Mr. Thomas has been a factor in the development of the Talent district, as well as of other southern Oregon irrigation projects, and was quite elated at the action of the late legislature in passing over the governor's veto the bill which will prevent the holding up of districts for rights of way for dams and canals. The new bill permits the districts to file bonds to cover damages, when immediate possession of the right of way required can be obtained, thus preventing a single selfish interest from delaying the work upon an entire project.
