## CALCIMINE APPLIED BY WAITE HOYT

**School Boy Marvel Shuts Out Giants in Second Game of World's Series—Quick Work On Bases Again Feature of Yank's Play—Nehf's Error Costly.**

POLO GROUNDS, NEW YORK, Oct. 6.—The youngster Waite Hoyt came over from his home in Brooklyn today and besmeared the Giants with goose eggs while the Yankees walked off the field with the second game of the world series by a score of three to nothing.

The base running of the Yankees was again a feature, Bob Meusel stealing home in the eighth before the astonished gaze of John McGraw, manager of the Giants, while Babe Ruth, who had been passed in three of his four appearances at the plate, showed he could do something besides hit home runs by stealing second and third bases in the fifth inning.

Nehf pitched a good game but his own error in the fourth inning and an error by Frisch in the eighth inning was the hole in the Giant defense, through which the American league champions pushed over the winning runs.

The cold figures shows the plight of the hapless Giants in the second game:

**Governor Throws Ball.**

Before the game Governor Miller of New York was escorted across the field, led by the band. He took his seat near the Yankees' bench.

Captain Peckinpaugh of the Yankees was presented with a chest of silver before the game.

The crowd was much larger than yesterday and probably numbered something over 35,000 folks.

The band played the "Star Spangled Banner" and the Yankees took the field. Some little time was lost in clearing the playing field of the photographers and bandsmen. Then Governor Miller threw out the ball.

**Christy Gets Details.**

NEW YORK, Oct. 6.—A special wireless set from the Polo grounds is carrying details of the big series to Christy Mathewson at his Saranac Lake home. Unable to attend the contests, the former Giant pitching star, who once twirled his team to three shutout games in one world series, listened attentively as Carl Mays of the Yankees turned back the Giants scoreless inning after inning yesterday. The wireless was installed by the Giant management.

NEW YORK, Oct. 6.—Jim Mutrie, who aided in founding the New York Giants many years ago, has been placed on the club salary list at $25 a week for the rest of his life, according to Charles A. Stoneham, president of the club. The club with a present value estimated at $1,500,000

## *Meusel Brothers Stage Contest for A Turkey Dinner*

NEW YORK, Oct. 6—The whole Meusel family is sure to have a good Thanksgiving dinner, but the question of who will foot the bill remains an issue between the two brothers, Emil and Bob—to be settled by their batting in the world's series.

Emil, the elder of the two, left fielder for the Giants, and a National league batting star, let it be known today that he had proposed to his brother Bob, hard hitting Yankee right fielder, a little series of their own, the one who makes the least hits in the series to supply the dinner for the whole Meusel family next month. The younger Meusel willingly accepted.

Today the brothers enter the second game of the series on even terms, officially, each with a batting average of .000.

## REPEAL SOFT DRINK TAXES AGREED UPON

**Senate Republicans Decide On Radical Revision of Tax Bill —Nearly All Nuisance Taxes to Go—Increase Surtax On Big Incomes.**

WASHINGTON, Oct. 6.—Radical revision of the tax bill by agreement among senate republicans was in prospect today as a result of conferences yesterday between various factions with a view to amendment of the bill as reported by the senate finance committee so as to provide for the following:

Repeal next January 1 of all transportation taxes, except possibly on Pullman accommodations.

Increase of income surtax rates on incomes over $66,000 from the committee maximum rate of 32 per cent, a maximum of around 50 per cent.

Repeal of all or a majority of the luxury and so-called "nuisance" taxes including those on soft drinks.

Increase of the corporation tax rate of 15 per cent, as recommended by the committee.

Continuation of the capital stock tax.

These principal points of the compromise under negotiations with finance committee members were said to represent the concensus of opinion of the group of fourteen republican senators who conferred last night in the home of Senator Capper, republican, Kansas, with Senator Lodge, of Massachusetts, republican floor leader. Most of those at the conference were Senators from western agricultural states.

**Lenroot Attacks Smoot Bill.**

WASHINGTON, Oct. 6—The Smoot manufacturers sales tax plan drew fire today from Senator Lenroot, republican, Wisconsin, who told the senate it utterly ignored the rules that taxes should be imposed according to ability to pay, and that it would be impossible of administration because of the difficulty of determining who should pay the tax. Where the three per cent tax proposed could not be passed on to the consumer, Senator Lenroot said it would add to the already heavy burdens of manufacturers now operating without profit to give employment to labor.

"It is to be observed," he said, "that the tax is to be imposed upon 'every commodity manufactured or produced when sold, leased or licensed for consumption or use without further process of manufacture.' Is the government going to follow the dress goods from the textile mill in New England through the broker and wholesaler, down to the housewife in the home to determine the price paid by the New England mill?

"Our tax laws are bad enough now. Do not let us make them worse by attempting to levy taxes, the amount of which is impossible of determination."

**Lehigh Files Plan**

NEW YORK, Oct. 6.—The Lehigh Valley Railroad company today filed in federal court its plan for segregation of its coal properties, to which it is understood the government will enter an objection.

