

SCHOLARSHIP LOAN FUND BACKED BY FEDERATED CLUBS

(By Violet P. Herbert)

The scholarship loan fund is one of the most beneficial undertakings of the Oregon Federation of Women's Clubs, said Mrs. Ida E. Callahan, president and a director of the General Federation of Women's clubs in an interview at her office at O. A. C.

"With donations annually from the various clubs of the state," said Mrs. Callahan, "this fund has now reached the sum of approximately \$10,000. It is loaned without interest to young women who wish to complete their education. Many young women have been students at O. A. C. because this fund was available and have now become self-supporting members of society. Applications for loans at present far exceed the amount of money in the treasury."

"The Oregon Federation of Women's clubs was organized in Portland in 1899, and now has a membership of 129 individual clubs, scattered over different parts of the state. These clubs have a total membership of 6000 women organized for the purpose of promoting social, civic and educational improvement in their respective communities. These clubs, however, are of more than local value, for their combined efforts bring good results to the state and the nation."

"As Mrs. Thomas G. Winter, president of the general federation recently said: 'a woman's club is a group of organized women, who can be depended upon to back every movement that makes for the betterment of that community's life. Groups of such a character are a tremendous asset to the country in a time like this when half-baked thought, hasty conclusions, and lazy thinking are too frequent.'"

"The administration of the state federation is done by means of an executive board, which carries out the plans adopted at the annual meeting. A monthly bulletin, published in Portland by Mrs. Edith Knight Hill of the Oregonian, is sent to all clubs to keep them informed of the progress of the work. The plan of work conforms to that of the general federation, and is carried on in six departments with divisions and committees:

"These six departments are fine arts, applied education, American citizenship, public welfare, legislation, and the press. Backing the state and federal federations in the work of federation, which was organized in New York in 1890. It is made up of 50 state federations, which include 41,000 district clubs. Its total membership is now about 2,000,000. Twelve foreign countries represented by clubs are as follows: Canada, Canal Zone, China, Cuba, England, France, Hawaii, Japan, Philippines, Iceland, Sweden, West Australia and West Indies.

"Both state and national federations are non-sectarian and non-political, but are bi-partisan, working with both parties, supporting measures, not men."

BOY ORATORS AT 'Y' MEET TONIGHT

One of the features of the county Y. M. C. A. convention at the Presbyterian church tonight will be short talks by a number of the boys who have participated in the various activities conducted by the Y. M. C. A. throughout the county during the past year. Summer camps, boys' conference, H-Y clubs, junior clubs, swimming and baseball will be reported on by the boys. The Medford H-Y boys will tell, among other things, about what members of the club originated the idea of the "Toonerville Trotter," which graced the Armistice Day parade. As this float won first prize for a comic, the H-Y boys are justly proud.

A good number of acceptances to invitations have been received, all along the line from Ashland to Central Point, so that a representative gathering at the convention is assured.

Word has been received that the excellent Phoenix male quartette will sing, as will also the Medford quartette.

State Secretary John H. Ridd arrived this morning and will meet a group at luncheon at the Medford this noon. Mr. Ridd will also make the address at the convention tonight.

RHEUMATIC TWINGE MADE YOU WINCE!

USE Sloan's freely for rheumatic aches, sciatica, lumbago, overworked muscles, neuralgia, backaches, stiff joints and for sprains and strains. It penetrates without rubbing. The very first time you use Sloan's Liniment you will wonder why you never used it before. The comforting warmth and quick relief from pain will delightfully surprise you.

Keep Sloan's handy and at the first sign of an ache or pain, use it.

At all druggists—35c, 70c, \$1.00.

Disfiguring facial eruptions are quickly healed by Dr. Hobson's Eczema Ointment. Good for pimples, freckles, eczema, acne, itching, and all other skin troubles. One of Dr. Hobson's Family Remedies. Any druggist.

Dr. Hobson's

Duc de Crussol and American Bride After Wedding in Picturesque Uzes

The former Evelyn Gordon of New York is seen here leaving the town hall in the picturesque town of Uzes in southern France, with her husband, the Duc de Crussol, heir to the ancient house of Uzes. The photograph was made immediately after their civil wedding. A crowd of 2,000 from the town and adjoining country escorted the newly married couple back to the family chateau where in the courtyard a spontaneous wedding feast was served to all. A dinner set in gold of 124 pieces valued at \$500,000 was one of the wedding gifts. The duchess is the daughter of John Gordon of New York.

FIX COMPROMISE ON SURTAX RATE IN REVENUE BILL

WASHINGTON, Nov. 17.—President Harding today informed republican house conferees on the revenue bill that a maximum surtax rate of forty per cent would be agreeable to the administration.

The president, after a conference with Mr. Mondell, sent for Representatives Fordney, Michigan; Langworth, Ohio, and Green, Iowa, republican house conferees, on the tax bill.

The revenue bill as passed by the house provided a maximum surtax of 32 per cent while the senate fixed a rate of 50 per cent. Compromising on this difference has been the chief obstacle of the conferees in the two houses in reaching an agreement on the measure.

WASHINGTON, Nov. 17.—President Harding through Representative Mondell, republican leader of the house, arranged today to intervene in the conference between the house and senate over the tax bill.

KANSAS AGITATORS TO BE SUSPENDED

PITTSBURG, Kas., Nov. 17.—With Alexander Howat, deposed president of the Kansas district miners' union and members of his administration announced as expelled from the United Mine Workers of America, Van A. Bittner, representative of the international union, said today he would proceed at once to suspend about 4000 striking miners who failed to return to work yesterday.

The men struck when Howat and August Burdy, district vice-president were sent to jail for violation of the Kansas industrial court law.

