**MEDFORD PEOPLE INJURED IN AUTO WRECK SISKIYOU**

A party of four well known Medford people met with an unfortunate accident Sunday night when the Chevrolet car of Miss Eleanor McQuiston, bookkeeper of the Gates Auto company, and sister of Mrs. Robert Boyle, was driven off the highway in the Siskiyou and turned turtle.

Miss McQuiston and her mother, Mrs. Josephine McQuiston, are at the Sacred Heart hospital, the former with a badly cut hand and her mother with a dislocated right shoulder and numerous cuts and bruises. Miss Mamie Hamm who also was in the auto when it went off the highway and overturned was badly shaken up, and the fourth member of the party, A. P. Walker, the choir leader and vocal teacher, happened to be outside the car and thus escaped injury. The car, which was owned by Miss McQuiston, is a total wreck.

The quartet left the city in the evening for a ride up the Siskiyou and had proceeded as far as 14 miles this side of Hilt when they decided to turn around and come home. Miss McQuiston was driving and during her maneuvering to turn around, Mr. Walker got out of the car to direct the turning.

In some way the car went off the highway and down the mountain 30 feet where it overturned and stopped. Miss McQuiston and her mother were pinned beneath the car, the mother beneath the back door which had to be broken away to release her, and the daughter was pinned between the windshield and the steering gear.

William McIntyre of Medford, who was enroute home from Etna Mills, Calif., happened to come along right after the accident occurred and he and Mr. Walker extricated the women and carried them up to the highway, and the party then hurried to Medford and to the hospital in Mr. McIntyre's car, where Dr. Stearns administered to their injuries. Miss McQuiston was very weak from loss of blood as an artery had been severed in the second finger of her right hand. The patients today were reported as in no danger.

The accident was fortunate in that the descending car overturned only 29 feet from the highway and did not go on down the steep mountain side.

**H. C. GARNETT AND FAMILY DEPART**

Mr. and Mrs. H. C. Garnett and children left this afternoon for Alhambra, Cal., where Mr. Garnett has purchased a hardware store and where the family will make their home.

They have lived here seventeen years and as "Shortie" says, "We have done the best we can while in Medford." This is saying a whole lot because they have been very directly connected with the church, social, business and other activities and could always be counted upon to render service along any of these lines. "Shortie" as everybody knows Mr. Garnett, has a winning way and a pleasant word for everybody that have made him one of the most prominent of Medford's live-wire men, counted upon to render every service along any of these lines at any and all times.

Medford friends, by the hundreds, wish the Garnetts happiness and prosperity in their new home, while regretting to bid them farewell.

In reading the article in this paper Saturday about Rev. G. W. Hatcher, of Columbia, Mo., "The Marrying Pison," who has tied 447 knots of matrimony, "Shortie" Garnett said one of the knots was his better half and the 51 years ago in Kansas City, Mo.

**TOO ILL TO WORK**

**A Mother Tells How Her Daughter Was Made Well Again by Lydia E. Pinkham's Vegetable Compound**

Philadelphia, Pa.—"At the age of sixteen my daughter was having trouble every month. She had bad pains across her back and in her sides, her back would pain her so that she could not do her work and would have to lie down. My married daughter recommended Lydia E. Pinkham's Vegetable Compound. She took it faithfully and is now regular and has no pain. We recommend the Vegetable Compound and give you permission to publish this letter."—Mrs. KATIE EICHER, 4034 N. Fairhill St., Philadelphia, Pa.

Standing all day, or sitting in cramped positions and often with wet feet, young girls contract deranged conditions, and before they are hardly aware of it they develop headaches, backache, irregularities, nervousness and bearing-down pains, all of which are symptoms of woman's ills. If every mother who has a daughter suffering from such symptoms would profit by the experience of Mrs. Eicher and give Lydia E. Pinkham's Vegetable Compound a fair trial she may expect the same happy result.

**Our Champion Plays in England**

Mrs. Nella Busted Mallory, American woman tennis champion, photographed in action during the recent women's tennis tournament at Beckenham, England. Mrs. Mallory was eliminated by Mrs. Beunish, of England, in the semi-final round. The tournament was won by Miss Elizabeth Ryan of California, who defeated Mrs. Mallory's conqueror in the finals.

**EAGLE POINT EAGLETS**

By A. C. Howlett

H. L. Cox and wife of the California-Oregon Power company were here for dinner on their way to the Butte Falls country for a few days outing and Fred Cummings the superintendent of the water system was here for dinner Tuesday.

In writing an account of what a fine time the lady members of the Civic Improvement club had while they had their meeting at the home of Mrs. M. L. Pruitt, there was one very interesting feature that was omitted by the lady friend who handed me the report that I happened to pick up later and that was that Mrs. R. A. Weidman, one of the active and influential members had her camera along and took pictures of the members as they were collected in different groups and some of the photos are very fine and show up several of the beauty spots of Mrs. Pruitt's lawn and surroundings.