## FIRST BAPTIST TO BUILD NEW CHURCH EDIFICE

**Advisory Board Decides Without Dissenting Vote to Construct New Building Next Year—Present Structure to Be Torn Down — Church Prospers**

The First Baptist church voted last evening at its annual business meeting to erect a new church edifice. The church had the matter in mind when it extended a call to Rev. Frederick R. Leach as pastor a year ago, as Mr. Leach came with a record for leading churches successfully in building enterprises. One of the goals adopted by the church one year ago at the suggestion of Rev. Leach was the erection of a new church within three years. The vote at that time was unanimous.

The advisory board of the church last evening recommended that a campaign for pledges be inaugurated at once with a view of building next year, and that finance and building committees be appointed to get plans for the building and pledges. After an enthusiastic discussion favorable to the building enterprise the church members present voted without a dissenting voice to accept the recommendations. The pastor was authorized to appoint the committees which will be done and announced next Sunday at the morning service.

A substantial gift has been received from the Oregon Baptist state convention to apply on the building as a starter. The splendid spirit existing in the church augurs well for the success of the enterprise.

Rev. Leach will call the building committee together shortly when plans will be discussed. The talk is that a building modern in every way, adapted to the growing work of the church and community will be erected. Departmental Sunday school rooms with equipment for the social activities of the young will be featured. Rev. Leach does not believe in leading a church to overbuild and leave the church with a great debt, and with a building calling for excessive overhead expenses, which will become a burden to the church in the years to come. The present structure will be torn down and the new building erected on the same lot, as it is generally conceded to be as good and central a location as can be had in the city.

**A Successful Year**

The annual reports showed that the year closed was one of the best in the history of the church. The church raised last year $7558, over $2600 of which was given to missionary objects. This was the largest amount ever given in any one year. One hundred and eight new members were added last year, exceeded by only one year in the history of the church. Two hundred and fifty are enrolled in the Sunday school with 225 as the largest attendance at any one session and an average of 162 for the year. The church has supported a strong musical department putting some $1000 in the same under the leadership of Mr. A. Andrew Walker, who is placing the music on a standard that has attracted great interest in the city. The treasurer, Dr. F. G. Carlow, reported all bills paid and a balance in the treasury to the encouragement of the entire church.

Plans were outlined for the new church year by the Rev. Leach, which calls for advanced work and a larger program. Ice cream and cake was served at a social hour which followed the meeting.

Officers and standing committees were elected as follows:

Clerk, F. W. Mears; treasurer, Dr. F. G. Carlow; treasurer of benevolences, Dr. Eva Carlow; S. S. supt., F. W. Mears; trustees, H. E. Marsh, Dr. Robt. Stearns, B. F. Neff, C. D. ## NEW ENGINEER FOR IRRIGATION TO BE NAMED

Recommendation of a man to be appointed chief engineer of the Medford engineer of the Medford irrigation district is expected at the district headquarters within a day or two from Percy Cupper, the state engineer, following his visit here early in the week with Mr. D. C. Henny, consulting engineer of the district, during which they inspected the work with the directors and looked into the district affairs generally.

When Mr. Cupper left here Tuesday night he said he would mail his recommendation shortly to J. A. Perry, president of the board of directors.

Due to the continuation of the fine weather the building of the irrigation system is progressing fast. The contractor is two days ahead of his schedule time on the work on the Fish lake dam, and pouring of concrete for the dam's outlet began this morning, whereas previously it had been expected that this work could not begin before Saturday.

If this weather keeps on for two weeks longer, according to President Perry, the dam structure will be so far along that rains would not cause any injury, or further delay.

**Roseburg Murder Case Is Adjourned to Allow Sheriff Time to Gather in More Prospective Jurors—Judge Holds Newspaper Reading Doesn't Disqualify Jurors.**

ROSEBURG, Ore., Oct. 6.—With seven tentative jurors in the box, attorneys resumed examinations of talesmen at nine o'clock today to obtain a jury to try Dr. R. M. Brumfield on the charge of murdering Dennis Russell here July 13.

Four men remained on the first panel of twenty-four, and a new panel was called for attendance at today's hearing. Six of the veniremen seated yesterday were ranchers and the seventh was a road worker. Attendance of spectators has not been large, Roseburg people not being generally attracted by the preliminaries of jury picking.

Two additional tentative jurors, both ranchers, were obtained this morning from the talesmen remaining on the first venire list. Court adjourned until tomorrow morning to give the sheriff time to obtain attendance of those summoned on the panel of fifty.

There was small attendance of spectators in court today. Dr. Brumfield appeared cool and indifferent.

Judge Bingham insisted that reading of newspaper accounts should not disqualify veniremen.

"A person has the right to believe that what he reads in a newspaper is true," he said. "All intelligent people read the newspapers and they may form an opinion from them, but if that opinion can be disregarded and if they are bound by oath to decide the case entirely on the evidence, such opinion cannot disqualify them."
