Up to early this afternoon a very light vote had been cast at the various city precincts at the state election on five referendum measures, but a much larger vote is expected this afternoon and early evening. The polls will be open until 8 p. m. It is estimated that only about an average of 12 votes per precinct had been cast by 11 a. m. At this hour 17 votes of the Newtown precinct were in at Washington school and at 11:30 17 votes were in at the South Medford precinct at Kunzman's store, and at the Medford northwest precinct at the Smith tin shop building on North Grape 14 ballots were in.

The fire department was called out at 6:30 a. m. today to the West Side Meat market where smoke pouring out the windows attracted passersby, to find that the smoke came from a burned out motor in the rear room, which as usual had been left running all night by Emil Peck when he closed up last Monday evening. This motor and connecting wires which are used in connection with the cooling plant was burned out and ruined, entailing a loss of several hundred dollars. A new motor was installed within a few hours this forenoon and the cooling plant was again in operation.

**To Relieve Catarrh, Catarrhal Deafness and Head Noises**

Persons suffering from catarrhal deafness, or who are growing hard of hearing and have head noises will be glad to know that this distressing affliction can usually be successfully treated at home by an internal medicine that in many instances has effected complete relief after other treatments have failed. Sufferers who could scarcely hear have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear. Therefore, if you know of someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows:

Secure from your druggist 1 oz. Parmitin (Double Strength). Take this home and add to it 1/2 pint of hot water and a little granulated sugar stir until dissolved. Take one tablespoonful four times a day.

Parmitin is used in this way not only to reduce by tonic action the inflammation and swelling in the Eustachian Tubes, and thus to equalize the air pressure on the drum, but to correct any excess of secretions in the middle ear and the results it gives are nearly always quick and effective.

Every person who has catarrh in any form, or distressing rumbling, hissing sounds in their ears, should give this recipe a trial.
