

DR. HADLEY DIES IN ELECTRIC CHAIR FOR MURDER OF WIFE

RICHMOND, Va., Dec. 8.—Dr. William Amos Hadley, former army surgeon and ranchman, was put to death in the electric chair in the state penitentiary early today for the murder of his wife, Mrs. Sue Tinsley Hadley, in November, 1918. Prison attendants declared Hadley went to his death calmly and stoically.

Dr. Hadley made no statement before his death further than to say he had "made his peace with God" and was prepared for the end. The execution closed one of the most sensational cases in the history of Virginia.

Mrs. Hadley's body was found in the James river near Richmond on December 30, 1918, by a negro trapper and was identified by the woman's sister several weeks later. A search for Dr. Hadley was begun by local authorities which carried them through many states and parts of Canada and he finally was apprehended on a ranch in New Mexico. At the time of his arrest he was in disguise and under an assumed name. He was taken to Denver, Colo., where, according to the Henrico county authorities, he made a written confession that he had killed his wife.

This confession was used against him in his trial. In the confession he declared he also shot a mysterious "Dr. Griffin," a fellow surgeon in the army, but an investigation proved this to be unfounded, which Hadley finally admitted.

From the time of his arrest last August until his death today, Dr. Hadley maintained a taciturn calmness and indifference.

BEND BLOCKADE BY RAIL ENDS, MILLS CONTINUE WORK

BEND, Ore., Dec. 8.—Resumption of rail communication with the outside world, suspended since November 19, by the snow blockade in the Deschutes canyon was announced here when orders were received at the local station to make up the Oregon trunk northbound train for a through run to Portland.

Piercing the blockade, the worst in Bend's history since the historic storm of 1906, which cut off communication for an entire month, comes just in time to relieve the pine mills here of the necessity of closing their shipping departments.

A surplus of cars on hand when the storm began saved the mills from ceasing operations. Nearly 300 cars are on siding at Bend and Metolius, waiting movement.

Food supplies were adequate, although sugar was low and the supply of fresh vegetables had been exhausted. Christmas shopping was delayed as holiday stocks ordered by local merchants were unable to reach Bend.

Major Loses Command
WASHINGTON, Dec. 9.—Major General Charles T. Menoher was ordered today relieved from command of the First division, Camp Dix, N. J., and assigned to command of the Hawaiian division. The general who recently was relieved as chief of the army air service upon his own request was assigned to Camp Dix, but on account of a leave of absence did not actually take up the command.

WHITMAN URGES FRESHMEN ON FOOTBALL TEAM

PORTLAND, Ore., Dec. 8.—Graduate managers and coaches of Pacific coast colleges got together today to consider schedules of athletic events and the Northwest conference which met yesterday also continued in session.

The Northwest conference was to decide on the question of freshmen in football, which was raised yesterday by Whitman college and which caused a spirited debate.

The Northwest conference has a rule that a college having fewer than 200 male students may play freshmen on its varsity athletic teams. Whitman, with 192 male students registered, now comes under that rule, and so does Willamette, Idaho and Montana, which both were defeated by Whitman this football season, do not come under it. Whitman expects next year to be a little above the 200 mark, so will not be eligible to play freshmen under the rule. Whitman asked that the rule be amended to permit her to continue to play freshmen, but Idaho and Montana were opposed. They said it would give Whitman a good argument for getting football players to attend the school, while Whitman contended that with so much smaller a student body than the other colleges, it was only fair to even things up and let her play the freshmen.

The Northwest conference voted to reduce scholarship requirements for intercollegiate athletics from the present twelve-hour credits to two-thirds of the number of credits carried by the student. The reason for reducing the minimum from twelve hours is that most colleges now have nothing but five-hour courses.

WHEAT PRICES UP ON STRENGTH OF EUROPEAN BIDS

CHICAGO, Dec. 9.—Gossip that foreign buyers were bidding more freely for United States wheat tended today to strengthen the wheat market during the early trading. But demand, however, lacked volume. Upturns in price led to profit taking on the part of holders and caused a decline. Initial quotations, which varied from unchanged figures to 5/8c higher, with May \$1.14 to \$1.14 1/2, and July \$1.03 1/2 to \$1.03 1/2 were followed by moderate gains all around, and then by setbacks to below yesterday's finish.

Corn and oats paralleled the action of wheat. After opening a shade off to a half cent higher, May 54 1/2 to 54 1/2c, the corn market hardened a little more, but later showed slight losses.

Oats started at 18c decline to a like advance, May 38 1/2 to 38 1/2c, and then became easy for all deliveries.

Higher quotations on hogs gave firmness to provisions.
