

BRITISH STAND ON SUBMARINES NO SURPRISE TO U. S.

WASHINGTON, Nov. 15.—(By Associated Press.) British desire to discuss the figures in the American naval replacement program as to submarines does not surprise American naval officials. It is fully expected that the Japanese also will have something to say on this point.

At the same time, it may be said definitely that the United States is not prepared to reduce below 49,000 tons the proportion of submarines she would be allowed to maintain in the proposed restriction of fleets.

Submarines enter vitally into American schemes of naval defense of her West coast line.

As insular powers both Great Britain and Japan are exposed to submarine operations to a degree not true of the United States, officers say. There is little doubt among naval folk here that Great Britain in particular would welcome absolute prohibition of submarine warfare, or, failing that, sharp limitation on the use to be made of underwater craft. That phase of the question, the writing of rules to govern employment of submarines in war, will come before the conference as it has a definite place on the agenda with other new agencies such as aircraft, air bombing raids and gas.

Widow Returns

Mrs. Dorothy Caruso and daughter

Dressed in deep mourning, Mrs. Dorothy Caruso, widow of the great tenor, and her daughter, Gloria, arrived in New York from Italy. Mrs. Caruso's voyage to her native land was necessary in connection with settling her husband's estate. She expects to remain here for about five months, when she will return to Italy. The voyage to Italy will be necessary, she said, because a large part of Mr. Caruso's fortune is located there.

JAPAN BUILDING PROGRAM HEAVY UNDER ARM PLAN

WASHINGTON, Nov. 15.—(By Associated Press.) Japan would face a rather extensive naval building program, even during the ten year naval holiday period proposed by Secretary Hughes, should the American plans be accepted. She has not built as yet the proportion of auxiliary craft such as destroyers, light cruisers and similar vessels she would be allowed to maintain under the replacement provisions of the plan, it is said. Permission to continue building up to those schedules is included in the proposals.

There is practically no class of ships, except airplane carriers, in which the United States is not now fully provided and more on the basis of the proposed schedule. It may be said that if the plan is adopted, prompt steps to supply any deficiency in airplane carriers will be taken. No aircraft carriers of the first line are now projected. The Langley, a converted collier of 19,000 tons, will be commissioned next month, but is rated as a second line ship.

Probably something could be worked out in salvaging of other types of new craft, if the American proposal is agreed to, so as to furnish the additional tonnage in airplane carriers to which America would be entitled.

Or words to that effect

IT BEATS the band.
THE WAY this thing,
KEEPS POPPING up,
THE OTHER night,
I BROKE all rules,
AND READ a high brow book,
AND HERE'S a hot one,
THAT IT handed me,
"MANY OF us find,
THAT TASTE affords,
ONE OF the fairly,
DEPENDABLE SATISFACTIONS,
OF EVERYDAY living,
AND IT seems,
UPON LONG reflection,
THAT SATISFACTION,
COMES CLOSE to being,
THE LONG sought,
"HIGHEST GOOD,"
OF COURSE that isn't,
WRITTEN WITH the ease,
AND POLISH to which,
WE ARE accustomed,
BUT IT'S a mouthful,
AS YOU'LL agree if you,
JUST PUT it into good,
UNITED STATES, like this,
"SON, YOU'LL be running,
ON FOUR flat tires,
IF YOU don't hurry,
AND WRAP yourself around,
THE ONLY cigarette
THAT SATISFIES."

"THEY Satisfy"—nothing else so well describes Chesterfields' mildness, their mellowness, their delicacy of aroma and smooth, even "body." It took the finest varieties of Turkish and Domestic tobaccos to do it—and the highest order of skill in blending them. Yes, the Chesterfield blend is a secret. It can't be copied.

We have informed his majesty's government that we are not prepared to admit the ascendancy of any parliament other than the imperial parliament over ours or to agree to its reserved services being transferred to a parliament for all Ireland, which undoubtedly would be controlled by those who are enemies of the empire."

Take It In Time!

DO you know that by far the larger number of the common ailments of women are not surgical ones; that is they are not caused by any serious displacement, tumor, growth, or other marked change?

DO you know that these common ailments produce symptoms that are very much like those caused by the more serious surgical conditions?

DO you know that many women and young girls suffer needlessly from such ailments? More than that, they endanger their health by allowing their ailments to continue and develop into something serious.

If treated early, that is, within a reasonable time after the first warning symptoms appear, serious conditions may often be averted. Therefore, at the first appearance of such symptoms as periodic pains, irregularities, irritability and nervousness, Lydia E. Pinkham's Vegetable Compound should be taken. It is prepared with accuracy and cleanliness from medicinal plants. It contains no narcotics nor poisonous drugs, and can be taken with perfect safety.

The Vegetable Compound acts on the conditions which bring about these symptoms in a gentle and efficient manner. The persistent use of it shows itself in the disappearance, one after another, of the disagreeable symptoms. In a word, Lydia E.
