There was one of the biggest calls for strawberries for canning in years at the public market this morning, because of the low price and cheapness of sugar, and the supply unexpectedly could not begin to fill the demand, largely due to the fact that several large commercial strawberry patches were accidentally flooded by irrigation ditches yesterday. However Superintendent Runyard says there will be a bountiful supply on hand for Saturday's trade.

For the Perfect Foot—

You who have perfect feet quite likely do not appreciate the fact. You have always had them—you see no reason why your feet should fail you. Yet seven people out of every ten have weak or fallen arches.

Value your perfect foot and keep it perfect for all times—wear the ARCH PRESERVER SHOE with the concealed bridge which comfortably and properly supports and keeps the arch in normal shape.

If your feet are perfect the ARCH PRESERVER SHOE will keep them perfect, if they are not, this shoe will help them.

Carl Tomwald, hotel manager, Seely V. Hall, transportation manager, and C. C. Heinlein, electrician, of the new Crater Lake company, and Carter Brandon who accompanied them, have returned home from a trip to Crater lake to examine into conditions there, and report that Alex Sparrow, supervisor of Crater National park, is already at work with a gang of men, with snow plows and shovels, digging out the deep snow from the park headquarters to the hotel, getting ready for the opening of the season on July 1st. On that date all autos can easily reach the hotel. At present one can only go within twelve miles of the lake and must make the rest of the trip on snowshoes. There are 48 inches of snow at Anna spring camp, and between there and the hotel there are drifts of 5 or 6 feet.
