**A Word to the Wise**  
"In March I was called to the bedside of my sister in Brewton, Alabama. She was given up to die and was almost dead. Talked in a whisper. Doctors said nothing but an operation would save her and she was too weak for that. Her color was yellow as a pumpkin and she was filled with gas. That day I heard of May's Wonderful Remedy and went and got a bottle for her. In three weeks she was able to be about and walked a mile to church. I am praising your medicine to everyone." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by all druggists. Adv.

**Like the Blind-folded Game of Pinning the Tail on the Donkey.**

When any person tries to diagnose his own "sickness," and then prescribe his own "medicine," he is altogether in the dark. The blind-folded person who tries to pin the tail on the donkey in the old game is much more certain of his job.

Only by years of training and intensive study of the human body can a doctor be sure of telling about your trouble. He usually finds that something entirely different from what you imagined is the real trouble.

Then he can write a prescription, based upon your own physical requirements, which will help nature to act normally again.

We fill the prescription exactly as he writes it.
