

PORTLAND MAN IS NOW IN BEST OF CONDITION

"The only regret I have about Tanlac is that I did not get it sooner, for it certainly put me in fine shape in a very short time," said John R. Lundquist, 538 East Twenty-third Street, North, Portland, Ore. "My trouble started with the influenza, and ever since I had it, until Tanlac straightened me out, I was in a run-down and miserable condition. I ate hardly enough to keep a bird alive, and even the small amount I did eat used to cause me hours of suffering afterwards. Tanlac did for me what all the other medicines failed to do and I am strong for it. It toned up my system, gave me new life and energy, and although I eat anything I want now I never have a sign of indigestion. Tanlac is certainly in a class by itself." Tanlac and Tanlac Vegetable Pills are sold by the West Side Pharmacy, and by leading druggists everywhere. Adv.

ASHLAND WILL ORGANIZE OWN CHICKEN CLUB

ASHLAND, Oct. 12.—Poultrymen have decided to organize a distinctive association for this locality instead of merging with the Southern Oregon body. Over a score of chicken raisers on a big scale met recently in city hall, where Smith, a leading chicken fancier, presided. Carl Gottsche, A. McMillan and H. O. Anderson were delegated to formulate a constitution and by-laws, also to outline the scope of the Ashland Poultry association. The plan of pooling egg products of Ashland, Bellevue and Talent has worked satisfactorily heretofore through local fruit association channels, and a committee of three, including Henry Carter, Everett Smith and Herman Anderson were appointed to interview the association with the view of entering into a pact with the egg producers whereby that corporation will continue to act the part of clearing house in marketing the "crop." Another meeting will be held at city hall on October 22 to adopt by-laws and perfect arrangements.

J. A. Angwin has returned to Oakland, Calif., after an extended visit here with relatives. He is a splendid type of citizen, and has been a resident of Oakland for over a quarter of a century, upholding the highest ideals regarding typical municipal development and good citizenship, advantages which he noted existed here in abundant measure. He was particularly impressed with the cordiality of Ashland people in general, and was not slow in reciprocating this friendly spirit. Many casual acquaintances will be pleased to learn that he plans to revisit our town. In physical appearance and general characteristics of Mr. Angwin somewhat resembles the late W. H. Leeds.

Hope Rebekah Lodge was the recipient of an official visit from Mrs. Nettie Whitstone, state president of the order, on Tuesday evening of this week, a delightful social gathering following the official formalities, in which a large number of the order participated. This club was formally organized last week, and a constitution will be adopted later.

The Ashland Masonic lodge has paid its quota in full on the new Masonic home at Forest Grove, now nearing completion and expected to be in readiness for occupants by the first of the year. The local quota was \$2834 paid up October 1. In addition there will be a specific sum payable yearly for upkeep. The Eastern Star quota of \$600 was fully paid quite a while since, and Alpha chapter contemplates further assistance from time to time.

R. MATTHEWS, A MODEL PRISONER, GAINS WEIGHT

Raleigh Matthews, the Eagle Point youth, held in the county jail awaiting action of the grand jury on a charge of manslaughter, resulting from the fatal shooting of Wilbur (Wig) Jacks in the street at Eagle Point, September 9th, is gaining weight and has scores of visitors who bring him good things to eat.

"I've gained 10 or 12 pounds in here," said Matthews Tuesday. "I was working night and day, but now I get all the sleep and rest I want in here, and am getting rested up fine. I'd like to be out though enjoying the fine weather."

Since his incarceration, Matthews has almost daily visits from friends and relatives, who bring him home cooked dainties. These he shares with his prison mates. If Matthews has any forebodings about the future, or the outcome of his present trouble it does not show in his smile and manner. Matthews takes part in the county jail activities and the "kangaroo court," and is a model prisoner. He occupies a cell by himself on the upper tier.

It Is Here Today See It---Ride in It

Think of a light, economical, moderate priced car that does these things.

That is so fleet and smooth in its response to your will that you are never conscious that it is a piece of machinery.

That is so easily operated* you can guide it for

hours through crowded city traffic or send it across country for a whole day's run without the usual fatigue to driver or passenger.

That is so reliable that attention with an oil can virtually constitutes its sole service requirement.

Such was the aim and such is the achievement—

The New and Improved ESSEX

Get a New and Joyous Thrill in Motoring

Old Essex drivers sense the difference as soon as they take the wheel.

Its speed and acceleration and endurance are known to them. Others may not be so familiar with these Essex qualities. Their surprise and delight will be the greater.

But old owners, who know the Essex will be charmed at the smoother way the New Improved Essex does the things that gives them pride in their cars.

More Economy Than Ever

From the first Essex appealed to me because it does what costlier and larger cars do and at small car cost in fuel, oil and tires.

The New Improved Essex adds gasoline mileage. Oil economy is greater, although old Essex cars averaged around 300 miles to the quart. Its tires often gave 10,000 to 15,000 miles of service. Now cord tires are standard equipment and greatly increase tire mileage.

Old Essex owners hardly understand how reliability could be increased. Many—hundreds in fact—report upwards of 30,000 and 40,000 miles of service, with incredibly small re-

pair bills as judged by the usual requirements of motor car operation.

But the new improved Essex lengthens the period of that service. Simple and inexpensive ways to replace parts as they wear are provided. Thus the tight, squeak-free and rattle-free qualities and lively performance of the Essex when new, may be retained throughout the life of the car. And how long an Essex may be relied upon to serve, needs more years for proof than opportunity has yet provided.

A Better Car for Less Money

All the advantages of the original Essex are retained. The pride of ownership is greater. You can turn it in narrow streets. It finds room in small parking spaces. It is small and light and yet commodious, safe and comfortable.

The New Improved Essex expresses the new day meaning of refinement—of reduced weight—freedom from unnecessary bulk, and the finest mark of motoring luxury.

When Essex is considered, size and price do not mark the standard of car quality or value.

We want you to know that—a ride will prove it.

The Price Is Now \$1375

Touring, \$1375 Sedan, \$2230 Roadster, \$1375 Cabriolet, \$1880.