PACKERS' STRIKE AT OTTUMWA QUIET

OTTUMWA, Ia., Nov. 17.—Quiet prevailed in the vicinity of the John Morrell Packing company plant this morning when the employees went to work, according to reports coming from the company. Scarcely a man, outside of those going to work, was seen in the streets, which were packed with hundreds of strike sympathizers. Thursday when 25 employees were behind on their way to work, National Guard troops maintained a heavy guard on all streets leading to the plant.

ENGLISH PRESS IN FAVOR ADOPTION OF NAVY LIMITS

LONDON, Nov. 17.—Nothing must stand in the way of ratification of the American proposals for limitation of the navies of the United States, Great Britain and Japan, declared the Daily Telegraph today, in an editorial in the Washington conference. The newspaper welcomes the reported decision that no understanding will be finally approved until the naval status of France and Italy is settled and "providing this does not menace the agreement between the major navies, for nothing must intervene to prevent sealing of the great compact Secretary Hughes has outlined."

The Times says it is encouraging to hear authoritative Japanese voices in Washington suggest that Japan may withdraw from Shanghai if England does likewise in Wal-Hai-Wei.

A plan to meet the submarine difficulty by extending the limit of territorial waters and proclaiming the waters outside an international sea is presented by the Daily Chronicle. Under this plan the powers would engage themselves to treat the use of submarines against merchant ships in this international area as an act of war against themselves.

FARMS PRODUCTS TO HAVE LOW RATE

NEW YORK, Nov. 16.—The Association of Railway Executives, representing 201 railroads, today decided to put into effect a ten per cent freight rate reduction on all farm products "as soon as possible." The reduction, it was announced, would not apply to intrastate rates in New England, but would affect freight entering and leaving those states.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly, your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

COLORADO STRIKE IN COAL MINES FAILS TO LURE

DENVER, Colo., Nov. 17.—(By the Associated Press)—Statements issued at the offices of the Colorado Fuel and Iron company here today showed that many miners reported for work in Las Animas and Huerfano counties, where a strike was called this morning to protest against a 30 per cent wage reduction. Union officials disputed the statements and declared there had been a general response to the strike order.

In Las Animas county the company reported a 50 per cent force was working. In Huerfano county the number of men reporting at the mines was 25 per cent of normal, according to the company, while there was a full force in the Canon City district, which was not affected by the wage reduction. At Crested Butte a sympathetic strike was in effect and company officials admitted only a few men were working. There was no wage reduction in effect at Crested Butte.

John E. McLennan, district president of the United Mine Workers of America in a long distance telephone message from his headquarters in Trinidad, disputed the company figures. Mr. McLennan declared the miners generally had observed the strike order, according to all reports he had received.

"They are all out, except those who went into the mines today to get their tools," declared the union president.

LATIN LANDS FIX MONETARY UNIT

TEGUIGALPA, Honduras, Nov. 17.—The monetary unit of the federation of Central American republics has been fixed in a decree issued by the provisional federal council. The coin will be of gold and equivalent value to an American half dollar and be called "el centro Americano."

THIS WOMAN'S EXPERIENCE

Brings a Ray of Hope to Childless Women

Lowell, Mass.—"I had anemia from the time I was sixteen years old and was very irregular. If I did any house cleaning or washing I would faint and have to be put to bed, my husband thinking every minute I was my last. After reading your text-book for women I took Lydia E. Pinkham's Vegetable Compound and I used the Sanative Wash, and have never felt better than I have the last two years. I can work, eat, sleep, and feel as strong as can be. Doctors told me I could never have children—I was too weak—but after taking Vegetable Compound I strengthened me, so I gave birth to an eight pound boy. I was well all the time, did all my work up to the last day, and had a natural birth. Everybody who knew me was surprised, and when they ask me what made me strong I tell them with great pleasure, 'I took Lydia E. Pinkham's Vegetable Compound and never felt better in my life.' Use this testimonial at any time."—Mrs. ELIZABETH SMART, 112 W. Sixth St., Lowell, Mass. This experience of Mrs. Smart is surely a strong recommendation for Lydia E. Pinkham's Vegetable Compound. It is only one of a great many similar cases.

ARTHUR H. MEYERS, Manager

To All Fathers—An Open Letter:

My father died when I was nine years old—just at that impressionable age when I considered him the most wonderful man in the world. He left me a good name; a very small legacy; a great deal of Scotch-American fighting spirit—and a wonderful picture of himself. I'm not ashamed to tell you that the photograph of Dad helped me over lots of rough places in the Road to Success.

Many a time in the old days when I was fighting to get a toe-hold in the Big Town, I'd come to my little bed-room, tired, discouraged, beaten. And, somehow, just a glance at those big, trusting eyes of Dad's with the tiny, laughing wrinkles round about, would fill me with strength and determination. Then, I'd pick up the handiest weapon, and start out again to take part in the battle. And now, about YOUR son: With all of your heart and soul, you want him to grow up a strong, decent, manly chap. He will be going away to school or to business, before very long. You cannot accompany him as counselor, friend or pal. But you can send a wonderful support—your photograph. That boy of yours wants a real man-like picture of his dad—a photograph he can show to the fellows with a world of pride, and maybe a wee bit of a catch in his voice, as he says, "That's Dad."

And he shall have it. For when you come to talk it over with Swen, he'll forget all about conventions and stiff-and-starchy things if you say so, and just make a human, natural, real-life picture. He's mighty fond of taking every-day photographs, and I've noticed that the work a man loves is quite apt to be pretty well done. Perhaps it would be best to make an appointment this morning.

—Jules Livingston
