpose, definitely abandon the shifty tactics of the past, which have lost her the confidence of the world, a tremendous advance toward the desired goal will have been made.

But as Lloyd George says the lawlessness in Poland must be put down. This disposition to wage war whenever developments are not to her liking, and against the allies who fought to place Poland where she is as a free and independent nation today, must be abandoned. Poland must obey the law. Poland must regard treaties as something more than scraps of paper.

The fundamental trouble in Europe, is the fundamental trouble in the world. The material collapse of the war, has been followed by a moral collapse. The old foundations of faith are lost, and nothing has developed to take their place. The nations of the world are wandering about, as helpless and confused, as the residents of a village after a cyclone has passed. The old landmarks are no more, the restoration of what seemed a permanent civilization, appears impossible.

But of course it is not impossible. It is no more impossible than the restoration of San Francisco after the earthquake and fire. It can be done. But just how or just when is quite another matter. As Lloyd George says the future is dark, but one thing is certain; it will never lighten until Europe settles down once more to peace and reconstruction.

LOCAL PATRONAGE OF CRATER LAKE LODGE IS URGED

Accommodations at Crater Lake this year are going to be greatly enlarged and improved. This is the plan of the new Crater Lake Co., and which will be carried out during the month of June, prior to the official opening on July first.

Within a very few days one of the new seventy-five tent bungalows will be temporarily set up on the Southern Pacific right of way opposite the Chamber of Commerce building. It will be fully equipped and will give residents of southern Oregon an opportunity to see the additional accommodations being provided.

Every effort is being made by the Medford Chamber of Commerce Crater Lake committee to see that Crater Lake visitors this year will get the best possible treatment and are provided with comfortable housing facilities.

There are many residents of southern Oregon who have been here some time and have been putting off their visit to Crater Lake. These residents are requested to see Crater Lake this year and help this national park, by showing a large attendance, thus being deserving of a large appropriation from the government for further improvements.

Husband and Wife Both Sick

Mr. and Mrs. Andrew Comer, Shenandoah, Va., were both ill. He writes: "Rheumatism and bladder trouble was our trouble. My wife had rheumatism in her arms so she could not use them. She has had no trouble since taking Foley Kidney Pills. I don't have to get up at night so much since taking Foley Kidney Pills, nor have I a weak back." Backache, sore, swollen or stiff muscles or joints, tired languid feeling—yield quickly to Foley Kidney Pills. Sold everywhere.

Rippling Rhymes by Walt Mason THE PESSIMISTS.

THE recent winter was the best that ever struck the middle west. The skies were blue as skies of May, the sun was shining every day, the breezes had the scent of spring, and summer birds came back to sing. And men of wisdom said, "Great Scott! This kind of winter hits the spot, so let us cast all fears aside, and take the gifts the gods provide. It may be we will have to pay for every bright and sunny day, but while the sunny days are here, we'll sing and dance and never fear." But there were gronches everywhere, and they denounced the balmy air. "We need cold weather now," they said, "with storm clouds looming overhead; we need all kinds of snow and sleet, we need a blizzard and repeat. This kind of winter is a flaw, a slip in nature's ancient law; and when she makes so bad a break, she'll even things, and no mistake. There'll be a blizzard in the spring, and it will riddle everything; the fruit will wilt in winter's breath, the bugs that should have died the death will eat the corn and hay and oats, and bear off our collective goats." And thus the robe of gloom is worn by fellows who were made to mourn; they always miss the bliss and fun of basking in the genial sun.

SUNSET TO MIDNIGHT ELECTRIC SIGNS

You quit selling goods at six o'clock (or thereabouts). So do your clerks. But the rent does not quit. And your taxes do not quit. Moreover the people do not go to bed at six.

Why not let an electric sign and brightly lighted windows, illuminated with electricity, go on selling goods for you after six? All through the evening in fact. Why not—

The very people you want to reach—the purchasers—have no time to be on the street except evenings. That is the time they roam about, looking, seeing, formulating and deciding on their purchases.

People do not have to hunt up your electric sign. It hunts them up like a search light. It is seen from afar. It talks to folks all along the street. They do not have to decipher it, either. It burns its message into them quickly, pleasantly, deeply and surely. And mark you, they will remember it, and you and your location, after they have gone home.

Once more then, we ask, "How about Sunset to Midnight"—May we send our representative to help you decide?
