

DR. BULGIN DENIES RUMORS OF MONEY HE IS TO RECEIVE

Tonight Dr. Bulgin delivers at the tabernacle a chautauqua lecture that has been heard with great interest in a number of cities in the east on "Heroes in Homespun, or the Mountaineers of the South." Dr. Bulgin was born in the south and will tell the story which should be heard by all. Last night was high school night. The high school yells were given and a welcome extended to all present at 2 p. m. Tuesday. Mr. Lewis gives another interesting bible study at the tabernacle.

Dr. Bulgin spoke of the lies being circulated about the city as to the amount of money being raised to be taken out of the city, and that he came under a contract. Both are not true, as the collections so far taken are entirely for local expenses, and if not raised the evangelistic party must take care of them according to the agreement, and nothing will come to Dr. Bulgin save what the people may give in a free will offering the last Sunday. People who give nothing are always the ones to criticize such a movement, but they have no objection to enormous spending on pleasures by the people.

A feature of the meeting this evening will be the singing of negro songs. The sermon last night was on "Reasons for Not Being a Christian Given and Answered." Men find God, said the speaker, by faith, not by the mind. The mind that reasons out God would make Him no larger than his own mind. Every person expects some day to get right with God, but gives excuses for not doing it now. No man has an excuse that he can give God. One man says he cannot become a Christian, but he means that he won't. God cannot save a person who will not. When God says come, man can come, if he wills to. Another person says he cannot hold out. When a person is converted it does not make weaklings, but strong men. It's God's business to keep as well as to save man. Any person can hold out if he really wants to. Others argue that they are just as good as many in the church. These are hypocrites. The hypocrite is the meanest man on earth, and they put themselves up to be as good as they are. Why do people talk about the hypocrite in the church. It is because he is black on a white background, while the hypocrite out of the church is black and on a black background.

The best people on earth are the church people. The counterfeit implies there is the genuine.

Another argument given for not being a Christian is that there is too much to give up. These things every person must give up some day. Think of what Christ has given up for you!

A number came forward at the close of the strong message.

Thursday and during the Chautauqua meetings will start at 7 p. m. Dr. Bulgin has very generously given way so as to help make the chautauqua a success. He has boosted for it, as he always does wherever he goes. The people should reciprocate and be at the tabernacle a little earlier to make both a success.

FATHER WALKS 1000 MILES WITH SICK BABY IN EFFORT TO GIVE IT FRESH AIR CURE

James F. Watkins and his son 'Buster'

Widower Without Funds Gives Up Job to Save His Little Son's Life—Pushes Baby Carriage Length of California—Sleep in Open.

(By International News Service.)

LOS ANGELES, May 25—A remarkable case of parental devotion was disclosed with the arrival here of James F. Watkins, an electrician of Vallejo, Cal., who pushed his eleven-months-old son more than 1000 miles in a baby buggy over California highways in a successful effort to give his son a chance to live.

Watkins' wife died of bronchial pneumonia early in March. Doctors told him his little son, James F. Watkins, Jr., or "Buster", as the father calls him, had contracted pneumonia germs and that if he were kept in the open air, he had a bare fighting chance to live.

The father started out from Vallejo for eight successive nights held "Buster" in his arms. The baby grew better as the strange journey continued from northern to central, then to

southern California. Watkins journeyed as far as San Diego, and had proceeded as far north as Los Angeles, when a number of "movie" stars took up a collection and provided him with enough to rest a while and seek a job. "Buster" now weighs twenty-three pounds and is said to be as robust as the average baby of his age. In traveling about California Watkins worked on fruit groves and grain ranches at odd jobs. Often he had the baby busy in orange groves with him and pushed the infant from tree to tree. Speaking of his experiences, Watkins said:

"I have fed my baby, washed him, dressed him, cared for his little clothes, even sewed for him, entirely unaided, since his mother died. His food had consisted, for the most part, of condensed milk, with a little orange juice or sometimes a teaspoonful of olive oil daily. At intervals I have also given him a graham cracker. His feeding hours have been carefully kept, no matter where he might be. He has been fed at 8 a. m., noon, 4 p. m., and 8 p. m.

"On clear, warm nights, when we could sleep in the open, I have put him to sleep with a lullaby; a canopy of stars being our ceiling, and the moonbeams providing a splendid bedroom lamp."

Memorial Day Announcement

Headquarters Chester A. Arthur Post No. 47, G. A. R., Medford, Oregon.

Let us turn for the day from the cares of business and the home and pause to pay tribute to our honored dead. Whenever a nation forgets its illustrious dead, whenever it fails to treasure up the influences of their unselfish devotion, its very life is threatened.

The exercises will be held jointly by the G. A. R., W. R. C., and American Legion and their Auxiliaries.

Exercises beginning at 10:30 a. m. at the Page Opera House on Decoration Day.

The Post and W. R. C. will assemble at the park at 2 p. m. Sunday, May 29th, and march to the Tabernacle where divine services will be held. Dr. Bulgin will make the address. The American Legion, all soldiers and the public are invited to join with us.

Order of exercises will be published later.

WILLIAM FARR, Adjutant. D. W. LUKE, Commander.

Bad Blood Disfigures Young Faces With Unsightly Eruptions

The mortifying and unsightly skin and facial disfigurements on young people from 14 to 20 years old are seldom due to anything worse than impure blood. The young bodies are undergoing important changes, and the blood stream is temporarily disordered—often filled with poisonous waste matter. In such cases only internal blood remedies can relieve. The impuri-

ties must be cast out and the vital fluid enriched before the disfigurements are cleared up. For this you naturally want an efficient, tested blood remedy—like S.S.S., the famous old herb medicine. Start the young folks with S.S.S. today (your druggist has it), and write us about their condition, addressing Chief Medical Advisor, 841 Swift Laboratory, Atlanta, Georgia.
