HUDSON CAR HITS FIRE PLUG AND FLOOD RESULTS

Jack Gailbraith, driving a Hudson touring car rolled up to the curb in front of the Rexall drug store at 12:45 this afternoon and struck the fire plug which stands a few inches from the curb in front of that establishment. The impact cracked the casting and the plug began to gush the fish lake "Adam's Ale" in a manner that would do credit to Old Faithful itself. No damage was done to the car. The water ran East on Main street and north on Grape and Fir streets in streams from five to eight feet wide and several inches deep. Fletcher Stout, of the Rexall Pharmacy whipped out a camera that looked like a cross between an Evinrude and a Corona and began snapping pictures of the spouting column of water from all angles. Pictures, the size of a postage stamp, but entirely commemorating the event, may be secured from him.

Telephone calls were sent to Chas. Davis, city water superintendent, and Frank Minkler arrived on the scene looked out in rubber boots and a slicker; surmounted by a rubber hat and began work with a couple of T wrenches that looked like pickaxes. He pulled the iron plug that protects the hole where the valve is situated, inserted the wrench and shut the water off, but not before he had become thoroughly irritated. It was a cold job considering the thermometer stood in the neighborhood of 23 deg. Far.

The water was shut off at approximately one o'clock.
