"Last week we published the news of a sale of the Gold Ridge mines for \$120,000, and find that we had taken a shot in the dark for the deal was called off at the very moment of acceptance," says the Gold Hill News.

"The straight information of the deal is that the present owners were holding out for \$1,500,000 and the other proposition being on a ten day limit was finally refused by the owners as the property was considered too valuable to turn over at that figure.

In getting at the value of the property the owners secured the inspection of "Dry Wash Wilson," one of the best mining experts in the country who advised the holding and operation of the property. Mr. Wilson found easily two hundred thousand dollars worth of ore in sight."

Three Epochs in Woman's Life

There are three critical stages in a woman's life which leave their mark on her career—the first when she changes from a care-free girl to a woman, the second motherhood, and the third is change of life. Most of the misery which comes to women through ill health dates from one or another of these periods, but women should remember that Lydia E. Pinkham's Vegetable Compound is a reliable remedy and has been very successful in overcoming ailments which may come to them at these times, as it is a natural restorative for such conditions. Nearly a half a century of success entitles Lydia E. Pinkham's Vegetable Compound to the respect and confidence of every fair-minded woman.
