

### BENEFIT CONCERT FOR GEO. ANDREWS URGED BY MANY

For more than a decade Medford has been the chosen residence of the old-time favorite artist and impresario, George Andrews. Prior to taking up his residence here, his voice had been heard and his portrayal of leading operatic characters enjoyed in every nook and corner of the United States, wherever the organization, which he and his brother Ed Andrews so long managed and appeared, to the delight of the music lovers of America.

Since taking up his residence here, Mr. Andrews has occupied a prominent position in the musical life of our community. Ably assisted by his wife, together they have enriched us in brighter days such entertainment, cheer and inspiration, and in time of trouble such comfort and solace, as only song can give.

The time has now come when it is fitting and right that this community should give concrete and substantial expression of its gratitude, and we have therefore formed ourselves into a self-constituted committee to arrange and promote an appreciation concert for the benefit of Mr. Andrews. We confidently ask the support and co-operation of everyone whose life has been touched and brightened by his musical services.

French Aviator Injured. ETAMPES, France, Oct. 1.—(By the Associated Press)—Sail Leconte, he noted French aviator, holder of the world's speed record, was injured and his airplane was smashed when he made a forced landing in the first lap of the Deutsche de la fourthe cup race here today.

### BRITISH SEE HOPE FOR IRISH PEACE IN PROMPT REPLY

LONDON, Oct. 1.—(By the Associated Press)—England was today filled with hope that a settlement of the Irish problem would follow the meeting of British cabinet members and the representatives of Sinn Fein Ireland in this city on October 11. The prompt reply from Eamon De Valera, answering Prime Minister Lloyd George's invitation to the conference and the conciliatory tone of the conference would come an agreement which would solve a problem, which has proved a stumbling block for the ablest statesmen of the British nation.

Discussing the difficulties ahead, the London Times deprecated the "dominion status" as a fixed formula to which the agreement must conform. "Negotiations," the newspaper declared "have already disclosed that inasmuch as the idealism of the Sinn Fein is, above all else, racial in character, the ultimate settlement must be something new—a constitutional innovation of its own kind. Both the government and the Sinn Fein should see before them as they go a new relationship differing from all their past experiences."

### PEAR EXHIBIT STILL LURE FOR SCORES

There have been thousands of visitors at the exhibit room during the past three weeks to see the most complete exhibit of pears ever assembled at any one time at any one location in the United States and even as complete as it is, the committee of the Medford chamber of commerce, which conducted the show, state that with the experience they have had this year they can see where the same can be made even better in years to come should the Pear Show become an annual event.

Although the pears have been on display since three weeks ago today, they are just as good to look at now as in the beginning. Too many of the visitors who have frequented the show at the beginning, find that the green pears did not appeal to them to look at as in their ripe condition with their golden hue. The show will be maintained until the pears ripen and become unfit for exhibit.

### SCHOOLS TO AID IN 1922 COUNTY FAIR

The splendid co-operation with the school system and the Medford Chamber of Commerce is shown by the willingness on the part of the schools to grant a request made by the chamber for an exhibit of lumber for the proposed Forestry building at the county fair grounds for the fair next year.

This exhibit will be a part of the work of the Manual Training Department and will include samples of all timber found in Jackson county, but special attention will be paid to that timber which is found here in large commercial quantities. In addition the Medford schools will furnish other exhibits such as specimens of sewing and mechanical drawing. Some time during the school year, the art department will endeavor to work out a poster which may be adopted by the fair association in their publicity work.

No requests have been made of other schools of the county to prepare exhibits for the fair next year, but there is no question but what they will co-operate when the request to do so is made.

### SEEK CONCESSION EASTERN TICKETS

Railroad tickets sold from eastern points via Portland have during the past year had their terminus at Ashland with stop-over privileges at Medford. Eastern tickets to the coast via San Francisco and Sacramento had their terminus at Weed, California, and by the action of the Medford Chamber of Commerce they appointed George T. Collins, C. C. Lemmon and J. D. Bell as a committee to confer with the officials of the passenger department of the Southern Pacific railway with a view of having the terminus extended from Weed to Medford and in that way give a greater support by the railroad to Crater Lake National park.

### Something New About Waffles

Waffles are even better than you thought they were! They are better because they are more evenly cooked, more easily cooked, more tastily cooked; and they are now baked, not fried. All these things are true if and when waffles are table-cooked on the new

### Westinghouse

Waffle Iron, which is, of course, another electric household convenience.

You do not grease the Westinghouse Waffle Iron. It cooks quickly enough to care for a large table, and it gives you crisp or fluffy waffles, as you please. See it at any of the dealers' listed below, and ask about the many new ways of serving and using Westinghouse Waffles.

PEOPLE'S ELECTRIC STORE Medford

FOBES SUPPLY COMPANY Wholesale Distributors Portland, Ore.

### Fuses and Safety

A fuse in an electric circuit is a safety device designed to open the circuit at a certain load.

Its use is to prevent the wires in the circuit protected from carrying more than their rated capacity and to prevent fires and damage to electrical apparatus.

Fuses are placed at various points in the electrical circuits where the wires branch or change size; also at the entrance to the building to protect the wiring in the building, and on the pole outside of the building to protect the transformer and outside circuit.

When a fuse blows, there is usually a cause for it, such as an overload or damaged circuit and the cause should be found and repaired before replacing the fuse.

Better investigate and eliminate any risk that may exist. Your Contractor Dealer can protect you at a nominal cost.
