GOOSE EGG FOR GIANTS IN OPENER

Mays' Submarine Ball Too Much—Babe Ruth Helpless, Strikes Out Twice—Frisch Gets Four Hits and Steals Base—Pitchers' Battle and Errorless Game.

POLO GROUNDS, NEW YORK, Oct. 5.—(By the Associated Press.) The Yankees tore off the opener of the world series this afternoon by kalsomining the New York Giants by a score of thre to nothing.

Mays' submarine ball tied the Giants into knots though Frank Frisch helped himself to four hits.

Babe Ruth accounted for one of the Yankees' runs with a blazing single, but could not oblige the 35,000 spectators with a home run. McNally's steal of home in the fifth inning was the base running feature of the game.

See the attached box score and learn how the Yankees applied the

Jobless Sell Places In World Series, Line Up for $5

NEW YORK, Oct. 5.—Several men from the ranks of the unemployed who found places far in front of the lines of word series ticket seekers last night sold these advantageous positions to more fortunate brethren this morning for $5.

Police orders had been issued that such conduct would not be tolerated but officers in charge of the blue-coated squads were swayed by the pleas of the jobless, many of whom, it was said, declared that upon this one chance lay their opportunity to appease the hunger of wives and babes.

RECOGNITION OF OBREGON RULE BY U. S. NEARS

Rumor Elmer Dover of Tacoma to Be Named Personal Aide of Harding in Mexico—Carries Letter to Mexican President.

MEXICO CITY, Oct. 5.—(By the Associated Press.)—Reports that Elmer Dover of Tacoma, Wash., had been named personal representative of President Harding in Mexico, which were current some time ago, were revived here today by the newspaper Excelsior. The information "obtained with the greatest difficulty" from high Mexican sources, according to the newspaper, indicated that "overtures from the state department in Washington, expected to pave the way for speedy recognition of the Obregon government by the United States, were being brought to Mexico City by Mr. Dover, who was expected to arrive here this afternoon.

Mr. Dover was said to have been given an autographed letter to President Obregon by Mr. Harding, this being the fourth in an important series of personal communications between the two executives.

The Excelsior, in its report gave the impression that by instruction from President Harding, all negotiations concerning American recognition had been committed to Mr. Dover's hands. The newspaper's statements which bore the official stamp, or which appeared to be at least semi-officially inspired, were not in accordance with general belief here that George T. Summerlin, United States charge d'affaires had been designated sole spokesman and representative of the United States government in the negotiations preliminary to recognition. Mr. Summerlin said last night he had received no instructions from the state department relative to Mr. Dover's visit to Mexico.

MAHONEY'S SISTER HELD FOR FRAUD

SEATTLE, Oct. 5.—Mrs. Dolores Johnson, sister of James E. Mahoney, who was found guilty last Saturday of first degree murder for the slaying of his wife, Kate M. Mahoney, was charged in an information filed in superior court here today with first degree forgery in connection with an alleged fraudulent power of attorney purporting to have been signed by Kate Mahoney.

PLAN FORMATION OF NEW POLITICAL PARTY COMPOSED OF LABOR, FARMERS

INDIANAUOLIS, Oct. 5.—A declaration favoring the formation of a new political party, composed of organized labor and organized farmers, was ready for submission today to the convention of the United Mine Workers of America. The declaration, in the form of a resolution prepared by the convention resolutions committee was understood to propose an early conference, under the auspices of the American Federation of Labor, of all labor and farmer organizations with a view of getting a definite political movement under way.

While announcement of the committee's decision was withheld, it was said that the resolution did not indorse the existing farmer-labor party, but that it referred to the non-partisan league movement in North Dakota as an ideal coalition of farmers and laborers.

Rival Managers and Brothers of Two New York Teams Who Oppose Each Other

John J. McGraw.

Miller Huggins.

