On cases outside of Medford:	
Visits to Jacksonville	4
Visits to Ashland	2
Visits to Talent	1
MRS. ROSE G. SCHIFFELIN, Home Service Secretary, MRS. S. B. MEARS, Gen. Secretary.	

TEXAS OIL TOWN IS NEARLY DESTROYED

FORT WORTH, Texas, Oct. 13.—Fire which almost destroyed the oil town of Ellensville, in Young county, this morning, was virtually extinguished at 11 a. m., according to a telephone message from South Bend. Only four or five buildings remain in the business section of the town the report said.

REPORT M'ADOO URGING FIGHT AGAINST TREATY

WASHINGTON, Oct. 13.—Unconfirmed reports were in circulation in senate quarters today that appeals had come to democratic senators from party leaders out of public life to stand by the treaty of Versailles and vote against ratification of the new administration peace treaty with Germany.

Republican leaders said they had the reports but democratic senators denied there was any new development in the situation. The report credited William G. McAdoo, former secretary of the treasury and Bernard M. Baruch, with having consulted democratic senators in the interests of the Versailles treaty. Republican leaders said they were not disturbed over the situation and claimed fourteen democratic votes for ratification.

The new treaty was characterized as "useless as well as vicious" by Senator Walsh, democrat, Montana, in addressing the senate yesterday.

"Every controversy between the two countries pending will remain rife and a number of others will spring into being," Senator Walsh declared, adding that he had wished to support the new treaty if possible to end the technical state of war.

The treaty, the Montana senator continued, does not comport with the honor of this country, is contrary to its sentiments and perilous to the peace of the world. Senator Walsh said the treaty would leave undetermined the "major matter of dispute between the two countries, namely the disposition of the enemy property seized by our government during the war."

BUCKHOUNDS FROLIC BEGINS MONDAY

A country store from which the proceeds will go to swell the Elks' Christmas tree fund will be one of the features at the Buckhounds Frolic, Monday, Oct. 17 to 22.

Twenty-five cars of properties and 200 people which go to make up the Levitt-Brown-Huggins shows are due in Medford Monday, says H. C. Woodrow, agent for the company who has been in town several days arranging details with the committee which is in charge of Jerry Jerome, ex-ruler.

A featured member in the show is "Punkins" who is a dog extraordinary. For "Punkins" sports a regular discharge from the army, membership in the American Legion, and the undying affection of his owner with whom he served through the Argonne. Wild animals, a Ferris wheel, a new carousel, and that go to make up a first-class carnival—and it is that, say members of the Elks Buckhounds committee.

UNEMPLOYMENT CURES PRESENTED TO THE PRESIDENT

WASHINGTON, Oct. 13.—Resolutions adopted by the national conference on unemployment suggesting steps for the economic betterment of the country have been transmitted to President Harding by Secretary Hoover, chairman of the conference.

The conference's conclusions, after a survey of the nation's business and employment problems were expected to form a guide for the administration's future policy. As several of the conference's resolutions suggest congressional action, it was thought these might be called to the attention of congress by the president.

Recommendation that Secretary Hoover select a representative committee from the various elements interested in construction to coordinate community action for improvement in the building industry was made in the report of the committee on construction industries.

The report declared the construction problem was one for local action by governors and mayors in co-operation with such a committee.

Discussing the financing of construction the report held that long term bank deposits and the savings accounts should be used primarily for long term loan purposes and should not be intermingled with speculative and commercial business.

The report added that excessive financing charges for building have not been exceptional.

While the committee found that there had been substantial reductions in the cost of many construction materials, lower prices for some materials had not been brought about in keeping with the trend of wholesale prices and in many instances retailers had not followed the reduction of manufacturers and wholesalers. This, the report asserted, is a subject to be taken up locally in each community.

On the subject of wages the committee said: "The cost of living, rentals and working conditions differ in various communities. Where fair wage reductions have not been made construction is held up. Such conditions should be dealt with fairly and frankly between employer and worker and reasonable re-adjustments promptly made."

The report added that the employer should not, however, permit the wage of his workmen to go below a point sufficient to provide the necessities of life and to permit of the proper education of children.

FIRE LOSS IN U. S. PAY NATIONAL DEBT

The fire loss in the United States for one year placed in pennies would reach 11 times around the earth and then across the United States.

The fire loss in the United States would pay the national debt, prior to the World War, in four years.

The French people have said of us Americans, "They are mighty builders and mighty burners," and so we are, not intentionally or criminally, but negligently and carelessly.