Dr. W. W. P. Holt, formerly of this place but now of Medford, passed through here Tuesday with Mrs. Ralph Tucker of Brownsboro, taking her into Medford to be placed in the hospital for treatment. There seemed to be no very serious trouble but a find of general backing down caused by too close confinement and overwork.

Mr. and Mrs. Royal G. Brown have taken a trip down to San Jose to visit their daughter, Miss Hazel who is engaged in business in that city.

Mrs. Anna Brophy and her sister, Mrs. Obe McPherson went to Portland Tuesday night on the train but expect to return with a car over the Pacific highway.

Messrs. Adamson and Chappell who own and operate a sawmill near the town of Trail came out Tuesday and brought out two small lots of lumber, one for W. L. Childreth and the other for Geo. Brown & Sons. They report that they are getting along quite well with their work, although they have had to work to disadvantage on account of having to hurry up orders for the Rogue river bridge as soon as they got their mill started before they could have tracks and runways fixed, but now they are putting them in and expect to do a good business yet this summer and fall.

J. W. Learned of the Oregon Life Insurance company, was here for dinner and so were George Gwen, his son Charles who live on their farm on Rogue river about three miles west of our town and W. A. Crane of Applegate, who were out canvassing the county in the interest of the Farm Bureau Exchange. Mr. Crane returned and spent Wednesday and Thursday nights at the Sunnyside. It appears that there is an arrangement made between the members of the Farm Bureau to have one man who is authorized to solicit names and issue certificates of membership to canvass a certain section of the county and some one who is acquainted with the country and people ventures to take him around, one each day. Thursday he was taken around by Lloyd French. Mr. Crane reports that he was having good success except when he got into the German settlement up in the Lake creek country.

Carlyle Natwick, one of the sub-contractors on the unit between Hog creek and the new Rogue river bridge was here Tuesday for dinner. Carlyle Natwick and Lois Martin have taken a contract from the original contractors, Messrs. Rhodes and Price to do a certain job on the Crater Lake highway and are working like beavers to get it completed.

Mrs. Walter Marshall of Brownsboro and Mrs. Harvey Stanley and Miss Meda Marshall, a sister of Mr. Marshall, were transacting business here Tuesday.

J. W. Berrian of Medford, who has

charge of the Butte Falls fish hatchery passed through here Tuesday on his way home Tuesday evening. He says that the fish are doing fine in the hatchery this season.

Mr. Millard, the speed cop, was out here hunting up delinquents. He found a car here on the street without a license tag and watched around until he found the owner, Dennis Zlanerzy of Trail, but when he came to question him it appeared that he had applied but there was a mistake made in the number of the car so he was all right. He went to see another man who had a California license but he had his car in the garage and was trying to get his license so accomplished nothing in that line.

W. H. Brown and wife of the firm of Geo. Brown and Sons, and two traveling salesmen were here for dinner Thursday, and so was J. M. Leonard of the Oregon Life Insurance company.

Among the business callers was Bert Clarno of Eagle Point, J. W. Barry of Brownsboro, John Welch of Lake Creek, John Greb, Jr., for intelligence from his sister who was in the hospital. I learned after they went to Medford.

W. G. Averill and his little niece, both of Medford, came out and spent Thursday night on their way up to his ranch on the P. & E. R. R. five miles this side of Butte Falls. He was taking the little girl up to try to get some color in her face by breathing the pure mountain air and drinking good pure mountain water.

Prof. H. H. Lowe and wife passed through here Thursday on their way to Butte Falls. Prof. Lowe is to be the principal of the Butte Falls high school the coming season and he seems to be greatly encouraged over the prospect for he with others shares the opinion that Butte Falls will wake up and that they will have a flourishing business center there yet.

M. Gay and Jeff Conover were here Thursday and report that they found so much snow at their sulphur mine that they could not work to advantage but they brought out some specimens of rock that looks good. They claim that they have powdered up some of it and found gold, silver, copper and another mineral that they could not name.

W. E. Hammel of Reese creek, was also in town Friday and reports there will be another bond election held July 9th at the Reese creek school house by the Eagle Point Irrigation district for the purpose of voting more bonds as they have added as much more land to the district as there was originally. A full attendance is expected.

Chief Henson and wife were here on business Friday.

Mr. and Mrs. Chris Natwick with their two granddaughters passed through town Friday on their way up to where their son Carlyle is working on his contract.

R. D. Henson and W. R. Smith, foreman and helper of the Klum Adv. Co., were out Friday putting up new advertisements. They took dinner at the Sunnyside.