It is brother against brother in the world series between the Yankees and the Giants. For Bob Meusel is star rightfielder of the Yankees and Brother Emil, better known as "Irish," covers left field and swats 'em out for the Giants. This photo shows the Meusel brothers talking things over at the Polo Grounds. Bob is in uniform, while brother Emil wears his street clothes.

FIRE PROTECTION AND TAX BUDGET BEFORE COUNCIL

At a lengthy session of the city council last night among the business transacted was the appointment of a budget commission of citizens to act with the council in drawing up the city expense budget and fixing the tax levy for next year, an informal discussion of the Barnum hotel fire and lessons to be drawn therefrom, including the organization of an auxiliary fire department and the decisiary fire department, and the decisproperties taken over by the city because of unpaid delinquent assessments.

The six citizens appointed to act with the council on the tax budget matter as required by the new state law, are A. L. Hill, O. C. Boggs, F. E. Merrick, A. C. Hubbard, Vernon Vawter and John A. Westerlund. They, with the councilmen will draw up the proposed expense budget of the city, which must be published in a local newspaper 20 days before a public hearing on the same. After this hearing the council makes the levy. Under the old method no public hearing was given on the budget.

Hargrave Addresses Council.

Dr. H. P. Hargrave of Oakland, Calif., former efficient councilman for six years, who is visiting in the city, was a visitor at the meeting, watching his former colleagues perform, and made a brief address. He told the councilmen that while now a non-resident he still had a heart interest in Medford affairs, as he still owned property in the city, and advocated the council to discontinue selling the taken over delinquent tax properties at private sale, and to sell them in batches at a public sale from time to time. This method, he argued, was the fairest one and would sell the properties much faster.

The visitor also urged that the council fill the councilmanic vacancy in the second ward, as the council needed its full membership of six men to transact the affairs of the city advantageously. For many months Dr. Keene has been the only councilman from this ward since A. L. Hill resigned because of moving to the east side.

Barnum Fire Lessons.

It developed at the informal discussion of the Barnum hotel fire of yesterday, that about fifty citizens worked valiently on the fire as volunteer firemen, helping out the regular department, but that among them were too many bosses. All orders at a fire should be given by Fire Chief Lawton, the councilman thought, and his orders should be rigidly obeyed.

To avoid confusion, at large fires especially, the councilmen favored the city organizing a volunteer auxiliary department, whose members should attend occasional fire drills and acquire skill in fire fighting. Nothing definitie was done about the matter last night, but it will probably be acted on in the near future. The mayor and councilmen are deeply appreciative, however, of the valuable work performed by the volunteers at the Barnum hotel fire and other fires of the past.

That fire also showed the councilmen the necessity of having one or more water standpipes at the side of every large structure over two floors high, with valves at each floor. This would obviate the necessity of the firemen having to carry the heavy hose up ladders to the higher floors and the top of the burning building, thus losing much valuable time. Hereafter the city will not permit the erection of any structure over two floors high especially in the business district unless the owner erects such standpipes.

It was voted by the council to purchase 500 feet of new hose for the fire department.

SCORES TRAPPED TUNNEL WRECK, PARIS SUBWAY

Injured Imperiled When Debris Catches Fire—Firemen Are Helpless, Cut Holes in Roof—Little Hope for Rescue—Trains Collide Head On.

PARIS, Oct. 5.—(By Associated Press.) Many persons are believed to be dead and burning in the wreckage of a rear end collision of two suburban trains in the half mile tunnel leading to the St. Lazare railroad station from which five bodies already had been recovered at nine o'clock this evening. Twenty seriously injured persons and 53 slightly injured also had been recovered.

PARIS, Oct. 5.—(By Associated Press.) Two suburban passenger trains collided in a tunnel leading into the St. Lazare station this evening killing a number of passengers and injuring many others. The wreckage immediately caught fire and it was feared the number of fatalities might be large.

BRUMFIELD GOES TO TRIAL SHAVED, SELECTING JURY

ROSEBURG, Ore., Oct. 5.—Trial of Dr. R. M. Brumfield, on a charge of killing Dennis Russell, a laborer, July 13, started here today after Judge G. G. Bingham had overruled a motion of the defense for postponement until October 24. Selection of a jury was begun.

