Young Girls Need Care

FROM the age of twelve a girl needs all the care the thoughtful mother can give. Many a woman has suffered years of pain and misery—the victim of thoughtlessness or ignorance of the mother who should have guided her during this time.

If she complains of headaches, pains in the back and lower limbs, or if you notice a slowness of thought, nervousness or irritability on the part of your daughter make life easier for her.

Lydia E. Pinkham's Vegetable Compound is especially adapted for such conditions. It can be taken in safety by any woman, young or old.

Guttenberg, N. J.—"My daughter was all run down and had fainting spells often, had a bad complexion, and suffered at her monthly periods. Her grandmother had been taking Lydia E. Pinkham's Vegetable Compound for the Change of Life, and got a bottle of it for her. She began to improve with the first bottle and took five in all and was entirely restored to health. For a time she had not been able to attend school, but she does now. She recommends Lydia E. Pinkham's Vegetable Compound to her friends and I give you permission to publish this letter as a testimonial."—Mrs. CATHERINE McGLOVE, 304 24th St., Guttenberg, N. J.

Roxbury, Mass.—"My daughter is a schoolgirl and she suffered very much with irregular periods, painful cramps and dizzy headaches. She was sometimes as long as three months between her periods and when they came she was not able to do her school home lessons because she could not even sit up. A copy of one of your little books was left in my letter-box and she began to take Lydia E. Pinkham's Vegetable Compound for her troubles. She is now in good health, is regular and can help me with the housework when not in school."—Mrs. VICTORIA G. SPIESSERT, 74 Bragdon St., Roxbury, Mass.

Shares of Swift & Company are widely distributed. The map shows the number of shareholders in each state and has been dotted to indicate the proportionate distribution.

Who is Swift & Company?

Swift & Company is not a one man or one family affair. It is a company owned by more than 40,000 people scattered over the face of the globe—forty thousand shareholders with voting powers and a share in the risks and profits of the business.

Most of the forty thousand live here in the United States. But some of them live in France, some in England, others in the Philippines, Hawaii, Alaska.

13,000 of them are women.

Nearly 14,000 of them are employees.

The average individual holdings are small—about 37 shares apiece.

No one person or family owns a majority of the stock.

In fact, it would take 900 of the largest shareholders pooled together to vote 51 per cent of the stock!

These shareholders are the men and women whose money, in the form of capital, makes Swift & Company possible.

They are jealous of the character and reputation of their organization, proud of what it is doing, proud to have a part in supplying to the world such products as Swift's Premium Ham and Bacon, Brookfield Sausage, Silverleaf Brand Pure Lard, Wool Soap, Swift & Company's fresh meats, etc.

The executives of Swift & Company maintain the high standards of these products as an imperative duty not only to the 40,000 shareholders, but to the public.

Swift & Company, U. S. A.