Fires in the United States cost approximately \$500 a minute.

The average fire loss in the United States during the last 10 years increased 68.59 per cent. The increase in population was 20.67 per cent. Draw your own conclusions.

Carelessness costs this nation a \$450,000,000 fire waste every year.

The fire loss in the United States would pay the cost of the Panama Canal in two years.

Seventy per cent of the lives lost in fire are of women and children—"Fires, Their Causes and Prevention," a bulletin of the Michigan Department of Public Instruction.

GIVE UNEMPLOYMENT REMEDIES TO SCHOOLS

WASHINGTON, Oct. 13.—Proposed remedies for the unemployment situation are to be given publicity through the nation's schools, the National Education association announced today, the campaign having been decided upon in compliance with a request from Secretary Hoover. The plan will follow largely that adopted in the food campaign of 1918, it was said.

BIG SPECIAL SALE OF ALUMINUM WARE

The "One Day Triangular Sale" of aluminum ware begins at 9 a. m. tomorrow at the Medford Furniture & Hardware Company. This is a sale of guaranteed aluminum household articles at great bargains, pictures and prices of which were given in this paper Tuesday and Wednesday.

There will be a big crowd at the sale and if you want to secure any of the articles better be there early.

New J. A. Tostoffice. WASHINGTON, Oct. 12.—Enlargement of the Los Angeles postoffice is proposed in a bill introduced by Representative Osborne, republican, of California which carries \$3,000,000 for remodeling expenses and purchase of land for the proposed addition.

WOMEN OF MIDDLE LIFE

A Dangerous Period Through Which Every Woman Must Pass

Practical Suggestions Given by the Women Whose Letters Follow

Afton, Tenn.—"I want other suffering women to know what Lydia E. Pinkham's Vegetable Compound has done for me. During the Change of Life I was in bed for eight months and had two good doctors treating me but they did me no good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, which I did, and in a short time I felt better. I had all kinds of bad spells, but they all left me. Now when I feel weak and nervous I take the Vegetable Compound and it always does me good. I wish all women would try it during the Change of Life for I know it will do them good. If you think it will induce some one to try the Vegetable Compound you may publish this letter."—Mrs. A. KELLER, Afton, Tenn.

Mrs. Mary Lister of Adrian, Mich., adds her testimony to the value of Lydia E. Pinkham's Vegetable Compound to carry women safely through the Change of Life. She says: "It is with pleasure that I write to you thanking you for what your wonderful medicine has done for me. I was passing through the Change of Life and had a displacement and weakness so that I could not stand on my feet and other annoying symptoms. A friend told me about Lydia E. Pinkham's Vegetable Compound and the first bottle helped me, so I got more. It cured me and I am now doing my housework. Your medicine is certainly a woman's friend and you may use this testimonial as you choose."—Mrs. MARY LISTER, 698 Frank Street, Adrian, Mich.

It is said that middle age is the most trying period in a woman's life, and owing to modern methods of living not one woman in a thousand passes through this perfectly natural change without experiencing very annoying symptoms. Those smothering spells, the dreadful hot flashes that send the blood rushing to the head until it seems as though it would burst, and the faint feeling that follows, as if the heart were going to stop, those sinking or dizzy spells, are all symptoms of a nervous condition, and indicate the need for a special medicine. Lydia E. Pinkham's Vegetable Compound is a root and herb medicine especially adapted to act upon the feminine system. It acts in such a manner as to build up the weakened nervous system and enables a woman to pass this trying period with the least possible annoying symptoms.

Women everywhere should remember that most of the common ailments of woman are not the surgical ones—they are not caused by serious displacements or growths, although the symptoms may be the same, and that is why so many apparently serious ailments readily yield to Lydia E. Pinkham's Vegetable Compound, as it acts as a natural restorative and often prevents serious troubles.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

Do Your Duty to them

Are you careless or thoughtless about the future of those near and dear to you? Some men are.

While you are taking care of them now, remember their future must be provided for and YOU MUST do it.

Come in and open a Bank account and deposit some money **REGULARLY**. That money may save those dear ones from poverty and misery.

We will welcome you

THE UNIVERSAL CAR

THE FORD SEDAN

Is the most popular light car on the market today. Its low first-cost, economy of operation and long life service makes it the cheapest of all.

It is entirely enclosed in winter and open and cool in sunny weather. Its ease of operation makes it a practical car for family use—one which every member can handle. Its durability insures minimum cost of upkeep. In fact there is no reason at all why you and your family should not ride in a Ford Sedan.
