

BIG TIME AND MONEY SAVER

CALUMET BAKING POWDER stands for ECONOMY

No Failures No Waste

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

Why The First Aid To Good Health Is Pure Blood

Waste Products in the Blood Cause Many Forms of Rheumatism, Skin Disorders, and A Lowered Vitality.

Many People Do Not Understand Nature's Warning. When you have that feeling of fatigue; when you lack the energy you need for the day's duties and pleasure; when you are troubled with pimples, blackheads, bad boils, sores or some other skin eruption; or when you have rheumatic pains in the muscles and joints, don't wait until you collapse in a state of nervous prostration, or until in your weakened condition you contract some serious disease, but start at once to get the waste products out of your blood. Nature has certain peculiar ways to warn us. Fortunately, indeed, is the person who knows her danger signals. Thousands and thousands of men and women during the past 50 years have relied on S. S. S. to clear their blood of waste products. S. S. S. will improve the quality of your blood by relieving you of the waste products which cause impoverished blood and its allied troubles—skin disorders, rheumatism and a lowered vitality. The same qualities which give S. S. S. its beneficial effect in clearing your blood of waste products make it extremely desirable for keeping your blood in good condition. S. S. S. may be had at any drug store. Write Chief Medical Director, Swift Specific Co., 715 S. S. S. Laboratory, Atlanta, Ga., and let him help you regain your health and strength. Give him a full description of your case. He is helping people every day (without charge). Ask him to send you his illustrated booklet, "Facts About the Blood"—free. S. S. S. is sold at all drug stores.

Thanksgiving is over and it's time to think of Christmas and the wise buyer shops early to get choice of goods and avoid the crowd. Our big stock of Oriental Goods are now on display. We would be glad to have you call and inspect them. We list a few of the many lines we carry.

LAUNCH SEARCH VAST TREASURES IN SOUTH SEAS

PAPEETE, Tahiti, Nov. 24.—The year 1921 has been the open season for treasure hunting in the islands. Every month or so a report that the vast treasure alleged to have been buried some 60 years ago on the island of Pinaki had at last been located, has induced a new company of adventurous Papeete capitalists to equip a fresh expedition only to return with nothing more than a goodly coat of sunburn and back aching from the strenuous exercise of digging for weeks in the blistering coral sand. Then, early in the year, came the yacht "Genesee" from New York in search of a great treasure of gold, said to have been left on the island of Tapal Manu, in the western Societies, by the German Pacific squadron when they were flying from the pursuing British and Japanese fleets in 1814. Much real estate on Tapal-Manu flew into the firmament on that occasion, under the action of good charges of dynamite; but the "Genesee" sailed away, leaving the treasure to be discovered by a future explorer. And now there is the story of a new treasure! The tale is, that about 50 years ago a Chilean warship deposited on the island of Moorea (the island close to Tahiti) a treasure of gold belonging to the Chilean government of that time—as a measure to keep it from falling into the hands of a strong revolutionary party. The revolution must have been successful; for none returned to take away the gold, the story runs. Years afterward, however, the protestant missionary at Moorea received a letter from a priest in Chile enclosing an outline drawing easily recognized as the outline of the mountain peaks about Opunohy Bay in Moorea, asking for information of the location of the island so represented, and stating that he had knowledge of a treasure buried there. The missionary having visions of ungodly adventures corrupting his flock, decided to tear up the letter and drawing without dispatching the answer. The Hindus count months by the progress of the sun through zodiac.

EXPECTANT MOTHERS For Three Generations Have Made Child-Birth Easier By Using MOTHER'S FRIEND

BLACK FAVORITE PARIS COLOR AND CORSETS IN VOGUE

PARIS, Nov. 23.—Black remains supreme in the fashion world of Paris. Despite a severe onslaught by advocates of color, the supreme council of style has been forced to retain the conventional black as the dominant motif of all fall and winter modes and there is every indication that colors, except in minor trimming effects, will not be able to challenge black until late spring. Adopted at a time when economy was the guiding idea of all feminine purchases, black has come to be regarded as the most becoming color. French women say it is alone in lending itself to striking effects. Dressmakers quietly gathered together before fall and winter models were given to the world and tacitly agreed that colors should have a chance. The adoption of black was hurting them financially. One black gown, carefully selected, took the place of two or three dresses of different colors. But the French women who are indicators of the newest developments in style, said a very emphatic "No." The demand this fall was for black and the big dressmakers bowed to the inevitable. Crepe Moroccan, velvet and perline are the most popular materials. The corset makers however, have been slightly more successful in their efforts to bring the corset back into its own. Dressmakers are insisting that corsets are now necessary to give the "uncorseted look." This propaganda has succeeded in some instances, but most French women, having fought and won their freedom, are loath, in the language of a famous French actress, "to jail their bodies again." There are four definite features of the fall and winter modes: a very long waist line, longer circular skirts with full sides, eccentric sleeves of gay colors and the famous bateau neck line. Brick red has been used extensively as trimming and some green steel ornaments for hair purses, dresses and even shoes are the newest thing in novelties.

