LOS ANGELES, Oct. 3.—Committee, division and section meetings, every half hour beginning early today and lasting until 8:30 tonight comprised the program of the American Bankers association assembled here in annual convention.

Reports made public today included that of the committee on savings to the savings bank division.

The treasury department, "the report read, "continues to use many of its war time arguments for selling its savings securities.

"Our opposition to both schemes is based not only upon the extravagance of any bureaucratic activity and the failure of the government to set a proper example in the practice of thrift, but upon the even more important ground that in order to perpetuate their positions, the government's employees will continue to advance projects which are paternalistic and contrary to the best interests of the public welfare."

The committee on federal exchange reporting to the same division, commended the adoption of a national budget system and announced it had favored an amendment to the federal constitution so that incomes "from whatever source derived," shall be taxable by both national and state authorities.

NO LITERATURE AT STATE FAIR AFTER FIRST PRIZE WON

The city of Medford through its chamber of commerce and Jackson county through its county court were caught asleep at the switch when the county won fame and an invaluable advertising publicity last week through capturing first prize with its exhibit at the state fair, and making a clean sweep in the individual entries.

There was not a single piece of literature calling attention to the valley's and county's resources, products and wonderful climate and advantages for distribution among the many thousands of visitors, to back up the widespread interest and attention attracted to this agricultural and fruit raising section by its prize winning exhibits.

Many of these frankly stated that they had never heard of the valley before but that after seeing its prize winning products they wanted to know more about it.

In connection with the grand showing made at the state fair by Jackson county it is interesting to note that the county court only made County Agent C. C. Cate an allowance of \$95 to make up the county exhibit, which was generally characterized at the state fair as one worth \$5000 to \$10,000 and which has done more to put the Rogue River valley and Jackson county on the map than all other things for years past.

LOS ANGELES, Oct. 3.—Deputy sheriff, defective postal inspectors and railroad agents who passed yesterday combing southern California and the Mexican border for traces of Roy Gardner, escaped mail bandit, were withdrawn today after the Los Angeles police and sheriff's office branded as a hoax a story that started the search.

Stanley Jacobs and Harry Weber, each 17 years old of Stockton, told Sheriff Traylor yesterday they rode from Bakersfield to Los Angeles Saturday night with a man who told them he was Gardner and that he was headed for the border.

When the boys picked out a photograph of Gardner from a pile of others at the sheriff's office as that of their companion, the sheriff ordered a general alarm sent out, and rushed deputies to Tia Juana, Lower California.

Early today a man came to police headquarters and said he was the one who had driven the boys from Bakersfield and had said he was Gardner for a joke.

The police said they believed his story. His name is being withheld.

PRE-WAR PRICES FARM PRODUCTS BLOW, NORMALCY

CHICAGO, Oct. 3.—Preservation of the middleman in the grain inquiry is to be one of the principal topics for consideration at the three-day convention of the National Grain Dealer's association which convened here today, according to Charles Quinn, secretary.

The twelve hundred members attending the meeting, according to Mr. Quinn, expect to draw up a course of action to frustrate plans of various interests to do away with the middleman.

The post-war breakdown of the nations commercial and industrial super-structure was due entirely to the decline in farm products to levels that destroyed the producers' purchasing power. H. E. Clement of Waco, Texas, president of the association, said in his address.
