

# Read your instruction book It says—

Old oil should be drained from the crankcase at regular intervals and replaced with fresh oil.

This statement is made because engine operation causes road dust, carbon, fine metal particles and other impurities to accumulate in the crankcase oil. The gritty oil circulates through the engine, impairing its performance, and ultimately leads to rapid depreciation and repairs.

These careful instructions from the manufacturer are often disregarded; cleaning the crankcase is a job generally disliked.

To meet this need Modern Crankcase Cleaning Service has been established by first-class garages and other dealers co-operating with the Standard Oil Company. These garages and dealers use Calol Flushing Oil,—the scientific agent that cleans out old oil, dirt, grit and other impurities and does not impair the lubricating efficiency of fresh oil used. The cleaned crankcase is refilled with the proper grade of Zerolene.

Look for the garage or dealer displaying the sign shown below,—it means "Better operation and longer engine life."

ZANE GREY! There's a name that you folks know and love. I've talked with a good many of you about him—you're just as anxious as I am to get hold of his newest story. So here's good news: We won't have to wait until it comes out as a book; it starts next week in

## The COUNTRY GENTLEMAN

I wouldn't miss the next fifteen issues of this national farm weekly for many times their cost; this story alone is worth double the price of a whole year's subscription.

To the Last Man is more than a rattling good story—Zane Grey spent a lot of money and months of study to make the most dramatic picture of one of our history, the protracted struggle between sheepmen and cattlemen for the ranges of the West. Against this stirring background, full of breathless action and gigantic adventure, he has painted one of the tenderest and most pleasing love stories he has ever portrayed.

You won't want to miss a word of it, so you had better rush me your dollar for 52 big issues of THE COUNTRY GENTLEMAN, including this great story.

## When Your Car Fails You

You cannot expect to run your car day after day without some time spent on it by experts in making adjustments.

Often times there is only a loose part, which only a trained mechanic can find, and if tightened in time will save wear and breakage.

Our records show that eighty per cent of the car repairs are due to neglect.

Drive in today and we will show you how a few hours spent in repair and inspection work will save days of overhauling.

MRS. NANCY WESTCOTT, of Syracuse, N. Y., who declares Tanlac is the greatest medicine on earth. Says it built her up to where she is just brimful of new life and energy.

"I just think Tanlac is the greatest medicine on earth and I can never praise it enough for what it's done for me."

"For two years I was in a badly run-down condition. I had no appetite, and after every meal I would be in awful distress from indigestion and bloating. My nerves were on edge, and I could never get a good night's sleep. I felt tired and worn out all the time, was losing weight, and many times I was so weak I couldn't look after my housework. I just felt miserable."

"Tanlac helped one of my friends so much that I began taking it and it has certainly built me up into splendid health. My appetite is so big I can hardly get enough to eat now, and I am never troubled a particle with bloating or indigestion. My nerves are as steady as clockwork, and I sleep like a child at night. I have recovered my strength and am just brimful of new life and energy. In fact, I feel better than I have in years. My gratitude towards Tanlac is unbounded."

The above statement was recently made by Mrs. Nancy Westcott, 121 Market St., Syracuse, N. Y.