BOMBAY APOLOGIZES FOR PRINCE'S RIOTS LONDON, Nov. 25.—Surveying the entire stay of the Prince of Wales in Bombay after the prince's departure from the city, the Daily Mail's Bombay correspondent says it was an unqualified success and both the prince and the people had every reason to be well content that all anticipatory misgivings were swept away by the tumultuous popular receptions. Referring to the rioting the correspondent says: "To us here, though deplorable, the whole thing was trivial."

Dyed Her Dress, Coat and Skirt for Few Cents

Each package of "Diamond Dye" contains directions so simple any woman can dye or flat her worn, shabby dresses, skirts, waists, coats, stockings, sweaters, coverings, draperies, linings, everything, even if she has never dyed before. Buy "Diamond Dye"—no other kind—then perfect home dyeing is sure because Diamond Dye is guaranteed not to spot, fade, stretch, or run. Tell your friends whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods. Adv.

Galicia, the Alsace of Poland

WASHINGTON, D. C., Nov. 19.—"Galicia? Oh, yes, that's in Spain, or was it the place St. Paul wrote a lot of letters to?" This answer to a geography examination question hits wide of the mark both times, but Galicia bids fair to become better known because of disputes with Czechoslovakia and Ukraine, not to mention renewal of the age-old dissension between the Poles and Ruthenians who are about equal numerically among its own population. A bulletin from the Washington, D. C., headquarters of the National Geographic society describes the present-day Galicia as "a region about the size of North Carolina, with eight times the population of that state, handicapped by its geographical location and immortalized by its history. Carpathians Unkind to Region "Restored to Poland, Galicia forms the southernmost area of that nation, with Ukraine, Rumania and Czechoslovakia lying along its borders. Nature was not kind to Galicia because of the Carpathians, which shield Hungary from the cold Baltic winds, turn their back on Galicia and cut off the warmer breezes of the south. Where a Galician panhandle cuts into Czechoslovakia, round about the little town of Zakopane, rises the High Tatra range to form a happy hunting ground for fisherman, naturalist and excursionist. For the most part Galicia is a bleak plain. A dense population ekes out a scanty existence from its soil. Before the World War many of its peasants had to leave their families in their primitive thatched huts while they went to Russia for a part of the year to augment their incomes. Yet, while Galicia was a part of Austria, it had more than half the horses of the empire, and manufactured nearly half of the spirituous liquors consumed in Austria. Austria acquired Galicia upon the first partition of Poland, four years before our Declaration of Independence was signed, and she was comparatively fortunate in her foster mother. While Prussia and Russia ground down the Poles within their domains, denied them their language, literature and political rights, Austria was a benign guardian. Therefore Austrian Galicia became the conservator of Polish national aspirations; and there Poles were free to express their own thoughts in their own tongue. Taxes were burdensome, land was largely in the hands of absentee landlords and had to be worked on smaller shares than anywhere else in Europe, but, withal, the Poles of Galicia were the envy of the Poles in the lands of the Tsar and Kaiser. Poles Dominated Government "While Galicia escaped political oppression she was in frequent turmoil from political controversy. Only about 15 per cent of her population was Polish; nearly as many were Ruthenians, leaving a balance of Magyar and other nationalities. But the Poles were able to dominate the Galician government, entirely and they even provided Austria with a premier at one time, and a foreign minister at another. "Though more than three-fourths of Galicia's eight and a quarter million people get their living direct from the soil, the region has two important minerals, petroleum and salt, and, in lesser quantity, iron and coal. The salt mines at Wieliczka are unique. They have been worked for seven centuries, at least. Statuary, crucifixes,

