ASHLAND EXPECTS NEW HOTEL WILL INCREASE VALUES

ASHLAND, Nov. 25.—Conservative business men estimate that the building of the new hotel here will increase the value of real estate fully ten per cent. In accordance with suggestions made the greater hotel committee has been enlarged, the plan being to whom up the campaign in short order to the end that the needed \$30,000 bonus may be available on call. The original committee numbered fourteen, and the needs prompt a canvassing force of at least twenty-five. The plan is to have the project completed ahead of the Portland fair in 1925, in order that the institution may figure in the limelight previous to that big event. The campaign in behalf of the bonus is an enthusiastic one, even the women lending a helping hand, and in spite of a building handicap just at present incident to erecting the community clubhouse, the Ladies Civic Improvement organization signifies an intention of contributing to the fund.

The annual praise meeting of the Presbyterian missionary society, to be held on Sunday evening, Nov. 27, will be of more than ordinary significance. EDEN PRECINCT IS ENTHUSED BY OIL SHOWING TRIGONIA

(By Mrs. O. Carey.)

Great excitement reigned in Fern valley Saturday afternoon, when the casing being drove, struck a gas pocket, causing the oil and sand and water to spout up into the derrick works. The presence of the oil was so pronounced that a guard was set to watch that no one struck a match near the works. A night watchman was on duty all night, and Sunday the well was closely guarded for fear of an accident. Monday work of boring out the well and driving more casing when the bit drill will again be put to work. It will only be a matter of hours, it is thought, until the true state of the oil find will be determined. If the sand strata is a thick one, experts say the well will be a gusher. But if it should be only a few feet in thickness, there may not be oil in commercial quantities. L. E. Hughes, who lives at the place where the well is located, phoned your correspondent as soon as the oil was struck, and seemed very sanguine as to the truth of there being oil present.

Tuesday, after the above report, your correspondent visited the Trigonia, and watched them bail out for an hour. There was no very pronounced change in the well from the former conditions, so far as anyone could see. There were several there who have been at the oil wells elsewhere, and none of them seemed over excited.

To my mind the greater excitement seemed to be with those who handled stock.

SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.