H. P. Richter, C. S. Cole, J. H. Jones and Wm. Stinson who are in the employ of the California-Oregon Power company were here Thursday and Friday morning moving some of the light poles out of the middle of the street the county court is opening and having graded.

**An Advertisement Helped Her**

Mrs. Lucille Mackey, 16 Buena Vista St., Washington, Pa., writes: "Last winter my 3-year-old girl caught a bad cold which left her with a dry cough. It bothered her most at night and she would cough until she vomited. I thought she must have had whooping cough. I saw an advertisement for Foley's Honey and Tar. I tried it and bought two bottles and her cough left her before she finished the second bottle. She had gotten awfully thin, but now she is as fat as ever." Sold everywhere.

**NOTED AUTHOR TO BE SPEAKER FORUM TOMORROW**

Walter Pritchard Eaton, a noted author, and Fred H. Kiser the well known scenic photographer will be the two speakers at the Medford Chamber of Commerce forum at the Holland Hotel tomorrow noon.

At the present time, Walter Pritchard Eaton is writing a series of articles for the New York Times of his travels about the State of Oregon, which will include a visit to Crater Lake and along the back bone of the Cascade Range. He has been a contributor to the American Magazine, Harpers, Country Life and many other periodicals as well as having written a number of Boy Scout books. His home is at Sheffield, Massachusetts, and he is being piloted through scenic Oregon by Fred Kiser of the Kiser Motion Picture corporation of Portland.

With the Kiser-Eaton party is a complete motion picture outfit of director and camera men and they completed a motion picture of the parade at Ashland yesterday.

Fred Kiser has been active in the scenic preservation movement in the northern part of the state and in his address tomorrow will touch upon that subject.

The Kiser-Eaton party have been elaborately entertained by the Chambers of Commerce and Rotarians at Salem and Eugene and it is now up to Medford members of the Chamber of Commerce to greet them with the "Medford Spirit." Walter Pritchard Eaton will deliver an address on August 8 at the members' forum of the Portland Chamber of Commerce.

Beginning with tomorrow, the forums during the month of July will be held at the Holland Hotel.

T. E. Danfela returned Monday from a short business and pleasure trip to Ashland.

**PHYSIOLOGICAL ACTION OF TANLAC EXPLAINED**

**World's Leading Authorities Show Just What Tanlac Really Is and Explain Effect of Each of Ten Ingredients on the Human System. Power of Medicine Conclusively Proven.**

A day never passes but what thousands of people ask the questions: What is Tanlac? Why its phenomenal success? Why do we hear so much about it? and Why has this preparation so far out-stripped all other medicines of its kind?

The answer to these questions is easy and can be explained in just one word—merit. Tanlac is scientifically compounded and represents years of work, study, experimentation and research by some of the foremost chemists and pharmacologists of America.

The Tanlac formula is purely ethical and complies with all national and state pure food laws. It is purely vegetable and is made from the most beneficial roots, herbs and barks known to Materia Medica. The Tanlac Laboratories are among the largest and most modernly equipped in this country.

Ten ingredients in Tanlac. Altogether, there are ten ingredients in Tanlac, each of which is of pronounced therapeutic value. In referring to one of the most important ingredients of Tanlac, the Encyclopaedia Britannica says: "It has been the source of the most valuable tonic medicines that have ever been discovered."

In referring to other of the general tonic drugs contained in Tanlac, the 12th Edition of Potter's Therapeutics, a standard medical text-book, states that "They impart general tone and strength to the entire system, including all organs and tissues."

This same well-known authority in describing the physiological action of still another of the ingredients of Tanlac, which is of value in treating what is commonly known as a "run-down condition," uses the following expression: "It is highly esteemed in loss of appetite during convalescence from acute diseases."

There are certain other elements in Tanlac which, because of their influence upon the appetite, digestion, assimilation and elimination, improve the nutrition and vital activity of all the tissues and organs of the body and produce that state of general tonicity which is called health.

The United States Dispensary makes the following comment regarding another ingredient: "It may be used in all cases of pure debility of the digestive organs or where a general tonic impression is required."

There are certain other ingredients described in the Dispensary, and in other standard medical text books, as having a beneficial action upon the organs of secretion, whose proper functioning results in a purification of the blood stream passing through them. In this manner objectionable and poisonous ingredients of the blood are removed and the entire system invigorated and vitalized.

**Tonic and Body Builder.** Tanlac was designed primarily for the correction of disorders of the stomach, liver and bowels. At the same time, however, it is a powerful reconstructive tonic and body builder, for it naturally follows that any medicine that brings about proper assimilation of the food and the thorough elimination of the waste products must, therefore, have a far-reaching and most beneficial effect upon the entire system.

Tanlac is sold in Medford by West Side Pharmacy and leading druggists.
