

POPULARITY OF THE CHAUTAUQUA GROWING DAILY

TODAY'S PROGRAM Afternoon—Concert Prelude, the Lowell Patton company. Readings, Winifred Windus. Junior Chautauqua play hour. Evening—Concert Prelude, the Lowell Patton company. Lecture, "Paying the Fiddler," E. B. Fish, editor of "Labor and Industry."

The second day of Chautauqua saw even larger crowds than the first, brought out evidently by the enthusiastic reports of those who had been at the tabernacle on the opening day. Miss Electra Platt won without doubt the honors for the day in applause and praise. With her able assistant, Mr. Achille Bragers, Miss Platt proved an inimitable comedian, singing her songs and reading her own monologues with equal ease and ability. The audience was indeed loath to let her go and it required the coming of the director to introduce the speaker, to stop the applause that followed the entertainers off the platform.

The afternoon lecture, delivered by Dean Ellwood C. Perisho, was a timely and able discourse on many of the big economic problems of the day. The evening address was given by Congressman Rainey from Illinois who spoke on the phases and possibilities of modern Federal Taxation. He cleared up several intricate points for Mr. Average Citizen who frequently knows too little about the whys and wherefores of government affairs.

Today the musical part of the program is given over to the Lowell Patton company. Mr. Patton who is a brilliant pianist is well known on the coast and is most ably assisted by Miss Lula Root, contralto and Miss Lucille Colette, French concert violinist.

The evening address will be given by E. B. Fish, an able and fearless speaker and a two-fisted fighter who put the Reds on the run in the northwest. Mr. Fish calls his address "Paying the Fiddler."

RESUME DRILLING TRIGONIA WELL

The drilling tools recently lost in the Trigonía Well by the breaking of the drilling cable, were removed at a late hour yesterday afternoon. According to the officers of the company, it was some job extracting over two ton of steel jammed into solid rock. However, they report there is nothing like skill and dynamite pep to render results.

The new drilling cable has been installed, and is the pride of the drilling crew. Drilling will be resumed today. There will be no work tomorrow.

'HARDING' MANNIKINS LATEST THING IN PARIS

(By International News Service.) PARIS, May 28.—The "Harding" doll has just made its appearance in boulevard windows in Paris, along with other comic figures of Foch, Lloyd George and other notables. Parisians thus learn that President Harding is supposed to have two front teeth missing, a purplish-red nose and elephant ears.

Bank Reserve Increases NEW YORK, May 28.—The actual condition of clearing house banks and trust companies for the week shows that they hold \$11,891,230 reserve in excess of legal requirements. This is an increase of \$12,226,160 from last week.

UNCLE OF GERMAN CABINET MINISTER IN U. S. POORHOUSE

(By International News Service.) MONTGOMERY CITY, Mo., May 28.—August Groener, eighty-nine, an uncle of General Groener, new social democrat minister of posts and transportation in the German cabinet at Berlin, is an inmate of the Montgomery County Poor Farm, here.

Leaving Germany sixty-nine years ago, Groener came to this country and engaged in cabinet-making for a Chicago company. He came to this country twenty-nine years ago, and three years ago was disabled by a stroke of paralysis. Being without funds, he entered the infirmary for the penniless aged.

Expressing elation over the prominence gained by his noted kinsman, Groener declares emphatically that he is considerably more interested in American independence than in puzzling himself with German affairs. "I have only a few more years of life," he says, "and I am content to remain here with my friends. I believe that the greatest characteristic of the American is his spirit of charity and his eagerness to care for the unfortunate."

At the Page The man who produced the first and the most famous of films made under the sea now produces the first picture to be made over it. He is Stuart Paton, the noted Universal director. While "The Torrent," which opens a three day engagement at the Page tomorrow, is a different type of a story from Jules Verne's "Twenty Thousand Leagues Under the Sea," it nevertheless has the thrills to compete with that classic. George Rix, the author of this tale, is a newspaper writer and magazine fictionist whose personal adventures furnish the basis for most of his stories. He gives the story many new twists and situations and proves himself an expert in the combining of red blooded adventure with appealing romance. There is an all-star cast headed by Eva Novak.

Come early to get a seat.

A large audience was present last night and heard a forceful and convincing message on "Rocked in the Cradle of False Peace." The evangelist said, as long as a man feels he has no peace with God there is some hope for that man. There is hope for the one who is anxious, but none for the man who is numb, whom the devil is rocking in the cradle to sleep. Medford is full of people who want to be let alone. A man does not have to kill, steal or lie to go to hell, but merely to sleep and drift. Because one is out of the penitentiary is no reason why that man is ready to meet God. The trouble is that man has a bad nature, and needs a new one. Men tell me that they are going to heaven on a square deal, but they do not give a square deal. Morality is good, but it will not save. The best moral man on earth, if he does not measure up to God's standard is off the board. Morality comes after not before salvation. You also hear people say that salvation is a mere matter of one's opinion. Many in Medford are rocked in the cradle of their own belief. If the government must have a fixed standard, then God must have and God has.

You find still others, the speaker said, in the cradle of agnosticism. He is the man who says he does not know. Don't tell me that God has built a wall so God and man cannot know. Many are being rocked in the cradle of forms and externals without the reality. They are professors and not possessors. It is a pity that God did not keep Jesus Christ in heaven, if man can be saved by joining a lodge or by mere ritualism. The lodge can save no man. It demands a pretty good standard of morality, but not spirituality. Joining a lodge now, and the speaker said he was a member of several, does not erase the sins of the past; no pope, church, or your dying mother can make a black sin white. Christ alone can do that. If a man is in the church and not saved he is lost. The sermon was unusually strong in its appeal and some expressed the purpose to live the Christian life at the close of the message.

Mrs. Lewis sang an effective solo during the meeting.

of foreclosing a mortgage and then wait a year or more. WHY DON'T YOU MAKE UP YOUR MIND to place it with Jackson County Building & Loan Association, get the highest rate of interest, and where, if necessary, in a reasonable length of time by giving written notice, you can withdraw it. It beats REAL ESTATE investments even at this time of high rents. It surpasses loaning to individuals who at any time may have reverses and be placed financially where they cannot even pay you your interest. Every loan we make is secured by real estate double that of the amount borrowed, by first mortgage, and by promissory note. It's the safest investment in Jackson county. Come in and talk it over with us.

SUNSET TO MIDNIGHT ELECTRIC SIGNS

You quit selling goods at six o'clock (or thereabouts). So do your clerks. But the rent does not quit. And your taxes do not quit. Moreover the people do not go to bed at six. Why not let an electric sign and brightly lighted windows, illuminated with electricity, go on selling goods for you after six? All through the evening in fact. Why not—The very people you want to reach—the purchasers—have no time to be on the street except evenings. That is the time they roam about, looking, seeing, formulating and deciding on their purchases. People do not have to hunt up your electric sign. It hunts them up like a search light. It is seen from afar. It talks to folks all along the street. They do not have to decipher it, either. It turns its message into them quickly, pleasantly, deeply and surely. And mark you, they will remember it, and you and your location, after they have gone home. Once more then, we ask, "How about Sunset to Midnight"—May we send our representative to help you decide?
