

MORATORIUM FOR GERMANY VIEWED IN FAVOR, LONDON

LONDON, Nov. 29.—(By the Associated Press)—Dr. Walter Rathenau, former German minister of reconstruction conferred last night with Sir Robert S. Horn, chancellor of the exchequer, Sir John Bradbury, British delegate on the reparations commission, and Baron Edgar d'Abernon, British ambassador to Germany who attended the conference. The arrival here yesterday of Dr. Rathenau was accepted in official and banking circles as bearing upon the question of Germany's reparations obligations. The morning newspapers give great importance to Dr. Rathenau's visit. The tenor of the most comments suggests that it would be easy to bring general opinion in line with the view, attributed to financial experts, that a moratorium for Germany is desirable. The question of France's position is discussed by the financial writers who assume that moratorium would be distasteful to her, but they argue France's interests would be served equally with British and that France will gain more in the long run under such a plan than by further occupation of German territory should Germany default in her payments. Among the allied matters touched upon by the writers is the suggestion by Frank A. Vandellin, of an international system patterned after the United States federal reserve bank system.

SCIENCE TO STUDY PERUVIAN SYSTEM OF HIGH LIVING

LIMA, Peru, Nov. 29.—(By the Associated Press)—Five American scientists, part of an expedition which plans to undertake the first studies ever made of the physiological changes which enable people to live at high altitudes, have arrived here to await the three British scientists, who will complete the party. The Americans are Dr. Alfred C. Redfield, assistant professor of physiology at the Harvard Medical school, Dr. C. A. L. Binger of the Rockefeller institute, New York; Dr. George Harrop, of the Presbyterian hospital, New York; Dr. A. V. Rock of the Massachusetts general hospital and Dr. Henry S. Forbes of Harvard university. The commission expects to remain two months in Peruvian mining towns in the Andes mountains. They will spend some time in Cerro de Pasco, Tiello and Oruro, which are situated between 12,000 and 14,000 feet above sea level. These towns are the centers of extensive American mining operations and are said to be the highest communities in the world inhabited by whites. The British scientists, who are expected soon are Joseph Bancroft of Cambridge university, who organized the expedition; Dr. J. G. Menkens of Edinburgh university and Dr. Duggart of Kings college, Cambridge.

HUNGRY RUSSIANS TO GET AMERICAN FOOD IN JANUARY

MOSCOW, Nov. 29.—(By the Associated Press)—A total of 1,200,000 children in the famine stricken parts of Russia will be receiving regular food allotments from the American relief administration by January, it was stated by Walter L. Brown, director, on his departure from Moscow after an inspection tour. "We are having fewer difficulties than at first and the army is not taking any of the food and we are operating virtually without loss from theft. The amount of supplies stolen in Russia has been far less than was the case in Armenia and Poland. We are now feeding half a million children and by January the number will be 1,200,000. It is done at a cost of eighty cents a month for each child, or a total of \$12,000,000 until the next harvest. "M. Kamenoff has expressed his satisfaction and gratitude to me for the work done and also confidence that our aims are not political. (Leo Kamenoff is president of the Moscow soviet and also head of the all-Russian famine relief commission). "The American relief administration has no plans for feeding adults nor providing seed grain to insure the next harvest and prevent a greater famine."

OREGON COUPLE HIGHLY PLEASED AT THE RESULTS

"I started taking Taniae when I saw the good it was doing my wife, and now both of us are enjoying as good health as we ever did," said C. Ingraham, Box 172, R. P. D. No. 1, Linnton, Oregon, a valued employee of the Standard Oil company in Portland. "Rheumatism and stomach trouble had the best of me and it was beginning to look like nothing would reach my case. I had the keenest kind of pains in my shoulders and arms and at times it seemed like every joint in my body was aching. I could hardly work. In fact, lots of mornings I didn't feel like leaving the house at all. My appetite was gone and what little I ate did me no good. I gradually lost weight and hardly had any strength or energy at all. "My wife, who had been in bad health a long time, started getting fine results from Taniae, so I commenced taking it myself and I'm now feeling as fine as a fiddle. The rheumatic pains have left me and when I get up of mornings now I'm ready for a big day's work. My appetite is a corker and everything I eat agrees with me. I have picked up ten pounds in weight and feel strong and healthy once more. My wife and I are both well pleased with Taniae and are all the time recommending it to some of our friends. "Taniae and Taniae Vegetable Pills are sold by the West Side Pharmacy, and by leading druggists everywhere. Adv.

