

AMATEUR BURGLAR GETS 37 CENTS AT TREICHLER STORE

Some amateur burglars broke into the garage occupied by the Geo. E. Treichler Motor Co. Saturday night and rifled the cash register of thirty-seven cents. A pair of gauntlets belonging to Halley Noel were also taken. The burglars gained entrance through the back window, entered the office, took the cash register into the shop and worked on it with some sort of a "jimmy" finally opening it and procuring the glorious sum of 37 cents. The cash register was not locked and the 37c could have been procured without even the bookkeeper knowing it had the "No Sale" key been pressed. It looks as if the culprits were looking for experience in forcible entrance rather than actual cash. Their careers are in danger of being stopped in the bud as Deputy Sheriff Finnerock has all the finger prints connected with the gloves and the 37c.

MOTHER, QUICK! GIVE CALIFORNIA FIG SYRUP FOR CHILD'S BOWELS

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the tender, little bowels and gives you a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

RIGHT OF UNIONS TO USE PICKETS IN STRIKE CURBED

WASHINGTON, Dec. 5.—Organized labor has no right to picket during a strike, when it involves importunity, the supreme court today declared.

The decision was delivered in an appeal brought by the American Steel Foundries company growing out of a strike at its plant at Granite City, Ill.

FARMERS BENEFIT IN MARKETING

Some time ago, the directors of the Poultry Producers' Association started working on a plan through which the growers of turkeys would, like the producers of eggs, receive all the profits derived from their sale, with the exception of the actual cost of putting their product on the market. Their plan was to guarantee the growers as much as any local dealer would pay and after the turkeys were sold and the cost of handling deducted, return all the excess profit to the growers. At this time, we are pleased to announce that we are returning to the growers \$1,196.56 excess profit on this shipment which will make the turkeys sold through the Poultry Producers' Association net the growers, free of all charges, 35c per pound net.
