

TRAINED NURSE OF LOS ANGELES PUTS IT TO TEST

Miss Hazel M. Burleigh, 969 Francisco St., Los Angeles, Cal., a trained nurse, after having been convinced by actual test of the remarkable results following the use of Tanlac, feels she owes a duty to others to give them the benefits of her experience with the medicine. Miss Burleigh says:

"Last spring I came off a long, hard case and was badly run down and weak. I felt the need of something to build me up and bring back my strength. I had heard friends and patients praise Tanlac so highly I got some and by the time I had taken three bottles I was feeling as fine and was as well and strong as I ever was in my life and I have been in the best of health ever since.

"Since I have found out by personal test that it is a medicine of unusual merit I have suggested it in several cases with gratifying results, and in one case of chronic stomach trouble the benefits following were nothing short of remarkable and the patient is now entirely well. I do not hesitate to recommend Tanlac in cases where there is need of a good system-builder or in cases of stomach trouble, especially those where formation of gas produces disagreeable symptoms."

FLOOD DAMAGE AT HOOD RIVER LARGE DUE TO GOPHERS

PORTLAND, Ore., June 8.—Toll of the damage due to the Columbia river flood was increased today by inundation of the large truck farm of J. H. Koberg at Hood River, Ore., with loss estimated \$10,000. Break in the dike there was attributed to gopher burrowing. This farm, largest in the mid-Columbia region, ships extensively to northwestern cities, and its crops of vegetables was declared virtually total loss.

Preparations for flood were reported at The Dalles, where heavy machinery exposed to danger in case of inundation was being moved today. Kelso, Wash., reported the dikes would be in danger at the river stage forecast of Friday, and low places were being strengthened.

There was gradual rise in the Columbia today but the Snake was reported stationary. The weather bureau's three day forecast indicated slow continued rise.

BABE RUTH STAYS DAY IN PRISON, DIGNITY RUFFLED

Court Tells Home Run King Place in Sport World—No Alibi for Breaking Speed Laws—Star Hitter Peeved—Fans Cheer His Return.

NEW YORK, June 8.—Babe Ruth, the home run champion was released from the city prison at 4 o'clock today after serving a sentence of one day's imprisonment for violating the automobile speed laws and immediately started for the Polo grounds to play with the Yankees against Cleveland.

Babe plainly was disgusted with the world in general and courts in particular when he was taken to a small anteroom, near the court which served as his cell. He submitted to finger printing with bad grace.

The formalities over he sat down and tried to read a newspaper. Finally he crumpled the paper and threw it on the floor.

He spent a good deal of time looking at his watch and figuring how soon four o'clock would come around.

In sentencing Ruth the magistrate said:

"I've been sending many chauffeurs to jail from five to fifteen days as well as fining them. Therefore it does not seem fair to allow merchants or society men or an outstanding figure in the sporting world as you are, to come into the court and be given a small fine and so away."

Babe reached the Polo grounds at 4:30 and stepped up to bat first for New York in the sixth inning. The crowd greeted him with a gasp of surprise and then a burst of applause.

Japan gets the news, looks carefully around, sees nobody else that can reach her, says "That must be meant for me," and starts to build a new line of capital ships, urging self-defense. This fact is duly printed in the United States, which says "See what the Japs are at? They're building those ships to attack us," and starts on a program still bigger. Whereupon Japan is convinced or is told that America is really coming to blow her out of the water and pushes herself into the present lunatic program, which, if it doesn't bankrupt her in eight years will give her a naval fighting force of stupendous power; much greater, in first line ships, than even the navy of Great Britain.

The point of danger then is that if Japan pursues her present policy in China, if alarmed American interests continue to misunderstand and misrepresent it, if the minds of the Japanese people are at length angered by continuous and gratuitous insults from America, if outside influences are sufficiently (or successfully) irritating, why, then, say the quarrel grows about wretched Yap or California race prejudice, and the temptation to use these great fighting machines may be overwhelming when there will not be the slightest justification for their use.

At the present moment the angering of the Japanese people to a point where they will want a war with America looks like a hard job, but the peace agencies should not count too much on this. Any people, no matter

how pacific, can be goaded into war by the application of a sufficient number of the right kind of lies. It is undoubtedly true, as I have pointed out before, that war will never again be made in Japan as it has been made heretofore; never again without reference to the will and judgment of its people. But this, to a disillusioned world will seem, after the great disappointment about Germany, only a shadowy protection.

