

# News of Jackson County

## BUTTE FALLS

Everett Abbott and family have moved into the Cobleigh house. Glenn Albert, while returning from the surveying work, was unfortunate in running a rusty spike in his foot Tuesday evening and had a very sore foot which laid him up for the rest of the week.

H. D. Mills is getting to be a frequent visitor up here to this winter resort.

Harry Herferford has been visiting with his family the past week, returning to Medford Tuesday, where he is working at the Stanley meat market. The cold wave has passed over, leaving a good record for this year. It was four above here, the coldest night, and some damage was done to the water pipes, especially Frank Carson's barber shop. The plumbing was all frozen and bursted. He has been busy repairing, having to put in lots of new pipe, but will be ready for his patients Friday.

News reached here Wednesday of E. A. Hildreth's death. They were spending the winter in Cottage Grove. Buel Hildreth and wife were called over there about three weeks ago, when the father was taken so bad. He has been hovering between life and death ever since. The many friends extend their sympathy to the bereaved family.

The basketball team returned Tuesday of last week very much tired out, as the traveling was hard and cold weather disagreeable. The boys enjoyed the games and were treated to several banquets, which they enjoyed equally well. Central Point played a very rough game, knocking out their center the first game by breaking a bone in his wrist, beside hurting most all of the other players by sprains and bruises, but with all their bad luck they won four out of the six games.

Sore throats and tonsillitis has been the prevailing epidemic the past two weeks.

Mr. Pool has been very sick the last week, but is reported as a little better today. A trained nurse came up today to take care of him. Professor Ward has been offering his services, as they were unable to get a doctor up here. Mr. Ward has had two years of training in the army on medicine.

We now have about eight inches of snow and more falling tonight, the last of January. We have good sleighing.

J. Doubleday was spinning around in his cutter today.

Missie Pool has entered school for the last half, also Miss Conley, and the Tansey children from Medford.

Mr. Natwick has the contract of grading the railroad to the hatchery, which he estimates will take three months to complete. He has moved up here and is making ready to start work as soon as the storm lets up. Mrs. Natwick has a cook house in the Pool building.

The cruisers will commence work again next week.

Mr. and Mrs. Cox moved back to town Monday. It begins to look as though work will be plentiful by another week or so.

Ray Spencer, Elmer Hoef, and John Clark are expected home this week.

There will be a moving day the last of the week, as three families will have to move out and in the same day, on account of real estate transfers. Mahoney's will move into the Peeler house from the Fredenburg house. Mrs. Abbott out of the Peeler house into the Chiner house that she has just bought, and the family that lives in this house will move into the Fredenburg house.

Mrs. Aline Jackson entertained a few of her friends Tuesday evening with cards and music. After this refreshments were served. Ice cream, cake and sandwiches. Those present were the Misses Gertrude and Ernestine Fredenburg, Velta Hanna, Essie Whaley and Sam Hughes, Ernest and Glenn Albert and Elgie Abbott.

Professor Lowe has been on the sick list for a few days.

Mrs. Dollis Brainerd is visiting her parents.

The engine was derailed for a short time Tuesday.

Mr. and Mrs. Barker gave an informal dinner to the basketball boys, Coach Ward, Professor Lowe, and Ira Tongate, a member of the school board as well as an interesting rooster at the previous games played recently in the valley. The boys say it was "some feed." Mr. Barker gave a few of his musical selections, after which cards and jokes finished the evening entertainment.

Our hatchery is putting out some very interesting work in the line of eggs this winter, which heretofore has been impossible or supposed to be, as they take the green eggs from the spawning stations on Little Butte, ship them up here to the hatchery, where they remain until the eye stage, then they ship them on to other hatcheries. They have just finished shipping out one hundred and forty-seven thousand eggs to Tumola hatchery, Bend, Oregon, one hundred and thirty-two thousand eggs to Union, Oregon.

Ernest Albert and Herrold Patton are giving a dance in the town hall Saturday evening. Everybody welcome, supper and good music.

C. W. Jackson handed me in his subscription for The Medford Mail Tribune this morning.

## LITTLE APPLIGATE

Those attending school every day last month are Clay Combest, Elnora, Earl and Lloyd Silva and Claus Kleinhammer.