AUSTRIAN EMPEROR TREATED ROYALLY

FUNCHAL, Island of Madeira, Nov. 29.—(By Associated Press)—Former Emperor Charles of Austria-Hungary and former Empress Zita are living quietly in their exile. They only guard at the Villa Victoria where they reside in a plain clothes policeman, who accompanies them on their journeys about the island to prevent beggars from bothering them and to avert other annoyances. Charles and Zita are treated as honored guests by the new governor, Major Acazio Correa Pinto, and the other Portuguese officials. They attend mass on Sundays and have engaged Canon Antonio Homen de Gouveia as their private chaplain. After mass, recently a few women outside the church attempted to kiss Zita's hands, thus showing their affection for a member of the family of Don Miguel de Braganza, pretender to the Portuguese throne.

START TO DIAGNOSE WHAT AILS THEATER

NEW YORK, Nov. 29.—Actors, theatrical managers and others went called together today by William A. Brady to determine what, if anything, is the matter with the theatrical business. In his call for the meeting he said: "It is time someone put his shoulder to the wheel and called a spade a spade and to have all our people realize what is facing us. They are standing still and doing nothing and this explains the purpose of the meeting."

ADOPT NEW RULES RAIL WAGE ROWS

CHICAGO, Nov. 29.—Future wage adjustments for railroad employes by the United States labor board must fit the new rules laid down by the board, and which supersede regulations promulgated under federal control, Ben W. Hooper, of Tennessee, a public member of the board, declared today at a luncheon of the Chicago Association of Commerce. Rules governing the 400,000 members of the railroad shop crafts will be announced by the board tonight to go into effect tomorrow. The board will then be free, Mr. Hooper said, to consider applications from the railroads or the shop employes for a change in wage schedules.

818,000 MEN ARE UNDER ARMS IN FRANCE, REPORT

PARIS, Nov. 29.—(By the Associated Press)—The strength of France's army was given as 818,000 as of October 1 by the report of the army commission to the chamber of deputies, made public today. The report was made public in connection with the government's proposed law calling the class of 1922 to the colors in two contingents, one next May and the other next November. The report said a considerable part of the class of 1919 had returned to their homes on crop furloughs or on indefinite leave, making the active forces in uniform 600,000 or upwards, with the balance subject to immediate recall. The commission estimates that the government plan, which is recommended for adoption, would, through the release of various contingents of the class of 1920 and the incorporation of the class of 1922 during next year, give a strength of 649,000 men in the spring.

The Noted Dead

LONDON, Nov. 29.—(By Associated Press)—Lord Mount Stephen, 92 years old, pioneer railroad constructor in Canada, and first president of the Canadian Pacific Railway company, died last night at his country residence, Brocket Hall, Hatfield, Hertfordshire.

PACKERS STRIKE OR NOT TOMORROW

CHICAGO, Nov. 29.—Final action on the question of a strike by employes of the packers in all the packing plants of the country is expected today or tomorrow when the executive committee of the Amalgamated Meat Cutters and Butcher Workmen of North America meets here. Little notice will be required for issuance of a strike call authority for which was voted some time ago by the unions whenever their officers, in their judgment, deemed it expedient. The strike vote was a protest against wage cuts.

TRAMPS KILLED IN WYOMING WRECK

CASPER, Wyo., Nov. 29.—Wreckage of a southbound Burlington freight train which piled up last night near Lox Station, 40 miles west of Casper, was being searched today for bodies of hoboes believed to have been killed. It is known that between twenty and thirty men were riding the train and only four of these whose names are unknown have been accounted for. All those picked up were injured.