Japan is Arming

There is one other ominous fact about this situation. While the people of Japan are growing more and more adverse to war the government of Japan is strengthening her defenses, not necessarily against us, but strengthening them. Of this there are indubitable signs. We should not, furthermore allow ourselves to be fooled with any comfortable belief that Japan is financially unable to carry on a great war. Her national debt burden is trifling compared with that of the European nations. She owes but \$1,289,873,000, about \$17 for each inhabitant, on which the interest is \$58,000,000 or 75 cents a year for each inhabitant. She has been diligently (and successfully) piling up her gold reserves; next to the United States she is now the first of the gold-owning and creditor nations.

But one little practical fact we ought not to overlook, supposing we are able to make ourselves indifferent to the black moral turpitude of such a conflict. It would be the hardest war we

ever fought, and the most costly, as well as the most senseless and most inglorious. Japan is marvelously fortified; you cannot possibly get at her from the open ocean. Behind her, the Japan Sea would be such an impenetrable lake as the Russians found, only

WARNING

Unless you see the name "Bayer" on tablets, you are not getting genuine Aspirin prescribed by physicians for 21 years, and proved safe by millions.—Say "Bayer"!

SAFETY FIRST! Accept only an "unbroken package" of genuine "Bayer Tablets of Aspirin," which contains proper directions for Headache, Earache, Toothache, Neuralgia, Colds, Rheumatism, Neuritis, Lumbago, and pain generally. Strictly American!

Handy tin boxes of 12 tablets cost but a few cents—Larger packages. Aspirin is the trade mark of Bayer Manufacture of Monocetate Ester of Salicylic Acid

Why have a Coal Bin or a Wood Box?

PEARL OIL

YOU can get clean economical Pearl Oil from dealers everywhere.

You save yourself a lot of trouble and work when you cook with a good oil cookstove. No ashes to carry—no fires to require your frequent attention.

With a good oil cookstove and Pearl Oil the heat is applied directly to the cooking utensil. The heat is steady and dependable. Pearl Oil gives high fuel values.

Pearl Oil is the clean burning, uniform, economical kerosene—refined and re-refined by a special process. Dealers everywhere. Order by name—Pearl Oil.

HEAT AND LIGHT.

M'MAHON NAMED STATE SPEED COP, PAY IS LARGER

The many friends of J. J. McMahon, who according to his own story was "fired" from the position as deputy sheriff last Sunday by Sheriff Terrill will be pleased to know that he has just been appointed as one of our four additional state traffic officers by Secretary of State Kozler, and has been ordered to report to T. A. Rafferty, chief motor vehicle inspector of the state, at Roseburg, next Monday for duty.

This new position carries with it a larger salary than McMahon received as deputy sheriff, the emoluments of the office being \$150 a month and expenses, whereas his salary as deputy sheriff was \$150 a month, out of which he had to pay his own expenses and furnish his own auto and its upkeep.

The state traffic officers do duty all over the state upon the main traveled highways, and it is expected that McMahon will be assigned to duty for several months each year in this section. For the present his family will continue to reside in Jacksonville, McMahon during two years' service as deputy sheriff earned the general reputation of being an efficient and fearless officer.

For some time past it has been known to those in the inner circles that the sheriff and his deputy were not in complete harmony, and for weeks the rumor has been commonly circulated that Sheriff Terrill would either discharge him or try to force his resignation.

The fact that his salary was reduced to \$100 a month June 1st, seemed to give authenticity to this rumor. McMahon long before this in anticipation of the salary cut coming told intimate friends that he would be compelled to resign as he could not keep his family on such pay, but that he would not resign under fire as he claimed that certain law offending interests had openly asserted that they would get his scalp as deputy sheriff.

"When the sheriff realized that I was going to hang on as long as possible and that the salary cut would not work, he came to me in Medford last Sunday and told me to quit," said McMahon last night. "He shouldered the blame on the county court. Hosh! I know better. We had a good heart to heart talk on the street, at least I know I got some things off my chest."

Liberty Bonds

NEW YORK, June 8.—Liberty bonds closed: 3 1/2's 88.06; first 4's 87.70; second 4's 86.70; first 4 1/2's 88; second 4 1/2's 86.98; third 4 1/2's 81.50; fourth 4 1/2's 87.10; Victory 3 1/2's 98.40; Victory 4 1/2's 98.40.

BETTING ON JAPAN
