Watch Your Gums

Bleeding Is the Sign of Trouble

Medical science knows how serious is the sign of bleeding gums, for it knows that tender and bleeding gums are the forerunner of PYORRHEA, that dread disease which afflicts FOUR out of every FIVE people over forty.

If the disease is unchecked, the gum line recedes, the teeth decay, loosen and fall out, or must be extracted to rid the system and wreck your health; these poisons often cause rheumatism, nervous disorders, anaemia and other ills.

TO AVOID PYORRHEA

the best treatment for any disease is to prevent it. Free consultation and advice.

Painless Dentistry is one of our specialties. Not only in EXTRACTIONS, but all other dental operations, where it is possible to alleviate dental pain.
