

CONGRESSMAN MASON OF ILLINOIS DIES, AGE SEVENTY

WASHINGTON, June 16.—Representative W. E. Mason, 70 of Illinois, died here today from heart trouble. Although Representative Mason had been suffering from a heart attack for several days his condition yesterday was reported as showing improvement and death came unexpectedly after a sudden relapse.

He formerly was a member of the senate.

CHICAGO, June 16.—From school teacher in a small town to representative and senator in both the state legislature of Illinois and the national congress, was the record of William Ernest Mason, who died in Washington today.

He was born in Franklinville, N. Y., and when he was eight years old he moved with his parents to Bentonsport, Ia., where he received his preliminary education at the Bentonsport academy.

When sixteen years old he began teaching school in Bentonsport. Later he began the study of law. Moving to Chicago, he was admitted to the bar in 1872, and was identified with the legal profession here for more than forty years. In 1873 he was married to Edith White, of Des Moines.

In 1879 he was elected to the general assembly, to the state senate in 1881, to congress in 1890, was defeated for re-election in 1892 and was elected United States senator in 1897. In 1916 he was elected representative at large from Illinois.

SCENIC SOCIETY MEETS AT TABLE ROCK ON FRIDAY

Table Rock school house at the base of that odd scenic attraction, "Table Rock," will be the meeting place of the Scenic Preservation Association of Jackson county next Friday.

This meeting will be in the form of a basket picnic and all who attend should provide their own lunch. It is not necessary for citizens to be members of the association in order to attend the meeting, as anyone interested in the conservation of the scenic resources of the county are welcome to participate in the picnic and meeting which will immediately follow the basket lunch to be held at the noon hour.

In selecting the Table Rock district for the June meeting of the association, it was in recognition of the fact that by a greater development of that scenic asset, the people living in Jackson county as well as the many tourists coming here will have a better opportunity to obtain a view of the wonders and extent of that part of the Rogue river valley located in Jackson county.

Residents of the Table Rock district are given a special invitation to participate in the meeting next Friday.

C. OF COMMERCE DIRECTORS WILL CONSIDER TAXES

Considerable interest has been awakened in the community as a result of the address of J. B. Coleman, the county assessor, at the Chamber of Commerce forum yesterday. The question of having the timber lands of the county cruised in order that a more equitable assessment of these taxable properties may be obtained, will be given consideration by the board of directors at their next meeting.

The forum was not billed as one at which brilliant humor would be displayed, but with Gus Newbury as the presiding officer and F. E. Merriek as the song leader, the complimentary (?) remarks which passed between these two gentlemen kept the members in a constant uproar.

The capacity of the annex dining room was taxed to its limit and among the out of town guests were George W. Barker of Butte Falls, J. W. Elden of Central Point, A. B. Cornell of Grants Pass, J. B. Coleman of Jacksonville and the following from Portland: W. W. Evans, H. S. Hammond and J. D. Jordan.

At the Rialto
A delightful picture in every respect "Straight is the Way," was presented before an appreciative audience at the Rialto theatre yesterday. This is a picturization of Ethel Watts Mumford's excellent story, "The Manifestation of Henry Ort." It is a satirical comedy based upon the ouija board craze and the story is one of mystery, thrills and love.

While "Straight is the Way" is a so-called crook picture, the crook element is so lightly done that there is nothing at all melodramatic or depressing in the picture. It fairly sparkles from beginning to end and its humor at times is delicious. The leading roles are in the capable hands of Matt Moore and George Parsons, the charming actress who plays opposite Matt Moore and Mabel Bert, who has the role of Aunt Mable, a charming old widow.

Laughs Crowd Each Other
"Brewster's Millions" which opened a four day engagement at the Page theatre yesterday, has convulsed the thousands of readers of what is perhaps the most popular novel ever written by George Barr McCutcheon, three other thousands of playgoers into spasms of laughter when it was presented on the stage. With the indescribably wider range of possibilities offered by the screen, this "Fatty" Arbuckle vehicle becomes a veritable explosion of hilarity.

The story is one of pure comedy romance. It has been embellished highly, in the screen version, by the inclusion of a number of incidents that appear in neither the novel or the play, with the result that the production has a far greater comedy value than either of its forerunners. These additions are of such a character that only one living comedian can put across "Fatty" Arbuckle.

One of the real events of the screen year is in the Paramount-Vandenbergh Expedition pictures at the Page, which is an added feature to the bill. These scenes of the Congo jungles have more thrills in a single flash than a "photo-drama" could possibly give in all the length of its five reels.

OREGON QUALITY

Facts

about your crankcase

Road dust, carbon, fine metal particles and other impurities accumulate in your crankcase oil from engine operation.

- The gritty oil circulates through your engine, impairing its performance, and ultimately leads to rapid depreciation and repairs.
- Automobile manufacturers recognize this danger, and in their Instruction Books, carefully advise regular draining and flushing of the crankcase.
- These important instructions are often disregarded; cleaning the crankcase is a job generally disliked.
- To meet this need, Modern Crankcase Cleaning Service has been established by first-class garages and other dealers, co-operating with the Standard Oil Company. These garages and dealers use Calol Flushing Oil, — the scientific agent that cleans out old oil, dirt, grit and other impurities, and does not impair the lubricating efficiency of fresh oil used.
- The cleaned crankcase is refilled with the proper grade of Zerolene.