Dr. Brumfield came into court neatly attired, having been shaved this morning for the first time in two weeks.

One venireman, Harry Larkins, a Green Valley rancher, had been tentatively selected and two others examined and rejected at noon recess. A second tentative juror, H. M. Payne, was chosen early this afternoon. Judge Bingham took a hand in the questioning of prospective jurymen, particularly along the line of fixed opinion.

CARELESS ACT COSTS BAER $10 FEDERAL COURT

Martha Sconchin Fined $25 for Stealing Clothes On Klamath Reservation—Was Spite Work—Red Heifer Calf Case Up.

When the United States court term for southern Oregon convened this forenoon for today's session Jake Baer, a miner from near Kerby when arraigned on the charge of having started a fire in the Siskiyou forest, pleaded guilty.

United States District Attorney Humphreys then explained to the court that Baer started a small fire to burn out a rattlesnake, and neglected to put it out, whereupon the flames spread over two acres of ground before they were extinguished. Baer's act was one of thoughtlessness and the damage done was small. Judge Wolverton imposed a fine of $10.

Martha Schonchin, a Klamath Indian woman when arraigned on a larceny charge pleaded guilty, and was fined $25. Some time ago she purloined some articles of clothing for spite work from a Klamath Indian reservation home where she had been staying. This property was later recovered.

Following the disposal of these two cases the trial of Levi Barney and David Willie, Klamath Indians, charged with the larceny of a calf on the reservation, which was begun Tuesday afternoon, was resumed. Attorney H. M. Manning of Klamath Falls, who is acting as attorney for the defense in a number of the Indian cases before the court, represents the accused men.

It appears that Barney and David were tried on two counts in United States court a year ago and were found guilty on the first count. The second count charged them with the larceny of a red heifer calf from Herbert Nelson, another Klamath Indian, and the testimony showed that instead of the alleged calf being a heifer, as charged in the indictment, it was a gentleman calf. The judge instructed the jury to return a verdict of not guilty.

Both men were reindicted for the crime of swiping this calf, the gender of which was named right this time in the indictment, and they are now being tried on this charge. The case will reach the jury this afternoon.

Howard P. Swetland, one of the new deputy United States marshals arrived here today from Portland to assist Chief Deputy Mann and Deputy Stretcher during the remainder of the Medford session of the court, which it now appears will last until the middle of next week.

BARNUM HOTEL TO BE REBUILT, TAKE 3 MONTHS

Fire which had been smouldering on the second floor ever since the fire department quit work on the Barnum hotel building at 1:30 p. m. yesterday, broke out again at 7:30 last night in the rear between the first floor ceiling and second story floor near where the waste paper or linen chute passed through, and the firemen worked for an hour and a half, chopping holes in the floor to allow the smoldering sparks to flame up, before again leaving the scene. Two watchmen patrolled the building all night watching for further signs of smoldering fire.

It was learned today the loss on the building and contents was, as related in the Mail Tribune account of the fire, about $50,000, and Mr. Barnum's insurance only covers about 70 per cent of this sum. It will be about 15 days yet before the insurance is adjusted, after which Mr. Barnum stated today that he would at once begin the work of repairing the fire damage. It will probably be three months before the structure is in shape for occupancy again.

In the meantime the many burned out tenants of the building are busy hustling up new places in which to reside, and in trying to trace some of their personal effects which were carried or thrown out of the building during the fire excitement. The scarcity of furnished houses and apartments in the city makes the problem of a number of the temporary homeless tenants a difficult one.

W. S. Barnum, owner of the building, today said that no one knows how the fire started, and scoffed at the story his son, George Barnum, who left the city today on a hunting trip, told Fire Chief Lawton last night as to the origin of the fire. This story was to the effect that there was a leak in the gas pipe of the wash room in the base ment which had existed long enough to fill the room and basement with gas, and a woman tenant entered the wash room yesterday ignorant of this fact, and struck a match. An explosion followed which blew the windows of the wash room out, and shot the flames up through the paper chute to the fourth floor and attic. This account does not state what happened to the woman match striker. So far as could be learned today no woman tenant was injured or burned, except Mrs. Pearl Brown, who had her eyebrows singed.

