Get Away From Rent Worries

BUILD NOW!

Sold out! How often have we all heard that expression recently? And every renter knows what it means. It means that he must move his family from the place that they have considered "home." It means a long, hard search for another house—quite often an unsuccessful search nowadays. But even if successful the renter is still victim to the fear of being "sold out." This, and the many other worries of the renter are ended the day he decides to

A safe investment? There is an unprecedented market now for property—and the market is going to exist for years to come. There are no indications that building prices will fall lower than they are now—but years hence, even though building prices should slowly settle to a lower level, the tremendous building activity that must come in the meantime will give your investment a substantial increase in value.

paying rent. Right now you can buy lots cheaper than they have been for years, but they are going up soon. Take advantage of these low prices now—no method of living is as high as paying rent.

Building materials have dropped from 10 to 33 1-3 per cent. But there are no prospects of their becoming much cheaper. And, at present prices building material is not as high as paying rent. Building lots are not as high as

Get away from your rent worries. Stop thinking of the high rent you are paying. Don't fear future raises in rent that you are certain will come. Release yourself from that thought that you may some day be "sold out." Invest your yearly rent in your own property—plan your home to your own needs, comforts, conveniences and ideas. Give your family the contentment of living that is due them—**BUILD OR BUY A HOME.**