Galicia, the Alsace of Poland

and even a miniature cathedral have been hewn out of the rock salt by Polish workmen of centuries ago. Poles born blind draw little carts over a trolley railway. Ferry boats navigate lakes in the mines. The damp salt atmosphere shortens the lives of the workers, yet their pre-war wage was the equivalent of about twenty cents a day. A Unique Memorial "Galicia has a memorial as distinctive as the Washington monument. From every battlefield consecrated by Polish blood, and from every settlement of Poles all over the world, reverent hands brought earth which was heaped upon a huge mound at Kosciuszko, near Krakow, Austria transformed the mound into a fort. But the name of Kosciuszko was not despised by the Austrians, for that Polish hero, it will be recalled, drove back the Turkish invaders at Vienna, and thus saved Europe from a Moslem invasion. Krakow clusters with memories of Poland's ancient luster. There the royal palace still stands, used by the Austrians as a barracks. There slept Jucellous and Kosciuszko, Lember, the newer seat of Galician government, is a more modern city. Acts in dramatic poetry were first employed by the Ancient Romans.

SO WEAK SO NERVOUS

How Miserable This Woman Was Until She Took Lydia E. Pinkham's Vegetable Compound

Toombsboro, Ga.—"I suffered terribly with backache and headache all the time, was so weak and nervous I didn't know what to do, and could not do my work. My trouble was deficient and irregular periods. I read in the papers what Lydia E. Pinkham's Vegetable Compound had done for others and decided to give it a trial. I got good results from its use so that I am now able to do my work. I recommend your Vegetable Compound to my friends who have troubles similar to mine and you may use these facts as a testimonial."—Mrs. C. F. PHILLIPS, Toombsboro, Ga. Weak, nervous women make unhappy homes, their condition irritates both husband and children. It has been said that nine-tenths of the nervous prostration, nervous dependency, "the blues," irritability and backache arise from some displacement or derangement of a woman's system. Mrs. Phillips' letter clearly shows that no other remedy is so successful in overcoming this condition as Lydia E. Pinkham's Vegetable Compound. Callport is the natural result of the blending of the different varieties of grapes so necessary to obtain the full bouquet and flavor of the imported beverage of pre-prohibition days. Our instructions to you keep you within your full legal requirements and rights under the present laws, as interpreted by the Department of Agriculture of the State of California. OREGON MAN TELLS INTERESTING TALE OF HIS RECOVERY

"Well, it's just wonderful how Tanlac aids a man that grows, good-for-nothing feeling and gives him new strength and energy," said L. Autrata, 1115 Box St., Portland, Ore. "For ten years I was a victim of stomach trouble and kept going down till I began with Tanlac. Then I began to get better and kept right on climbing up till today I'm feeling just fine. "I don't think anyone ever had stomach trouble worse than I did. I couldn't eat anything without suffering fearfully and I also had awful pains in my back. I had headaches till I was almost wild, I was so nervous I couldn't get any restful sleep and kept growing weaker all the time. "Now I'm just as well as I can be and all that is left of my old enemy is the memory of it and I wish I could forget that. Tanlac did me so much good that my wife took it for rheumatism and now she is well." Tanlac and Tanlac Vegetable Pills are sold by the West Side Pharmacy, and by leading druggists everywhere. —Adv.

CALIPORT

For hundreds of years the monks of Spain, France and Italy have had a process of pre-fermentation and dehydration of grapes and other fruits that has kept their products and name before the epicures of the world. No great banquet, no gathering of royalty was ever complete without a generous supply of these delightful beverages. These formulas have been kept an inviolate secret locked in the bosoms of these great beverage makers and their descendants. The Great War coming on scattered a great many of these former associations throughout the entire world, and has made new associations, laws and changes in this country and Europe that was thought impossible to attain. At a great expense, the Grape Beverage Products company of California has secured one of these old formulas and, through modern methods of dehydration and pre-fermentation of grapes and other fruits is enabled to supply you with a beverage never surpassed by the beverage makers of old. The immediate popularity and success of this method has sent the price of grapes soaring to double and triple the price under the old methods and has lowered the cost to consumer by one-half to two-thirds. The splendid results obtained through this method of handling the pure, unadulterated juices of the various beverage making grapes we were unable to fill all our orders the past year, but we are better prepared and have a good supply of grapes this season and can fill any size order immediately. Callport is the natural result of the blending of the different varieties of grapes so necessary to obtain the full bouquet and flavor of the imported beverage of pre-prohibition days. Our instructions to you keep you within your full legal requirements and rights under the present laws, as interpreted by the Department of Agriculture of the State of California. Callport can be used for sacramental and prescription purposes where the user is authorized by law. For home use, no permit is necessary, where our instructions are followed.