Jimmy Giese started to school Monday and the river was frozen over so he started to follow a trail on the hills to school but became lost. James Reynolds came along and found him and took him home.

Walter Zedler has cured some bacon for several parties in the neighborhood. He sure knows how to cure bacon, for we got some of it.

Mr. and Mrs. James Reynolds were business visitors at Frank Silva's last Monday.

Mr. and Mrs. Sidney Stearns of Talent were guests at the home of Elnora Combest last Saturday and Sunday.

Arthur Kleinhammer left the latter part of the week on a business visit to California points.

Mr. and Mrs. Walter Zedler and Wm. Pursel were pleasant visitors of Mr. and Mrs. Frank Cameron one evening last week.

The per cent of attendance for the pupils of the Little Applegate school last month was 98, and the month before last 100 per cent. The pupils are very much handicapped by being so few in number, yet are doing excellent work. Miss Burr county supervisor visited with us last Thursday and was much pleased with the progress made especially by the eighth grade.

Ardith Combest who is attending high school in Medford visited with home folks last Sunday, returning in the evening to resume her school work.

Mr. and Mrs. Clifford Dunnington were callers at the home of Mr. and Mrs. Frank Silva Tuesday.

Dean Saltmarsh is spending the week with Mrs. L. J. Combest and family.

Ralph Jennings left Saturday for California points. He expects to be gone most of the summer.

A very enjoyable evening was spent at Mr. and Mrs. Paul Anderson's last Saturday. Miss Louise Hodges and Wm. Pursel rendered several instrumental pieces and Flossie Zedler favored us with a few vocal solos, after which cards were brought out and played until a late hour. Mrs. Anderson served coffee and cake.

We were visited again Tuesday evening by two inches of snow. There has been snow continuously on the ground since January 6th.

Charlie Dunford and Louis Jennings called on Wm. Pursel Tuesday evening.

Frank Silva lost a very valuable milk cow, thought to be caused by a fall.

A trembling of the earth was noticeable on the Little Applegate Tuesday.

ber of ears were ready at 7:30. The members of school were ordered to enter the ears, not knowing what was in store for them. The first stop was made at the Easter home where some time was spent in games finishing with good things to eat. Then where, just follow the leader and before one could think, the guests found themselves at the Stevens home. Here they found the same happy welcome; the remainder of the evening was spent in enjoyment of music and more eats.

The time for the entertainment put on by the three literary societies, will be February third. There will be three interesting parts—a short play, minstrel, Doctor Cut and Slash. The money will go to defray the expenses of the athletic association.

Those that are interested in the school and would like to know what students can do themselves, should not miss this entertainment.

## Common Sense About Eczema and Eruptions!

Here's Something About S. S. S. That You'll Be Glad to Hear.

You might just as well know it right now—the cause of skin eruptions, pimples, blackheads, boils and so on, is right in the blood. There is no getting away from it. Science has proved it. When the cause of skin troubles and eruptions is in the blood, it isn't com-

Let S. S. S. Give You An Angelle Skin!

mon sense to simply treat the skin. A bottle of S. S. S. will prove to you what is happening in your blood. S. S. S. is a scientific blood cleanser—it drives out the impurities which cause eczema, dandruff, rash, pimples, boils, blackheads, blotches and other skin eruptions. When these impurities are driven out, you can't stop several very nice things from happening. Your lips turn naturally rosy. Your eyes sparkle, your complexion clears. It becomes beautiful. Your face looks like that of a prosperous, ruddy, well-fed, refined gentleman, or if you are a woman, your complexion becomes the real kind that the whole world so admires. S. S. S. is also a powerful body-builder, because it builds new and more blood cells. That's why it fills out sunken cheeks, bony necks, thin limbs, helps regain lost flesh. It costs little to have this happen to you. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

## PHOENIX SCHOOL NOTES

The semester examination will be given this week. Some pupils are exempt because of their excellent work. Ned Wold of Medford entered the high school Tuesday.

The Senior class entertained the high school and teachers in a royal manner last Friday evening. A num-
