

LOCAL STREAMS TO BE STOCKED WITH M'KENZIE REDSIDE

A shipment of McKenzie Red Side trout eggs was received by Supt. Berrian of the Butte Falls hatchery on the 15th inst.

As many sportsmen are aware these fish attain good size, are very gamey, and their introduction in Jackson county waters will be welcome news.

Mr. Ryckman, the superintendent of trout hatcheries has made a special effort to secure these eggs, which shows that it is his purpose to share the famous McKenzie trout with southern Oregon.

Notwithstanding the high waters during the past spring, which interfered with the taking and securing of eggs, Mr. Berrian reports that over 700,000 eggs have been collected, and that all available ponds at the Butte Falls hatchery are filled to their capacity with Steelhead, blackspotted (Cutthroat) and Rainbow trout, and one of the most successful seasons since the hatchery was established is anticipated.

ADVICE GIVEN ON POISON FOR GARDEN PESTS

Many complaints are coming in from gardeners this season on account of the many insect pests that are working in the gardens. There are several different kinds of pests at work and all cannot be controlled with any one remedy.

For slugs and insects that are eating holes in the leaves of any plant, use one ounce of calcium arsenate to a gallon of water. This is poisonous and should not be used on plants that are to be eaten soon after an application. This is good for plants like tomatoes, Potatoes, cabbage, beans, beets, melons, etc.

Make a bait of finely chopped lettuce leaves and calcium arsenate and place in small bunches about the plants for slugs as follows: one quart of lettuce leaves chopped finely and mix one tablespoonful of powdered calcium arsenate. Keep away from chickens.

C. C. CATE,
County Pathologist.
May 20, 1921.

of glory. In doing honor to you we testify anew our pride in the ancient friendships which have bound us to both the country of your adoption and that of your nativity.

An Immortal Work

"It has been your fortune, Mme. Curie, to accomplish an immortal work for humanity. We bring to you the meed of honor which is due to preeminence in science, scholarship, research and humanitarianism. But with it all we bring something more. We lay at your feet the testimony of that love which all the generations of men have been wont to bestow upon the noble woman, the unselfish wife, the devoted mother.

"A number of years ago a reader of one of your earlier works on radio-active substances noted the observation that there was much divergence of opinion as to whether the energy of radio-active substances is created within those substances themselves or is gathered to them from outside sources and then diffused from them. The question suggested an answer which is doubtless hopeless unscientific. I have liked to believe in analogy between the spiritual and the physical world. I have been very sure that that which I may call the radio-active soul, or spirit,

Local Briefs

Haymarket Square had a new visitor Thursday afternoon. He claimed to be a preacher from Coffeyville, Kansas, and was selling a book written by a Kentucky had man, entitled "Life Behind Prison Walls."

Furniture insured and repaired. City Auto Paint Works. Phone 754-J.
