CHICAGO, Nov. 19.—Stockyards workers in plants of the "big five" packers throughout the middle-west today were making their decision upon the wage cut fixed by the Armour, Swift and Wilson employees themselves, after inspection of their employers' books. The cut is eight per cent for piece workers who comprise about half the employees and from 7 to 7 1/2 cents an hour for others. Representatives of 40,000 employees adopted the wage cut yesterday, and it is believed that within the next few days 125,000 employees in the industry will have agreed to the new scale. No change in the overtime or eight-hour day arrangements was made. The cut goes into effect November 28.

The initial step toward the reduction, taken by representatives of all the Armour plants yesterday, came after five hours of deliberation by the "shop representation" committee of employees. Representatives of the butcher workmen's union at Omaha were uncertain whether members of that craft there would agree to the reduction.

# CORPORATION TAX INCREASED BY CONGRESS ACTION

WASHINGTON, Nov. 19.—Completing their revision of the tax bill, house and senate conferees agreed today to a corporation income tax rate of 12 1/2 per cent, the figure fixed in the original house measure. This is an increase of 2 1/2 per cent over the present rate, but is 2 1/2 per cent less than the figure agreed upon by the senate. The conferees also agreed to the senate amendment repealing the \$2000 normal exemption allowed corporations, except that this exemption would be continued in the case of corporations having net incomes of \$25,000 a year or less. The senate managers receded from the senate liquor tax amendment, and the original house provision was re-written into the bill. This provides for a tax of \$220 a proof gallon on alcohol with an additional tax of \$420 a gallon on whiskey or on alcohol legally diverted for beverage purposes.

Portrait of the former German Crown Prince, Frederick William, in his Death's Head uniform brought offers of only 50 francs. The dealers offering these and other similar pictures guaranteed them as coming from the various royal palaces. The pictures are to be taken to the United States and to England, where the dealers hope the markets will be better.
