Skin Diseases Due To Waste Products In The Blood

For genuine relief your blood must be purified.

For real, downright, harassing discomfort, very few disorders can approach so-called skin diseases, such as eczema, tetter, boils, eruptions, scaly irritations and similar skin troubles, notwithstanding the lavish use of salves, lotions, washes and other treatments applied externally to the irritated parts.

To correct the basic trouble—waste products—the blood must be purified. Don't close your blood. Just clean it out. Nature will do the rest. Pure, rich, red blood nourishes the body and fights off disease.

S. S. S., the standard blood purifier and system builder, is the ideal remedy for skin eruptions. The effect of S. S. S. is to rid the system of the waste products which are causing the trouble. For over 50 years S. S. S. has proven to be of unusual merit. Begin taking S. S. S. today and write for 36 page illustrated booklet, "Facts About the Blood"—free.

Personal medical advice, without charge, may also be had by sending a complete description of your case. Address Chief Medical Director, Swift Specific Co., 743 S. S. S. Laboratory, Atlanta, Ga. All good drug stores sell S. S. S.

SALTS IF KIDNEYS OR BLADDER BOTHER

Harmless to flush Kidneys and neutralize irritating acids—Splendid for system.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

TELEGRAMS AND LETTERS FEATURE IN LUMBER TRIAL

The second day of the trial of the civil action of the McComber-Savidge Lumber company of San Francisco against the Big Pines Lumber company of this city opened with Frank R. McComber, president of the first named corporation still on the witness stand. Over one hundred telegrams and letters exchanged between the two firms were introduced as evidence and the entire proceedings to date, have been occupied with this phase, each letter and telegram being read to the jury and marked for identification.

These letters and telegrams reveal nothing startling, being an account of the business relations between the two concerns.

It is expected that Mr. McComber will be on the stand the remainder of the day, and that the case will not be completed before Saturday, at the present rate.

Monday afternoon a couple of lively tilts between counsel for opposing sides occurred over the introduction of letters and messages.

County Clerk Chancery Florey has been called as a witness relative to county records in the case.
