

BATTLING FRICK KNOCKED OUT IN THE 4TH ROUND

The Joe Blackburn-"Batling" Frick set-to at the Nat last night developed the sensation of the evening. Joe connected with three stinging wallops to Frick's head at the start and the fireworks began. Frick soon had his wily adversary in trouble but failed to follow up with, the result that Blackburn, after suffering a knockdown or two and a lot of incidental punishment, came back in the fourth round and scored a clean knockout.

Both Frick and Blackburn can take a lot of pummeling and either is dangerous as long as he is on his feet.

The main attraction, the mill between Billy Huff of Klamath Falls and Tom Sharkey of Medford, went the full ten rounds to a draw and although developing some interesting moments was more or less of a ding-dong affair. Sharkey had about 20 pounds the best of Huff in weight and for that reason apparently Huff was very cautious. Sharkey took the fighting to Huff most of the way but was little inclined to wrap punches, preferring to cover up when the going got rough. There was considerable holding and but little punishment administered.

"Mexican" Peat was out of his class in his mix with Johnny Carlson which went two rounds to a knockout administered by Carlson. The Mexican boy has lots of class and speed but gave Carlson much the best of it in weight. No one that has met Carlson around here can concede him anything and hope to win.

"Sonny" Austin and a young "white hope" figured in a fast comedy skit that brought down the house, and two other youngsters performed as a preliminary.

The smoker was well attended and the fans generally expressed satisfaction with the entertainment as lined up by Matchmaker Dixon.

Sharkey fell through the ropes at one juncture much to the delight of the contingent of Klamath fight fans present.

HOT-SPOT MANIFOLD FOR CHEVROLET CARS

A new invention in the auto circles of Medford is the Chevrolet hot-spot manifold, invented by W. A. Young and G. R. Moore, that is being manufactured at Young's Garage and for which there is a patent pending.

Speaking of the invention Mr. Young said: "Practically all makes of cars are using a hot-spot type of manifold for many reasons and we believe we have the best and cheapest for Chevrolet cars. Ours has been proven a success and there are a number in use in Medford and the valley. The Chevrolet manifold heater is a simple, yet efficient device, that utilizes the heat of the exhaust gases of the engine for heating the walls of the engine intake manifold. This assures better combustion, greater economy, more power and all round efficiency.

There are no small parts to wear out or to be replaced. No adjusting is necessary, no holes to be drilled. You simply remove the old manifold and install the new. This can be done in a few minutes' time and the manifold will outlast the car."

Medford High School Notes

At the assembly Friday, October 21, Mr. Getz, the Klamath Falls principal, gave the student body a very interesting talk on the merits of his football team, and of the resolution they had made to win.

The students, who attended the party given in honor of the Klamath team at the high school last Saturday evening, enjoyed a real good time.

The Dramatic club held the first meeting of the term Monday after school. Not nearly as many tried out as were expected.

The teachers training class has its second assignment. Those at the Washington school are: Marjorie Skeeters, first grade; Jane Leavell and Susan Cole, second; and Agnes Stewart third. At the Lincoln are: Sylvia Hukill, first grade; Gladys Mandeville, second; and Muriel Schurehard, third. Mae Morloff, first grade; Erna Hamilton, second; and Myrtle Nordwick, third are at the Roosevelt. While at the Jackson are: Thelma Kent, first; Dora Kindle, second.

Miss Sherwood sprained her ankle during institute week, but was able to be back the Friday after institute. But she has been out since Monday, having sprained it again. We hope she will be all right next week.

Many exclamations of "ohs" and "ahs" were heard in the assembly Thursday noon, when the report cards for the first six weeks were given out, some happy and some otherwise. All of the students have solemnly resolved to do their best during the next six weeks (we wonder how long their resolves will last!)

A pep meeting was held Thursday at the eighth period. Two very good new yells were learned. We wish to correct an impression which we understand has been given,—Medford high school is the peppiest school we know of, although, the first game was not as well attended as had been hoped for; but the one last Saturday exceeded all expectations, and we believe the one at Ashland will have a good representation.

The high school division of the Y. W. and the Hi Y club which is the boys' organization similar to the Y. M., are planning a masquerade party for all high school students and teachers for Saturday evening, October 29.

A POPULAR ARTICLE AT POPULAR PRICE

At this time, when every woman is interested in prices, when she is especially anxious to make a saving in her purchases, goods sold at pre-war prices surely make a strong appeal. "25 ounces for 25 cents," same price for over 30 years, is the price one of the well known advertised brands of baking powder is being sold at by all the principal grocers throughout the country.

The fact that the government bought millions of pounds of K. C. Baking Powder speaks volumes for its quality and the manufacturers are the proud possessors of an "Award for Distinguished Service" presented by the government for service rendered during the war.

The grocers of Medford should enjoy a splendid sale on this baking powder because, being a quality product and sold at a fair price, it points the way to economy.

Through their advertising the manufacturers are telling the readers of Medford of the merits of K. C. Baking Powder and they are to be commended for the policy they have pursued during a period when we have all wondered "what's going up next?"

GOOD ATTENDANCE EXPECTED, MARINE MEET IN MEDFEORD

Up to the present time the marine assembly committee has about twenty names of men who served in the marine corps at some time during the past. Many more names are expected to be in before Armistice day, the committee expects to be able to show the people of Medford and surrounding territory the largest gathering of this branch of the service ever seen in a place of this size anywhere in the United States.

The people of Medford and outlying districts can assist the committee greatly by turning in the names of those who live in their district who have served in the marine corps at some time previous to and during the war. These names must be in soon so that the committee can get in touch with those whose names are submitted.

When the call came in 1917 those men who were not in at the time responded nobly to the call of their country and the committee is of the opinion that the people of this territory and all the ex-marines will respond just as nobly to the call that is now being sent out.

So to the people of this community the committee is sending an S. O. S. for aid, and, "Will you help," is the substance of their appeal. All the people we are sure are anxious to see this day go over good and to them and the ex-Leathernecks the committee extends their heartiest thanks and appreciation for any co-operation that they may give. All correspondence should be addressed to Dick Molliet, 624 West Eleventh street, Medford, Oregon who is on the committee that is in charge of this work.

Market News

Livestock
PORTLAND, Ore., Oct. 29.—Cattle nominally steady; receipts 23. Hogs steady; receipts 318. Sheep nominally steady; no receipts.

First-class 30x3 1/2 tires \$13.50. Medford Vulcanizing Works.

Be sure and notice the latest thing in children's hair dress. Sanitary Beauty Shop.

It's a Grand Old Remedy
You can't keep strong and well without sleep. Whether your rest is broken by a painful hacking cough or just an annoying tickling in the throat, the system becomes weakened and run-down. Mrs. K. D. Drake, Childs, Md., writes: "After an attack of the 'flu' I was left with a severe cough. Nothing relieved me till I used Foley's Honey and Tar, which I can highly recommend." It covers irritated membranes with a healing and soothing coating, loosens phlegm and clears air passages. Sold everywhere. Adv.

Royal Arch Masons' Grater Lake Chapter No. 32

Special Communication, Tuesday, Nov. 1st, 7:30 p. m. M. E. M. Degree. Visitors welcome. 151 1/2 A. F. NOTH, Secy.

WOLVES OF THE NORTH

It's a great big drama of the frozen north--of a wolf dog--a wolf man--and a beautiful girl

Starring EVA NOVAK

There is a law in the Yukon, and ever she makes it plain:

"Send me not your weak and your feeble. Send me your strong and sane."

Men who cross the woman's land of the North are no man's man but God's.