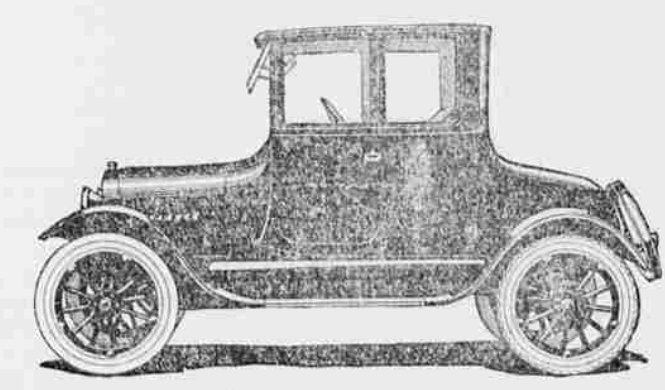

BOOZE EVAPORATED COPS DISMISSED

OLYMPIA, Wash., Nov. 29.—Over the protest of Mayor Charles H. Bowen, the city council last night reaffirmed its stand involving the dismissal from the police force of Chief of Police James Endicott and Patrolmen William Forbes and Charles Hansen. The men were charged with incompetency following the disappearance of approximately 82 bottles of liquor from a cell in the city police station. Mayor Bowen was not present at the meeting last Friday night when the removal of the officers was recommended. At last night's session he insisted on a full investigation before any action should be taken, but finally acceded to the council's request for dismissal. It was agreed at the meeting that no definite date should be set for the removal of the officers and that they be asked to hold office until their successors are appointed.

CONTRACTORS FACE CRIMINAL CHARGE

NEW YORK, Nov. 29.—Search of the ruins of a new theater in Brooklyn which collapsed yesterday during construction, killing six workmen, was continued today to determine if the bodies of four missing laborers were under the tons of brick and twisted girders. Eighteen other workmen are in hospitals, some in a serious condition. District Attorney Lewis, who yesterday ordered Sylvester Rosenthal and Samuel Moskowitz, owners and contractors of the buildings, held on charges of manslaughter, said he expected further arrests today.

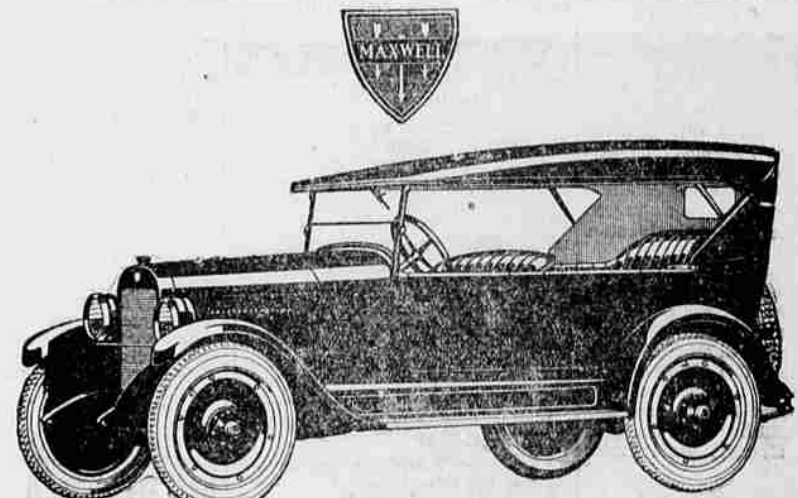

DAY OR NIGHT WEEKS-CONGER CO Funeral Directors

At This Time of Year Chevrolet Closed Cars offer the utmost in Comfort and Convenience at a moderate cost

Patton and Robinson, Inc.

Tel. 150 112 So. Riverside

Now Showing

The elements of value which you will recognize in these specifications, and in the cars themselves, are more impressive than anything we could say of the New Series of the good Maxwell.

- Cord tires, non-skid front and rear; 31 x 4 inch.
- Disc steel wheels demountable at hub and rim, or wood artillery wheels, optional without extra cost.
- Unusually long springs promote comfort, tire economy, roadability.
- Alomite lubrication.
- Plate glass window in rear curtain.
- Drum type head lamps, nickel trimmed.
- Non-glare lenses.
- Real leather upholstery; Turkish cushions.
- Adult-size seats, deep and wide and roomy. Side curtains open with doors.
- Leak-proof windshield. Windshield wiper. Motor driven electric horn.