WALK RUTH TO WIN IS GIANTS PLAN

Keep 'Babe' From Hitting in Pinches Is Strategy Orders—Look Out for Muesel, Is Warning — Polo Grounds Swept By Cold Winds—Speculators Busy.

POLO GROUNDS, New York, Oct. 5.—(By Associated Press.) New York gloried today in an exclusive baseball family feud—a world series between the Giants and Yankees fought out in its own backyard. Easily 38,000 folk came out here to the old Polo grounds to see the New York Giants, pennant winners of the National league and the New York Yankees, champions of the American league, in the quarrel for the baseball championship of the universe.

Noontime found the upper reserved stand only a quarter filled and all comers were easily accommodated while there was still yawning gaps in open stands behind the outfield. The downtown speculators were reported selling reserved seats at prices that would have shocked a profiteering landlord.

Some there were who stood all night in a shivering line to get the best seats in the open stands.

A smart shower fell early today with a rapid clearing, followed by a cold wind. The early comers shivered and shook and padded their coats with newspapers to keep out the searching breeze.

The playing field glowed brightly in the sun and the damp spots on the outfield were soon baked out. A fast playing field was thus assured.

"I hear the Giants' pitchers intend to walk me in all the pinches," said Babe Ruth as he popped his head out of the doorway to peek at the early birds that perched in the outfield seats. "That's one way to stop me hitting, but they better do some figuring on Meusel. That kid can soak 'em, too."

The Giants' defense, they agreed in a clubhouse talk today, centered around Babe Ruth's bat.

"If the Giants can stop Babe from hitting," said Johnny Evers, "former manager of the Chicago Cubs, who has been looking the situation over to aid the Giants, "the series should be won by the National leaguers. Ruth won't hit in the pinches. The Giants will let him walk."

The opening day had all the frills and burbelows that has gone in these events of yesteryear. The usual brass band near the Giants' bench piped its merriest melodies, sometimes blowing sour notes while dodging foul balls during batting practice. Moving picture operators darted here and there filming every bit of interesting movement.

NEW YORK, Oct. 5.—New York was awake early today to enjoy the initial game of its own world's series. Hours before the two teams, the Giants and the Yankees, went to battle at the Polo grounds, crowds of fans from the four corners of the earth, were hurrying toward the park, hoping to gain admittance to the Mecca of the baseball world.

Some, in fact, didn't sleep at all. At midnight several of them gathered at the entrances, the first in line and the first in the park—if they didn't fall asleep and wake to find some more alert fan in their place. By one o'clock about fifty of them were in line.

Heading the line was Charles M.

POSSE MEMBER SHOT FOR BANDIT ROBBERS DESERT AUTO FOR HORSES

LOYALTON, Cal., Oct. 5.—One man, a posse member, has been killed and another wounded in the pursuit of the two men who yesterday held up the Sierra Valley bank here and escaped with $15,000 in an automobile.

The man killed, Charles Beak, a resident of Loyalton, was shot yesterday. According to District Attorney Neville, Beak was mistaken for one of the bandits and shot by two fellow members of the posse.

The name of the wounded man, and how he was wounded, were not known early today.

District Attorney Neville declared that the identity of one of the bandits was known. His name was said to be Mahoney and he had been in the vicinity for some time.

Sheriff Johnson and Constable McCullough early today headed posses following the tracks of two horses believed to be ridden by the bandits. The robbers, a short distance east of Loyalton, abandoned their stolen automobile and mounted the horses believed to have been in readiness for them.

Sheriff Johnson was quoted as holding the theory that the fleeing men were headed toward Cisco or Summit, on the Southern Pacific railroad.
